Critique of Pure Music James O. Young, 2014-01-09 Why do we value music Many people report that listening to music is one of life s most rewarding activities In Critique of Pure Music James O Young seeks to explain why this is so Formalists tell us that music is appreciated as pure contentless form On this view listeners receive pleasure or a pleasurable musical emotion when they explore the abstract patterns found in music Music formalists believe does not arouse ordinary emotions such as joy melancholy or fear nor can it represent emotion or provide psychological insight Young holds that formalists are wrong on all counts Drawing upon the latest psychological research he argues that music is expressive of emotion by resembling human expressive behaviour By resembling human expressive behaviour music is able to arouse ordinary emotions in listeners This in turn makes possible the representation of emotion by music The representation of emotion in music gives music the capacity to provide psychological insight into the emotional lives of composers and the emotional lives of individuals from a variety of times and places And it is this capacity of music to provide psychological insight which explains a good deal of the value of music both vocal and purely instrumental Without it music could not be experienced as profound Philosophers psychologists musicians musicologists and music lovers will all find something of interest in this book

The proceedings in these trials were conducted throughout in the German and English languages and were recorded in full by stenographic notes and by electrical sound recording of all oral proceedings The 12 cases required over 1 200 days of court proceedings and the transcript of these proceedings exceeds 330 000 pages exclusive of hundreds of document books briefs etc Publication of all of this material accordingly was quite unfeasible This series however contains the indictments judgments and other important portions of the record of the 12 cases and it is believed that these materials give a fair picture of the trials and as full and illuminating a picture as is possible within the space available Copies of the entire record of the trials are available in the Library of Congress the National Archives and elsewhere In some cases due to time limitations errors of one sort or another have crept into the translations which were available to the Tribunal In other cases the same document appears in

different trials or even at different parts of the same trial with variations in translation For the most part these inconsistencies have been allowed to remain and only such errors as might cause misunderstanding have been corrected
