The American Hobo:

The American Hobo N. Anderson, 2023-07-31 *The American Hobo* Brian Fallman, 1993 **Life for the American Hobo** Jo Ann Gurule, 2009

The hobo has long been romanticized and depicted as carefree in our country as imagination through pictures, figurines, movies, and TV shows. His myth makes a better story than his reality. Hobos were misjudged and mistreated. Their reality was brutal, sad, and lonely. Their survival depended upon courage and wits. As a reader, you will be introduced to their reality during the Great Depression years. There are quotes from the hobos themselves telling the reasons for leaving home, the train cars they rode, life in their jungles camps, advice given from the seasoned hobos to the novice, hobo treatment from the bulls, railroad detectives, begging for food, finding work, their health, injuries, and death, and their entertainment and traditions.

Tales of an American Hobo Charles Elmer Fox, 1989

Reefer Charlie Fox rode the rails from 1928 to 1939. From 1939 to 1965, he hitched rides in automobiles and traveled by foot. From Indiana to British Columbia, from Arkansas to Texas, from Utah to Mexico, he was part of the grand hobo tradition that has all but passed away from American life. He camped in hobo jungles, slept under bridges and in sand houses at railroad yards, ate rattlesnake meat, fresh California grapes, and fish speared by the Indians of the Northwest. He quickly learned both the beauty and the dangers of his chosen way of life. One lesson learned early on was that there are distinct differences among hoboes, tramps, and bums. As the all-time king of hoboes, Jeff Davis used to say: Hoboes will work, tramps won't, and bums can't. *Tales of an American Hobo* is a lasting legacy to conventional society, teaching about a bygone era of American history and a rare breed of humanity who chose to live by the rails and on the road.

[On Hobos and Homelessness](#) Nels Anderson,1998 Nels Anderson was a pioneer in the study of the homeless In the early 1920s Anderson combined his

own experience on the bummers with his keen sociological insight to give voice to a largely ignored underclass He remains an extraordinary and underrated figure in the history of American sociology On Hobos and Homelessness includes Anderson's rich and vibrant ethnographic work of a world of homeless men He conducted his study on Madison street in Chicago and we come to intimately know this portion of the 1920s hobo underworld the harshness of vagrant life and the adventures of young hobos who come to the big city This selection also includes Anderson's later work on the juvenile and the tramp the unattached migrant and the family Like John Steinbeck's Depression era observations Anderson's writings express the memory of those who do not seem entitled to have memory whose lives were expressed in temporary labor The Last Great American Hobo Dale Maharidge,1993 Examines the life of Blackie a hobo for sixty years as he chooses to defend his life on the banks of the Sacramento and fight America's changing attitude toward the homeless **Tales of an American Hobo** Charles Elmer Fox,1987-10-01 *The Chicago School of Sociology* Martin Bulmer,1986-08-15 From 1915 to 1935 the inventive community of social scientists at the University of Chicago pioneered empirical research and a variety of qualitative and quantitative methods shaping the future of twentieth century American sociology and related fields as well Martin Bulmer's history of the Chicago school of sociology describes the university's role in creating research based and publication oriented graduate schools of social science This is an important piece of work on the history of sociology but it is more than merely historical Martin Bulmer's undertaking is also to explain why historical events occurred as they did using potentially general theoretical ideas He has studied what he sees as the period from 1915 to 1935 when the Chicago School most flourished and defines the nature of its achievements and what made them possible It is likely to become the indispensable historical source for its topic Jennifer Platt Sociology *Streets* Zeynep Çelik,Diane Favro,Richard Ingersoll,1994 This collection of twenty one essays written by colleagues and former students of the architectural historian Spiro Kostof 1936 1991 presents case studies on Kostof's model of urban forms and fabrics The essays are remarkably diverse the range includes pre Columbian Inca settlements fourteenth century Cairo nineteenth century New Orleans and twentieth century Tokyo The theme of the volume is that the street presents itself as the basic structuring device of a city's form and also as the locus of its civilization Each essay is a detailed investigation of a single urban street with unique historical conditions The authors shared concern regarding anthropological political and technical aspects of street making coalesce into a critical discourse on urban space **Citizen Hobo** Todd DePastino,2024-05-31 In the years following the Civil War a veritable army of homeless men swept across America's wageworkers frontier and forged a beguiling and bedeviling counterculture known as hobohemia Celebrating unfettered masculinity and jealously guarding the American road as the preserve of white manhood hoboes took command of downtown districts and swaggered onto center stage of the new urban culture Less obviously perhaps they also staked their own claims on the American polity claims that would in fact transform the very entitlements of American citizenship In this eye opening work of American history Todd DePastino tells the epic story of

