James,Tim Bale,Patrick Diamond,2025-09-30 As the party that has held power more times than any other the Conservatives have played a crucial role in the shaping of British society And yet the leaders who have stood at its helm from Sir Robert Peel to Rishi Sunak via Winston Churchill and Margaret Thatcher have steered the party vessel with

enormously varying degrees of success particularly latterly when the short but destructive tenures of Boris Johnson and Liz Truss did much to damage the party's reputation for competence. The requirements, techniques and goals of Conservative leadership since the party's nineteenth century factional breakaway have been forced to evolve almost beyond recognition and not all its leaders have managed to keep up. This comprehensive and enlightening book, now fully updated with chapters on all Conservative leaders up to Rishi Sunak and an assessment of the party's leadership in relation to Brexit, considers the attributes and achievements of each leader in the context of their respective time and diplomatic landscape. Offering a compelling analytical framework by which they may be judged, it also provides detailed personal biographies from some of the country's foremost political critics and exclusive interviews with former leaders themselves. An indispensable contribution to the study of party leadership.

British Conservative Leaders is the essential guide to understanding British political history and governance.

Allies at Odds Eugenie M. Blang, 2011-04-16 *Allies at Odds* examines America's Vietnam policy from 1961 to 1968 in an international context by focusing on the United States relationship with its European partners France, West Germany and Great Britain. The European response to America's Vietnam policy provides a framework to assess this important chapter in recent American history within the wider perspective of international relations. Equally significant, the respective approaches to the Vietnam question by the Europeans and Americans reveal the ongoing challenge for nation states of transcending narrowly defined state-centered policies for a global perspective pursuant of common goals among the trans-Atlantic allies. Blang explores the failure of France, West Germany and Great Britain to significantly influence American policy making.
