**Memory Speaks** Julie Sedivy, 2021-10-12 From an award winning writer and linguist a scientific and personal meditation on the phenomenon of language loss and the possibility of renewal As a child Julie Sedivy left Czechoslovakia for Canada and English soon took over her life By early adulthood she spoke Czech rarely and badly and when her father died unexpectedly she lost not only a beloved parent but also her firmest point of connection to her native language As Sedivy realized more is at stake here than the loss of language there is also the loss of identity Language is an important part of adaptation to a new culture and immigrants everywhere face pressure to assimilate Recognizing this tension Sedivy set out to understand the science of language loss and the potential for renewal In *Memory Speaks* she takes on the psychological and social world of multilingualism exploring the human brain's capacity to learn and forget languages at various stages of life But while studies of multilingual experience provide resources for the teaching and preservation of languages Sedivy finds that the challenges facing multilingual people are largely political Countering the widespread view that linguistic pluralism splinters loyalties and communities Sedivy argues that the struggle to remain connected to an ancestral language and culture is a site of common ground as people from all backgrounds can recognize the crucial role of language in forming a sense of self Distinctive and timely *Memory Speaks* combines a rich body of psychological research with a moving story at once personal and universally resonant As citizens debate the merits of bilingual education as the world's less dominant languages are driven to extinction and as many people confront the pain of language loss this is badly needed wisdom      From Latin to Modern French with Especial Consideration of Anglo-Norman Mildred Katharine
