risks and symptoms as well as information on heart healthy eating including the National Heart Lung and Blood Institute's DASH diet. Even if heart disease runs in your family, you can still lower your risk of developing it by following the simple guidelines found in this comprehensive resource. For every 3 pounds you lose, there is a corresponding drop of about 2mm Hg in your diastolic pressure, and by bringing down your blood pressure to healthy levels, your risk of stroke can be reduced by 35 to 50 percent. If you have already had a heart attack or a stroke, this book offers vital practical information on preventing another one. Highlighting prevention, lifestyle changes, testing, and treatments, the American Medical Association Guide to Preventing and Treating Heart Disease provides you and your loved ones with the essential tools you need to reclaim a healthier life.

**The No Bull Book on Heart Disease** Joel Okner, Jeremy Clorfene, 2009. Written in plain English by a board-certified cardiologist and a clinical psychologist who specializes in heart disease, this is a practical, what-to-expect guide that will help readers cope with their confusion, fear, and lack of information, as well as decode what doctors really mean when they describe certain cardiac procedures, treatments, and medications. The authors clearly explain these issues so that anyone who is at risk of heart disease or who already has it will have a deeper understanding of what a heart attack is, how to deal with the hospital experience, and how to interact more effectively with their doctors. In addition, the book offers insights into often neglected aspects of the disease, such as the role a patient's spouse and family play in recovery, and what women should be aware of in the diagnostic phase of their treatment. Finally, the authors supply workable motivational tools, an effective treatment model anyone can understand and use to help make important lifestyle changes in order to get better, stay better, and avoid invasive and expensive procedures in the future.
