East Africa but it also discusses theoretical problems and methods arising from socio linguistic studies outside the African field These include studies on national languages and languages of wider communication in developing nations the communication role of languages in multilingual societies and social and cognitive aspects of bilingualism *Developmental Psychiatry* Michael Rutter, 1987 This book provides a nontechnical account of human development that is particularly relevant to an understanding of psychiatric disorders In describing the process of physical mental emotional and behavioral development the contributors emphasize the aspects of development of greatest interest to clinicians and examine normal development in relation to its implications in clinical pathology
