Social Change and Social Issues in the Former USSR Walter Joyce, 2016-07-27 Perestroika has led to more openness than ever before about Soviet social problems and it has accelerated the processes of demographic and social change In this collection a group of leading British European and North American specialists analyse the central features of a changing society concentrating upon mortality patterns in the population itself and upon the social problems that have been brought to the fore by glasnost such as drugs and alcohol abuse Youth and Social Change in Eastern Europe and the Former Soviet Union Charles Walker, Svetlana Stephenson, 2013-09-13 Two decades have now passed since the revolutions of 1989 swept through Eastern Europe and precipitated the collapse of state socialism across the region engendering a period of massive social economic and political transformation This book explores the ways in which young people growing up in post socialist Eastern Europe and the former Soviet Union negotiate a range of identities and transitions in their personal lives against a backdrop of thoroughgoing transformation in their societies Drawing upon original empirical research in a range of countries the book's contributors explore the various freedoms and insecurities that have accompanied neo liberal transformation in post socialist countries in spheres as diverse as consumption migration political participation volunteering employment and family formation and examine the ways in which they have begun to re shape different aspects of young people's lives In addition while social change is a central theme of the issue all of the chapters in the collection indicate that the new opportunities and risks faced by young people continue both to underpin and to be shaped by familiar social and spatial divisions not only within and between the countries addressed but also between East and West This book was originally published as a special issue of Journal of Youth Studies **School and Society in Tsarist and Soviet Russia** Stephen White, Ben Eklof, 1993-08-12 *IBSS: Sociology: 1993 Vol 43* International Committee for Social Science Information and Documentation, 1994 This bibliography lists the most important works published in sociology in 1993 Renowned for its international coverage and rigorous selection procedures the IBSS provides researchers and librarians with the most comprehensive and scholarly bibliographic service available in the social sciences The IBSS is compiled by the British Library of Political and Economic Science at the London School of Economics one of the world's leading social science institutions Published annually the IBSS is available in four subject areas anthropology economics political science and sociology The Challenges of a Society in Transition Yohannes Gebremedhin, 2004 Social Challenges Facing Cuba DR. Factors Behind the Ukrainian Evangelical Missionary Surge from 1989 to 1999 John Edward White, 2020-03-16 Throughout its history the Soviet Union was one of the most closed places in the world to missionary work As perestroika came in the late 1980s and the Soviet Union fell in 1991 a spiritual vacuum formed as massive numbers of people became interested in Christianity An unprecedented freedom allowed evangelicals to engage in missionary work Much has been written about foreign evangelical missionary work during this period but virtually nothing has been written about nationals doing ministry This book examines the remarkable surge in Ukrainian evangelical missionary work from 1989 to 1999 Both

Baptists and Pentecostals engaged in a wave of missions flowing from Ukraine to the end of the earth Siberia What were these pioneering missionaries like What motivated them What enabled them to do what had been forbidden for so long What legacy did they leave for us today What can we learn from their example for future missions This book also looks at how a surge in missions takes place analyzing the factors behind the Ukrainian evangelical missionary surge by looking at different models for change Here we consider what steps can we take to help bring about new missionary surges **Social**

Problems Anna Leon-Guerrero, 2015-06-18 Empower your students to become part of the solution With a clear and upbeat voice author Anna Leon Guerrero s thought provoking overview of social problems challenges readers to understand and recognize social problems in their communities and inspires them to become part of the solution The Fifth Edition of Social Problems Community Policy and Social Action goes beyond the typical presentation of contemporary social problems and their consequences by emphasizing the importance and effectiveness of community involvement to achieve real solutions With an overarching focus on social inequalities and policy this proven text provides a platform for discussion that encourages critical thinking and inspires hope The extra emphasis on social action and movements is a real strength I like that the three major perspectives are used in each chapter as I feel many texts just put that in the first chapter and then forget about it Todd Michael Callais University of Cincinnati Blue Ash **Archaeology in Society** Marcy Rockman, Joe Flatman, 2011-11-17 The practice of archaeology has many different facets from academia to government to cultural resource management to public media Considering the place of archaeology in society means understanding the role that archaeology has in the present day and a sense of the contributions that it can make in each of these areas both now and in the future Archaeologists come to the field to pursue a variety of interests teaching examining history preserving the environment or studying a specialized time period or interest The outside world has a number of other expectations of archaeology preservation tourism and education to name but a few From a broad and varied background the editors have compiled a rare group of contributors uniquely qualified to address questions about the current state of archaeology and its relevance in society There is no single answer to the question of how the field of archaeology should develop and what it can do for society Instead the authors in this volume lay out the many ways in which archaeology is relevant to the present day considering for example climate change energy exploration warfare national identity the importance of stories and how they are told and how and why opportunities to engage with the past through museums digs television classes and the print media have the form they currently do creating a state of the art tool for archaeologists policymakers and the public alike to understand the work of many in the field and address the challenges we all face *Democracy versus Modernization* Vladislav Inozemtsev, Piotr Dutkiewicz, 2013-05-07 This book seeks to re think democracy Over the past years there has been a tendency in the global policy community and even more widely in the world s media to focus on democracy as the gold standard by which all things political are measured This book re examines democracy in Russia and in the world more

generally as idea desired ideal and practice A major issue for Russia is whether the modernization of Russia might not prosper better by Russia focusing directly on modernization and not worrying too much about democracy This book explores a wide range of aspects of this important question It discusses how the debate is conducted in Russia outlines how Russians contrast their own experiences unfavourably with the experience of China where reform and modernization have been pursued with great success with no concern for democracy and concludes by assessing how the debate in Russia is likely to be resolved

Green Activism in Post-Socialist Europe and the Former Soviet Union Adam Fagan, JoAnn Carmin, 2014-06-11 Green activism played a critical role in the downfall of Soviet style communism in Eastern Europe at the end of the 1980s After the revolutions environmentalists were expected to exert influence within the new democracies and to form the bedrock of the new civil societies that were predicted to flourish across the region the prospect of EU membership provided activist networks with even greater optimism about their political opportunities Two decades later what has been the impact of political and economic liberalisation on environmental campaigners and policy advocates Has access to elites increased with democratisation and Europeanization To what extent does the realm of environmental politics within individual states and across the region continue to represent an optic on change and continuity Through country case studies and comparative analysis of national movements this edited volume addresses each of these questions and provides a different perspective of green politics in the region This book was previously published as a special issue of *Environmental Politics*

Europe and four Anglo American systems The emphasis placed on doctoral education and training has increased dramatically in many higher education systems in response to the global competition for highly skilled human resources to serve the needs of knowledge societies Doctoral education is a key element within the research and development infrastructure and doctoral students support university research and represent the next generation of the professoriate While doctoral education has received considerable attention within national higher education systems there has been surprisingly little international or comparative research on the structure of doctoral education and the nature of contemporary reforms *Explorations in Social Systems Engineering* Huijiong Wang, 2020-03-09 This book is more or less a companion volume of the author's book *Introduction to Social Systems Engineering* published by Springer in March 2018 Since social systems engineering is a complex emerging discipline this book will focus more on the evolution of the concept and the formation process This is related to the book *Introduction to Social Systems Engineering* within the context of the author's working and study experience of around 33 years in engineering and 36 years in policy research and planning at national and regional level
