The Amazons A Marxian Study:

The Amazons Emanuel Kanter,1926 **Lesbian Choices** Claudia Card,1995 In this compellingly honest collection of her writings renowned feminist philosopher Claudia Card courageously explores the complex ethical and political questions lesbians face considering these issues in regard to their identities and relationships both within and outside of lesbian communities Lesbian Choices is written with a grace and clarity that readers inside and outside academia will appreciate Claudia Card s lucid presentation of complicated philosophical and ethical concepts offers a better understanding of the explosive issue of gender construction in our society Lesbian Choices is recommended reading for anyone interested in lesbianism feminism ethics and philosophy The Amazons Emanuel Kanter,1926 *The Subordinated Sex* Vern L. Bullough,Brenda Shelton,Sarah Slavin,1988-10-01 The Subordinated Sex traces the enduring powerful legacy of male attitudes toward women their sexuality and their roles as wives and mothers Traditionally the creators and chroniclers of opinion men have until recently written a history that reflects only their own convictions and impressions a history rarely punctuated by a female voice and founded on an almost universal belief in women s inferiority Acclaimed as a pioneering study when first published in 1973 Vern Bullough s work has since established itself as a standard in historical literature on women Updated and revised with Sarah Slavin and Brenda Shelton The Subordinated Sex is a vast survey ranging from prehistoric to contemporary times examining a diversity of cultures and taking into account writings from a great variety of sources From a consideration of Babylonian legal codes to Victorian prescriptive medical pamphlets medieval clerical treatises to Islamic erotic poetry Bullough and his coauthors recount not only how men have portrayed women but also how they have justified their subordination of the opposite sex In recent years women have successfully challenged males self designated role as gatekeepers of written records and have found within the past a more complete view of how women lived what they thought and what they achieved By focusing however not on women s history but on the history of men s attitudes toward their female companions The Subordinated Sex reveals more than any other single work the conditions that sparked the feminist movement and the reasons it must inspire a change in the lives of men as well as women *The Amazons of Greek Mythology* Donald J. Sobol,1972 **Among Our Books** Carnegie Library of Pittsburgh,1928 The Double Goddess Vicki Noble,2003-06-19 A study of the double goddess iconography prominent in Neolithic and Bronze Age cultures that expands our understanding of female sovereignty Celebrates this archetype of sacred female bonding and depicts a vast array of relationships women may form with themselves and each other to explore a sense of self and empowerment and to share power with each other War and Gender Joshua S. Goldstein,2003-07-17 Gender roles are nowhere more prominent than in war Yet contentious debates and the scattering of scholarship across academic disciplines have obscured understanding of how gender affects war and vice versa In this authoritative and lively review of our state of knowledge Joshua Goldstein assesses the possible explanations for the near total exclusion of women from combat forces through history

and across cultures Topics covered include the history of women who did fight and fought well the complex role of testosterone in men s social behaviours and the construction of masculinity and femininity in the shadow of war Goldstein concludes that killing in war does not come naturally for either gender and that gender norms often shape men women and children to the needs of the war system Illustrated with photographs drawings and graphics and drawing from scholarship spanning six academic disciplines this book provides a unique study of a fascinating issue *Monthly Bulletin of the Carnegie Library of Pittsburgh* Carnegie Library of Pittsburgh,1927 *European Images of the Americas and the Classical Tradition* Wolfgang Haase,Reinhold Meyer,2011-08-02 No detailed description available for European Images of the Americas and the Classical Tradition **Androgynous Democracy** Aaron Shaheen,2010-07-27 Androgynous Democracy examines how the notions of gender equality propounded by transcendentalists and other nineteenth century writers were further developed and complicated by the rise of literary modernism Aaron Shaheen specifically investigates the ways in which intellectual discussions of androgyny once detached from earlier gonadal based models were used by various American authors to formulate their own paradigms of democratic national cohesion Indeed Henry James Frank Norris Charlotte Perkins Gilman John Crowe Ransom Grace Lumpkin W E B Du Bois and Marita Bonner all expressed a deep fascination with androgyny an interest that bore directly on their thoughts about some of the most prominent issues America confronted as it moved into the first decades of the twentieth century Shaheen not only considers the work of each of these seven writers individually but he also reveals the interconnectedness of their ideas He shows that Henry James used the concept of androgyny to make sense of the discord between the North and the South in the years immediately following the Civil War while Norris and Gilman used it to formulate a new model of citizenship in the wake of America s industrial ascendancy The author next explores the uses Ransom and Lumpkin made of androgyny in assessing the threat of radicalism once the Great Depression had weakened the country s faith in both capitalism and religious fundamentalism Finally he looks at how androgyny was instrumental in the discussions of racial uplift and urban migration generated by Du Bois and Bonner Thoroughly documented this engrossing volume will be a valuable resource in the fields of American literary criticism feminism and gender theory queer theory and politics and nationalism **The Publishers Weekly** ,1926 *Catalog of Copyright Entries. New Series* Library of Congress. Copyright Office,1927 Part 1 Books Group 1 v 23 Nos 1 128 Issued April 1926 March 1927 *The Dancing Column* Joseph Rykwert,1998 Joseph Rykwert is one of the major architectural historians of this century THE DANCING COLUMN is his most controversial and challenging work to date A decade in preparation it is a deeply erudite clearly written and wide ranging deconstruction of the system of column and beam known as the orders of architecture Rykwert traces the analogy between columns and or buildings and the human body 315 illustrations **The Subordinate Sex** Vern L. Library on the History of Women in America,1984 **Industrial Pioneer** ,1925 **Capitalism in the Anthropocene** John Bellamy Foster,2022-08-23 Over the last 11 700 years during which human civilization developed the earth has existed within what geologists refer to as the Holocene Epoch Now science is telling us that the Holocene Epoch in the geological time scale ended replaced by the onset of a new more dangerous Anthropocene Epoch which began around 1950 The Anthropocene Epoch is characterized by an anthropogenic rift in the biological cycles of the Earth System marking a changed reality in which human activities are now the main geological force impacting the earth as a whole generating at the same time an existential crisis for the world s population What caused this massive shift in the history of the earth In this comprehensive study John Bellamy Foster tells us that a globalized system of capital accumulation has induced humanity to foul its own nest The result is a planetary emergency that threatens all present and future generations throwing into question the continuation of civilization and ultimately the very survival of humanity itself Only by addressing the social aspects of the current planetary emergency exploring the theoretical historical and practical dimensions of the capitalism s alteration of the planetary environment is it possible to develop the ecological and social resources for a new journey of hope Lesbian Origins Susan Cavin,1985 Lesbian feminism has often been scorned as a marginal political dogma Susan Cavin a lesbian feminist sociologist advances a new theory of women s oppression and women s liberation based on cross cultural data She holds that original human societies were woman centered with females greatly outnumbering males men occupied a marginal position When armed men overthrew women s societies they integrated themselves into society breaking women s power
