Language and Identity in Englishes Urszula Clark, 2013-04-12 Language and Identity in Englishes examines the core issues and debates surrounding the relationship between English language and identity Drawing on a range of international examples from the UK US China and India Clark uses both cutting edge fieldwork and her own original research to give a comprehensive account of the study of language and identity Key features include Discussion of language in relation to various aspects of identity such as those connected with nation and region as well as in relation to social aspects such as social class and race A chapter on undertaking research that will equip students with appropriate research methods for their own projects An analysis of language and identity within the context of written as well as spoken texts With its accessible structure international scope and the inclusion of leading research in the area this book is ideal for any student taking modules in language and identity or sociolinguistics

Language and Emotion James M. Wilce, 2009-04-09 Language is a means we use to communicate feelings we also reflect emotionally on the language we and others use James Wilce analyses the signals people use to express emotion looking at the social cultural and political functions of emotional language around the world His book demonstrates that speaking feeling reflecting and identifying are interrelated processes and shows how desire or shame are attached to language Drawing on nearly one hundred ethnographic case studies it demonstrates the cultural diversity historical emergence and political significance of emotional language Wilce brings together insights from linguistics and anthropology to survey an extremely broad range of genres cultural concepts and social functions of emotional expression

Sociolinguistic Variation Carmen Fought, 2004-08-05 Sociolinguistic Variation brings together a group of leading scholars in the field of language variation and change to address the directions that sociolinguistic research is taking in the new millennium Among the main themes of the volume are the construction of identity the nature of place as distinct from community and the role of attitudes in language variation These themes are explored through a variety of types of data from traditional sources such as narratives to relatively new sources such as postings on the Internet or television documentaries Combining the voices of established scholars in the field with the perspectives of promising younger scholars this volume provides crucial guidance for anyone interested in doing research on sociolinguistic variation Contributors include Guy

Bailey Penelope Eckert Barbara Johnstone William Labov Ronald Macaulay Lesley Milroy Dennis Preston John Rickford
 Gillian Sankoff Natalie Schilling Estes Jan Tillery and Walt Wolfram Quantitative Methods in Sociolinguistics Ronald
 Macaulay,2017-09-16 This detailed textbook critically examines methods used in sociolinguistic studies including the ways in
 which the categories of age gender ethnicity and social class have been employed to chart language variation It discusses the
 nature of data and encourages students to examine evidence with a more critical eye Culture and Styles of Academic
 Discourse Anna Duszak,2011-06-24 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our
 understanding of language The series publishes state of the art work on core areas of linguistics across theoretical
 frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and
 cognitive science TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data
 on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and
 diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design
 of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and
 outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from
 different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing
Language Myths and the History of English Richard J. Watts,2011-03-03 Language Myths and the History of English
 deconstructs common myths about the historical development of English and looks at the ideological reasons for their
 existence **Subjectivity in a Second Language** Alan J. E. Wolf,2006 Subjectivity the speaker s expression of self in
 discourse is a relatively under researched area in the field of applied linguistics this book examines the role of subjectivity in
 the context of second language use Drawing on insights from discourse analysis and pragmatics it describes how a group of
 students studying French at degree level at the University of Cambridge England convey expressions of subjectivity in
 personal narratives and argumentative language In this book the author begins by introducing the reader to key areas in the
 study of discourse Using a methodology that has much in common with descriptive linguistics he provides a wide ranging
 account of how forms in language are used to convey the expression of subjectivity His particular concern is to examine how
 these markers of subjectivity are used differently by native and non native speakers of French The discussion is carefully
 supplemented throughout with a variety of exemplification and discourse types including personal narratives in French and
 English and transcripts of video taped interactions in role plays In the course of his analysis the author questions long held
 assumptions about the way French is taught in secondary schools and in higher education institutions The range of issues
 discussed as well as the variety of examples used will make this a valuable book not only for students of applied linguistics
 but also for any reader wishing to gain a deeper understanding of how the expression of subjectivity can contribute to the
 learning of a second language *The Anthropology of Learning in Childhood* David F. Lancy,John Bock,Suzanne

Gaskins,2010-01-15 The Anthropology of Learning in Childhood offers a large mural like portrait of childhood across time culture species and environment Even a casual reading of the literature on childhood will persuade one that learning is a very important topic that commands the attention of tens of thousands of scholars and practitioners Yet anthropological research on children has exerted relatively little influence on this community This book will change that The book demonstrates that anthropologists studying childhood can offer a description and theoretically sophisticated account of children s learning and its role in their development socialization and enculturation Further it demonstrates the particular contribution that children s learning makes to the construction of society and culture as well as the role that culture acquiring children play in human evolution Chapters have been contributed in archaeology primatology biological and cultural anthropology and cross cultural psychology

Investigating Culture Carol Delaney,2017-02-15 The third edition of Investigating Culture An Experiential Introduction to Anthropology the highly praised innovative approach to introducing aspects of cultural anthropology to students features a series of revisions updates and new material Offers a refreshing alternative to introductory anthropology texts by challenging students to think in new ways and apply cultural learnings to their own lives Chapters explore key anthropological concepts of human culture including language the body food and time and provide an array of cultural examples in which to examine them Incorporates new material reflecting the authors research in Malawi New England and Spain Takes account of the latest information on such topical concerns as nuclear waste sports injuries the World Trade Center memorial the food pyramid fashion trends and electronic media Includes student exercises selected reading and additional suggested readings

More Than Meets the Ear Victor H. Matthews,2008-10-07 This title introduces readers to the various critical communication theories currently being used by

scholars in anthropology sociology psychology and literary studies **Talk Like a Native** John Francis Stuart,2012-07-04