hobohemia's rise and fall and crafts a stunning new interpretation of the American century in the process. Drawing on sources ranging from diaries, letters and police reports to movies and memoirs, *Citizen Hobo* breathes life into the largely forgotten world of the road but it also crucially shows how the hobo army so haunted the American body politic that it prompted the creation of an entirely new social order and political economy. DePastino shows how hoboes with their reputation as dangers to civilization, sexual savages and professional idlers became a cultural and political force influencing the creation of welfare state measures, the promotion of mass consumption and the suburbanization of America. *Citizen Hobo's* sweeping retelling of American nationhood in light of enduring struggles over home does more than chart the change from homelessness to houselessness. In its breadth and scope, the book offers nothing less than an essential new context for thinking about Americans' struggles against inequality and alienation.

Marginal People in Deviant Places Janice M. Irvine, 2022-07-25 *Marginal People in Deviant Places* revisits twentieth-century ethnographic studies of deviance, arguing that ethnographies that focus on marginal subcultures ranging from Los Angeles hoboes to men who have sex with other men in St. Louis bathrooms to taxi dancers in Chicago to elderly Jews in Venice, California, produce new ways of thinking about social difference more broadly in the United States. Irvine demonstrates how the social scientists who told the stories of these marginalized groups offered an early challenge to then-dominant narratives of scientific racism and then offers a social history of certain American outsiders and a prehistory of the academic fields of ethnic studies and sexuality studies. Through the stories Irvine recounts in this book, she identifies an American paradox represented in a simultaneous desire for and rejection of outsiders and describes the rise of an outsider capitalism that integrates difference into American society by marketing it. Place plays a crucial role in this work as Irvine examines its role in shaping ethnographies about outsiders and therefore understandings of social difference. Irvine has visited the sites of each of the ethnographies about which she writes, collecting photos, videos and archival materials that will help readers understand the importance of place in the generation of particular ethnographic stories. The open access online edition of this book is richly illustrated to help convey the deep sense of emplacement of the ethnographies discussed in this book and includes a series of interviews with sociologists about how they conduct their work and understand their forebears.

Inside Science Robert E. Kohler, 2019-02-27 Context and situation always matter in both human and animal lives. Unique insights can be gleaned from conducting scientific studies from within human communities and animal habitats. *Inside Science* is a novel treatment of this distinctive mode of fieldwork. Robert E. Kohler illuminates these resident practices through close analyses of classic studies of Trobriand Islanders, Chicago hobos, corner boys in Boston's North End, Jane Goodall's chimpanzees of the Gombe Stream Reserve and more. Intensive firsthand observation, a preference for generalizing from observed particulars rather than from universal principles and an ultimate framing of their results in narrative form characterize these inside stories from the field. Resident observing takes place across a range of sciences from anthropology and sociology to primatology, wildlife ecology and beyond. What makes it

special Kohler argues is the direct access it affords scientists to the contexts in which their subjects live and act These scientists understand their subjects not by keeping their distance but by living among them and engaging with them in ways large and small This approach also demonstrates how science and everyday life often assumed to be different and separate ways of knowing are in fact overlapping aspects of the human experience This story driven exploration is perfect for historians sociologists and philosophers who want to know how scientists go about making robust knowledge of nature and society

Jack Kerouac's Duluoz Legend James T. Jones, 1999 Noting that even casual readers recognize family relationships as the basis for Kerouac's autobiographical prose Jones discusses these relationships in terms of Freud's notion of the Oedipus complex

BOOK JACKET Vagabonds, Tramps, and Hobos Owen Clayton, 2023-08-10 The most enduring version of the hobo that has come down from the so called Golden Age of Tramping 1890s to 1940s is an American cultural icon signifying freedom from restraint and rebellion to the established order while reinforcing conservative messages about American exceptionalism individualism race and gender *Vagabonds Tramps and Hobos* shows that this pioneer hobo image is a misrepresentation by looking at works created by transient artists and thinkers including travel literature fiction memoir early feminist writing poetry sociology political journalism satire and music This book explores the diversity of meanings that accrue around the hobo and the tramp It is the first analysis to frame transiency within a nineteenth century literary tradition of the vagabond a figure who attempts to travel without money This book provide new ways for scholars to think about the activity and representation of US transiency

Harry Partch, Hobo Composer S. Andrew Granade, 2014 During the Great Depression Harry Partch rode the railways following the fruit harvest across the country From his experience among hoboes he found what he called a fountainhead of pure musical Americana Although he later wrote immense stage works for instruments of his own creation he is still regularly called a hobo composer for the compositions that grew out of this period of his life Yet few have questioned the label's impact on his musical output compositional life and reception Focusing on Partch the person alongside the cultural icon he represented this study examines Par
