Social And Political Theory:

Studies in Social and Political Theory (RLE Social Theory) Anthony Giddens, 2014-08-21 The studies which comprise this book are essentially organized around a critical encounter with European social theory in its classical period i.e. from the middle years of the nineteenth century until the First World War and have the aim of working out some of the implications of that encounter for the position and prospects of the social sciences today The issues involved relate to the following series of problems method and epistemology social development and transformation the origins of sociology in nineteenth century social theory and the status of social science as critique In each of these areas Giddens develops views that challenge existing orthodoxies and connects these ideas to a reconstruction of social theory in the contemporary era

The Restructuring of Social and Political Theory Richard J. Bernstein, 1978-03 In this volume Bernstein foresees and outlines the development of a social theory that is at once empirical interpretive and critical

Principles of Social and Political Theory Ernest Barker, 1951 Social Science and Political Theory W. G. Runciman, 1969-05-02 This 1969 study considers the relation of sociology to political philosophy and extends traditional political philosophy in the direction of contemporary developments

Contemporary Social and Political Theory, 1998 **Principles of Social and Political Theory** Sir Ernest Barker, 1953 Politics and Social Theory Will Leggett, 2017 Under present social conditions neither social theorists nor political scientists can afford to ignore one another This book is a clear structured account of the relationship between politics and social theory examining both the political content of social theory and how social theory has illuminated our understanding of politics

Studies in Social and Political Theory, 1986 **Friedrich Engels and Modern Social and Political Theory** Paul Blackledge, 2019-12-01 Offers a powerful new interpretation of Engels's contributions to modern social and political theory In this comprehensive overview of Friedrich Engels's writings Paul Blackledge critically explores Engels's contributions to modern social and political theory generally and Marxism specifically Through a careful examination both of Engels's role in the forging of Marxism in the 1840s and his contributions to the further deepening and expansion of this worldview over the next half century Blackledge offers a closely argued and balanced assessment of his thought This book challenges the long standing attempt among academic Marxologists to denigrate Engels as Marx's greatest mistake and concludes that Engels was a profound thinker whose ideas continue to resonate to this day This is an excellent intellectual and political biography which provides a highly readable account of its subject and a vigorous defense of his ideas It is likely to become a standard work on Engels's ideas and politics Sean Sayers author of *Marx and Alienation Essays on Hegelian Themes* Paul Blackledge's new book has no equal as a contemporary assessment of Engels's political thought It provides a strong refutation of the divergence thesis whereby Engels is said to have systematically diverged from Marx's analysis Appearing on the 200th anniversary of Engels's birth it should be widely read John Bellamy Foster author of *Marx's Ecology Materialism and Nature* Clear balanced and comprehensive Blackledge's book is the best introduction to

Engels that I know It does full justice to the many areas in which Engels displayed his prodigious talents David McLellan author of Karl Marx A Biography Paul Blackledge has brought us a remarkable political and intellectual portrait of Friedrich Engels This book is a masterful tour taking the reader through Engels s contributions to philosophy dialectics political economy revolution reform strategy and tactics military theory and history the origins of women s oppression and the state natural science and more All of the great controversies are here you will find all of the rich traditions of classical Marxism compiled together plus a few surprises even for the most seasoned reader David Laibman editor Science Society **Social Evolution and Political Theory** Leonard Trelawny Hobhouse,1911 *Contemporary Social and Political Theory* Fidelma Ashe,1998 This new and accessible introduction to contemporary social and political theory examines the impact of new ideas such as feminist theory poststructuralism hermeneutics and critical theory The innovations brought by these currents to the intellectual traditions of Europe and America are outlined and assessed Designed for the newcomer to theory no previous knowledge is assumed and a student friendly approach is adopted throughout Civil Society and Political Theory Jean L. Cohen,Andrew Arato,1994-03-29 In this first serious work on the theory of civil society to appear in many years Jean Cohen and Andrew Arato contend that the concept of civil society articulates a contested terrain in the West that could become the primary locus for the expansion of democracy and rights In this major contribution to contemporary political theory Jean Cohen and Andrew Arato argue that the concept of civil society articulates a contested terrain in the West that could become a primary locus for the expansion of democracy and rights **Routledge International Handbook of Contemporary Social and Political Theory** Gerard Delanty,Stephen P. Turner,2011-03-23 The Handbook will address a range of issues that have emerged out of recent social and political theory It will focus on key themes as opposed to schools of thought or major theorists Each chapter is an emerging cutting edge topic that is of interest both to social theory and to political theory Most topics will have a clear and substantive focus on social or political problems **Principles of Social & Political Theory** Ernest Barker,1976 **Studies in Social and Political Theory** Anthony Giddens,1977 Political Science and the Problem of Social Order Henrik Enroth,2022-03-24 The problem of social order is the question of what holds complex and diverse societies together Today this question has become increasingly urgent in the world Yet our ability to ask and answer the question in a helpful way is constrained by the intellectual legacy through which the question has been handed down to us In this impressive erudite study Henrik Enroth describes and analyzes how the problem of social order has shaped concept formation theory and normative arguments in political science The book covers a broad range of influential thinkers and theories throughout the history of political science from the early twentieth century onwards Social order has long been a presupposition for inquiry in political science now we face the challenge of turning it into an object of inquiry **Social Science and Political Theory** Walter Garrison Runciman,1971 **Social Evolution and Political Theory** Leonard Trelawny Hobhouse,1922 *Studies in Social and Political Theory* ,1986 *Sociology and Political Theory*