Talk Like a Native is written in a direct and accessible style for the adult second language learner The book shows learners how to improve their conversation skills It explains the physical and mental skills components of conversation which are normally taken for granted but which need to be deliberately targetted to improve spoken fluency The book also takes the student through the process of setting goals and measuring their own skills development in relation to the key skills components of listening and speaking Critical factors such as the difference between the listener and speaker roles and how the student can learn to think in a foreign language are discussed Additionally the most common psychological and physical challenges to foreign language development and deployment in real time conversation are examined and ways of coping with them outlined The book includes chapters on how the student can think in another language grow conversational range and cope with foreign culture **The Political Economy of Nature** R. Boardman,2001-05-16 The Political Economy of Nature draws extensively on current insights from sociology ecology economics and earth science Robert Boardman pools these diverse resources to argue that the investigation of environmental issues raises complex theoretical questions which can only be answered through more sustained links between the natural and social sciences With global issues becoming an increasingly vital part of environmental debates Boardman shows how understanding of ecological problems can be increased in both International Relations and International Political Economy *English - One Tongue, Many Voices* Jan Svartvik,Geoffrey Leech,2016-01-19 This is the fully revised and expanded second edition of English One Tongue Many Voices a book by three internationally distinguished English language scholars who tell the fascinating improbable saga of English in time and space Chapters trace the history of the language from its obscure beginnings over 1500 years ago as a collection of dialects spoken by marauding illiterate tribes They show how the geographical spread of the language in its increasing diversity has made English into an international language of unprecedented range and variety The authors examine the present state of English as a global language and the problems pressures and uncertainties of its future online and offline They argue that in spite of the amazing variety and plurality of English it remains a single language The History of Late Modern Englishes Keith Johnson,2021-05-26 The History of Late Modern Englishes provides an accessible and student friendly introduction to the history of the English language from the beginning of the eighteenth century up until the present day Taking an activity based approach this text ensures that students learn by engaging with the fascinating evolution of this language rather than by simply reading about it The History of Late Modern Englishes Covers the development of Englishes around the world not only in the British Isles but also in the United States Canada India Singapore Australia New Zealand and Melanesia as well as in other countries around the world where English is used as a lingua franca Accommodates the needs of both native and non native speakers of English with helpful features such as a glossary of key terms and questions to guide the reader through the book Includes activity sections and discussion points to help students

engage with the text Is accompanied by e resources which include further activities and additional coverage of points of interest in the book Written by an experienced teacher and author this book is an essential course textbook for any module on the history of English and the perfect accompaniment to the author s own *The History of Early English Staging Language* Urszula Clark,2019-01-14 Although there are many studies on linguistic variation as it relates to both traditional and new media such as film TV newspapers and online behavior little has been written about spoken performance in overt but face to face conversations This book bridges that gap and focuses on an in between zone between casual face to face conversations and the type of heavily scripted language of most traditional spoken media The book draws upon a substantial amount of empirical data in its investigation of the role played by performance texts in creating maintaining and challenging imagined communities and focuses upon the ways in which performance contributes to people s sense of the kinds of use for which dialect variational use is appropriate and those for which it is not It sheds light on how such stylization intersects with multiple social indexes and how performers and other creative artists challenge and mock hegemonic practices through enregistering a defined set of linguistic variables in the context of their performance and other associated written texts **A Marriage of Philosophy and Music** Erich Welling,2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in *A Marriage of Philosophy and Music* It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline *A Marriage of Philosophy and Music* attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art *Serving Vulnerable and Marginalized Populations in Social and Educational Contexts* Anies Al-Hroub,Sally Reis,Joseph Madaus,Itab Shuayb,2024-04-26 There is evidence that the global COVID 19 crisis is exacerbating existing inequalities and marginalization of vulnerable groups including exceptional learners stateless street migrant and refugee children and youths and the limited use of frameworks of emergency planning with and for marginalized and at risk individuals These challenges are multi sectoral and intersecting and they require multi and interdisciplinary interventions to inform inclusive responses These issues include being at a greater risk of excluding vulnerable learners from gaining access to equitable education online remote and blended education Intersecting forms of discrimination such as gender socioeconomic and legal status

further exacerbate the problem This has alerted us to examine the living conditions of marginalized and vulnerable populations around the globe and to reveal their experiences problems and needs from an educational perspective thus bringing insights into their vulnerabilities during the pandemic

Art and Democracy in Post-Communist Europe Piotr Piotrowski, 2012-08-01 When the Iron Curtain fell in 1989 Eastern Europe saw a new era begin and the widespread changes that followed extended into the world of art Art and Democracy in Post Communist Europe examines the art created in light of the profound political social economic and cultural transformations that occurred in the former Eastern Bloc after the Cold War ended Assessing the function of art in post communist Europe Piotr Piotrowski describes the changing nature of art as it went from being molded by the cultural imperatives of the communist state and a tool of political propaganda to autonomous work protesting against the ruling powers Piotrowski discusses communist memory the critique of nationalism issues of gender and the representation of historic trauma in contemporary museology particularly in the recent founding of contemporary art museums in Bucharest Tallinn and Warsaw He reveals the anarchistic motifs that had a rich tradition in Eastern European art and the recent emergence of a utopian vision and provides close readings of many artists including Ilya Kavakov and Krzysztof Wodiczko as well as Marina Abramovic s work that responded to the atrocities of the Balkans A cogent investigation of the artistic reorientation of Eastern Europe this book fills a major gap in contemporary artistic and political discourse
