The American Frugal Housewife by Lydia Maria Francis Child The true economy of housekeeping is simply the art of gathering up all the fragments so that nothing be lost I mean fragments of time as well as materials Nothing should be thrown away so long as it is possible to make any use of it however trifling that use may be and whatever be the size of a family every member should be employed either in earning or saving money Time is money For this reason cheap as stockings are it is good economy to knit them Cotton and woollen yarn are both cheap hose that are knit wear twice as long as woven ones and they can be done at odd minutes of time which would not be otherwise employed Where there are children or aged people it is sufficient to recommend knitting that it is an employment We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work
