Motoring John A. Jakle,Keith A. Sculle,2008-01-01 Motoring unmasks the forces that shape the American driving experience commercial aesthetic cultural mechanical as it takes a timely look back at our historically unconditional love of motor travel Focusing on recreational travel between 1900 and 1960 John A Jakle and Keith A Sculle cover dozens of topics related to drivers cars and highways and explain how they all converge to uphold that illusory notion of release and rejuvenation we call the open road Jakle and Sculle have collaborated on five previous books on the history culture and landscape of the American road Here with an emphasis on the driver s perspective they discuss garages and gas stations roadside tourist attractions freeways and toll roads truck stops bus travel the rise of the convenience store and much more All the while the authors make us think about aspects of driving that are often taken for granted how for instance the many lodging and food options along our highways reinforce the connection between driving and freedom and how by enabling greater speeds highway engineers helped to stoke motorists blessed fantasy of flight Although driving originally celebrated freedom and touted a common experience it has increasingly become a highly regulated isolated activity The motive behind America s first embrace of the automobile individual prerogative still substantially obscures this reality Americans did not have the automobile imposed on them say the authors Jakle and Sculle ask why some of the early prophetic warnings about our car culture went unheeded and why the arguments of its promoters resonated so persuasively Today the automobile is implicated in any number of environmental even social problems As the wisdom of our dependence on automobile travel has come into serious question reassessment of how we first became that way is more important than ever      Visual Merchandising Louisa Iarocci,2017-07-05 Situated at the crossroads of visual culture and consumerism this essay collection

examines visual merchandising as both a business and an art It seeks to challenge that scholarly ambivalence that often celebrates the spectacle but denies the agenda of consumerism The volume considers strategies in the imaging of selling from the mid nineteenth century to the present in terms of the visual interaction that occurs between the commodity and the consumer and between body and space Under the categories of Promotion Product and Place contributors to the volume examine the strategies in the presentation of retail goods and environments that range from print advertising to product design to store display and architecture Visual Merchandising The Image of Selling is located directly at the nexus of business practice and cultural myth where the spectator never loses sight of their status as buyer and the object of desire is always still a commodity

**Energy in American History** Jeffrey B. Webb,Christopher R. Fee,2024-05-30 Contextualizes and analyzes the key energy transitions in U S history and the central importance of energy production and consumption on the American environment and in American culture and politics Focusing on the major energy transitions in U S history from the pre industrial era to the present day this two volume encyclopedia captures the major advancements events technologies and people synonymous with the production and consumption of energy in the United States Expert contributors show how for example the introduction of electricity and petroleum into ordinary American life facilitated periods of rapid social and political change as well as profound and ongoing impacts on the environment These developments have in many ways defined and accelerated the pace of modern life and led to vast improvements in living conditions for millions of people just as they have also brought new fears of resource exhaustion and fossil fuel induced climate change Today as America begins to move beyond the use of fossil fuels toward a greater reliance on renewables including wind and solar energy there is a pressing need to understand energy in America s past in order to better understand its energy future

*Picturing the Postcard* Monica Cure,2018-12-18 The first full length study of a once revolutionary visual and linguistic medium Literature has died many times this book tells the story of its death by postcard Picturing the Postcard looks to this unlikely source to shed light on our collective modern day obsession with new media The postcard almost unimaginably now produced at the end of the nineteenth century the same anxieties and hopes that many people think are unique to twenty first century social media such as Facebook or Twitter It promised a newly connected social world accessible to all and threatened the breakdown of authentic social relations and even of language Arguing that new media is as much a discursive object as a material one and that it is always in dialogue with the media that came before it Monica Cure reconstructs the postcard s history through journals legal documents and sources from popular

culture analyzing the postcard's representation in fiction by well known writers such as E M Forster and Edith Wharton and by more obscure writers like Anne Sedgwick and Herbert Flowerdew Writers deployed uproar over the new medium of the postcard by Anglo American cultural critics to mirror anxieties about the changing nature of the literary marketplace which included the new role of women in public life the appeal of celebrity and the loss of privacy an increasing dependence on new technologies and the rise of mass media Literature kept open the postcard's possibilities and in the process reimagined what literature could be     Forthcoming Books Rose Arny,1996-10     **Popular Science** ,1945-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better     *Ulrich's International Periodicals Directory* Carolyn Farquhar Ulrich,1991     *The Book of Postcard Collecting* Thomas E.
