Discussions focus on hazards and safeguards, fire fighting appliances, sprinkler systems, and smoke detectors, reverberation methods of adjusting acoustics, curved and concave surfaces, staggered seating, acoustic limits, and concert and recital halls. The book then examines exits and means of escape, seating layout, and safety regulations, legislation, and stage scenery. The manuscript ponders on stage lighting, communications, film projection, performance organization, and public areas. Topics include access for the disabled, lavatories, restaurant, repair workshops, property store, scene dock, projection suites, amplifier racks, direct projection, stage management, performance control system, and access to lighting positions over the stage. The book also reviews the restoration of old theaters, conference facilities, art centers, and studio theaters, electrical and mechanical services, and administration.
