## **Sweet Promised Land:**

*Sweet Promised Land*, 50th ed. Robert Laxalt, 2007-03-05 How long has it been since you fell in love with a book Dominique Laxalt was sixteen when he left the French Pyrenees for America He became a shepherd in the Nevada desert and nearby hills of the Sierra Like all his fellow Basque immigrants Dominique dreamed of someday returning to the land of his beginnings Most Basques never made the journey back but Dominique finally did return for a visit with family and friends Sweet Promised Land is the story of that trip told by his son Robert who accompanied him to the pastoral mountain village of Tardets in France Dominique came home victorious the adventurer who had conquered the unknown and found his fortune in the New World He told of his life in America the hardships and challenges and began to realize that he had changed since his departure from Tardets By the end of the visit he knew with certainty where he belonged During the past fifty years this book has become a classic in Western American literature still beloved by the Basque American community In celebration of the fiftieth anniversary of the book's publication western literature scholar Ann Ronald wrote a new foreword discussing the book in the context of American and Nevada literature Sweet Promised Land Robert Laxalt, 1986 The account a son

writes of his father an old Basque shepherd who lived and worked in the American West for most of his life who in fulfilling his dream of returning to the Pyrenees came to a new realization of what America meant to him **Sweet Promised Land** Patricia Edwards, 1991 Sweet Promised Land by Patricia Edwards released on Feb 22 1991 is available now for purchase *Sweet Promised Land of Nevada* Theodore H. Post, 1952 Applied Language Learning, 1999 Werner Sollors Reader Werner Sollors, 2025-01-31 Born in Silesia raised in the Frankfurt area and educated in Berlin Werner Sollors has spent most of his career at Harvard University in the United States and is regarded in Cornel West's words as one of the finest scholars that we have on race and cultural hybridity in both this country and the world This Reader offers the first comprehensive overview of the work of a central figure in the field of ethnic studies The pieces collected here range from Puritan New England to contemporary Germany from Exodus to Mary Antin's Promised Land from the Curse of Ham to Teju Cole They attest to Sollors' deep historical sensibilities his attention to textual detail and his awareness of the costs and opportunities of both cosmopolitan ideals and particularist commitments whilst addressing a central question why does modernisation take the form of ethnicisation in many places around the globe The collected essays are complemented by a detailed introduction by Daniel G Williams which foregrounds some of the key emphases and tensions in Sollors' writings

Sweet Freedom's Plains Shirley Ann Wilson Moore, 2016-10-20 The westward migration of nearly half a million Americans in the mid nineteenth century looms large in U S history Classic images of rugged Euro Americans traversing the plains in their prairie schooners still stir the popular imagination But this traditional narrative no matter how alluring falls short of the actual and far more complex reality of the overland trails Among the diverse peoples who converged on the western frontier were African American pioneers men women and children Whether enslaved or free they too were involved in this

transformative movement Sweet Freedom's Plains is a powerful retelling of the migration story from their perspective Tracing the journeys of black overlanders who traveled the Mormon California Oregon and other trails Shirley Ann Wilson Moore describes in vivid detail what they left behind what they encountered along the way and what they expected to find in their new western homes She argues that African Americans understood advancement and prosperity in ways unique to their situation as an enslaved and racially persecuted people even as they shared many of the same hopes and dreams held by their white contemporaries For African Americans the journey westward marked the beginning of liberation and transformation At the same time black emigrants aspirations often came into sharp conflict with real world conditions in the West Although many scholars have focused on African Americans who settled in the urban West their early trailblazing voyages into the Oregon Country Utah Territory New Mexico Territory and California deserve greater attention Having combed censuses maps government documents and white overlanders diaries along with the few accounts written by black overlanders or passed down orally to their living descendants Moore gives voice to the countless mostly anonymous black men and women who trekked the plains and mountains Sweet Freedom's Plains places African American overlanders where they belong at the center of the western migration narrative Their experiences and perspectives enhance our understanding of this formative period in American history

**Ocean of Grace** Christopher R. Mwashinga Jr., 2016-07-27 This book is a selection of some of Christopher R Mwashingas famous Christian poems both old and new They have been carefully selected to present the various countries in which they were written over the years It contains poems written in more than ten countries over a period of about two decades The poems discuss poetically a variety of topics from a Christian perspective

Beyond Ethnicity Werner Sollors, 1987-10-29 This highly original study examines the role of ethnicity in American literature and what that literature has said and continues to say about our remarkably diverse culture Sollors focuses particularly on the conflict between descent and consent between the concern for one's racial ethnic and familial heritage and the conflicting desire to choose one's own destiny regardless of that heritage Grave and hilarious tender and merciless The book performs a public service Quentin Anderson

**Challenges of Diversity** Werner Sollors, 2017-10-26 What unites and what divides Americans as a nation Who are we and can we strike a balance between an emphasis on our divergent ethnic origins and what we have in common Opening with a survey of American literature through the vantage point of ethnicity Werner Sollors examines our evolving understanding of ourselves as an Anglo American nation to a multicultural one and the key role writing has played in that process Challenges of Diversity contains stories of American myths of arrival pilgrims at Plymouth Rock slave ships at Jamestown steerage passengers at Ellis Island the powerful rhetoric of egalitarian promise in the Declaration of Independence and the heterogeneous ends to which it has been put and the recurring tropes of multiculturalism over time e pluribus unum melting pot cultural pluralism Sollors suggests that although the transformation of this settler country into a polyethnic and self consciously multicultural nation may appear as a story of great progress

toward the fulfillment of egalitarian ideals deepening economic inequality actually exacerbates the divisions among Americans today      **Tongues of Settlement** Blake Allmendinger,      **Nevada** Rebecca Stefoff, 2001 Celebrate the richness and diversity of the United States of America in this exciting series Readers can explore the unique character of each state its land and waterways its history its government and economy its festivals cultural diversity landmarks and exciting stories of success Readers will also hear the voices of men and women alive today They will see the beauties and hidden treasures of each state and hear the social issues and concerns faced by the residents Each book opens with a series of quotes by both contemporary residents and people from the past giving voice to the state s concerns admiration for the people love of the land nostalgia for the past and excitement for the future      **Mountains Figured and Disfigured in the**

**English-Speaking World** Françoise Besson, 2020-06-01 The essays in this book written by poets novelists mountain climbers and academics from all over the world evoke the representation of mountains in the English speaking world as artists writers philosophers or mountain climbers have represented them from the sixteenth to the twenty first centuries From the Alps to the Pyrenees from Mount Fuji to Mount Shasta from the Himalayas to the Scottish Highlands from Ikere in Nigeria to Devil s Tower in the United States from Uluru in Australia to the most northern mountain of the Arctic the shapes of the world speak the same language and tell the world its own story This interdisciplinary book weaving together mountaineering literature philosophy painting cinema ecology history palaeontology geography geopolitics toponymy law religion and myth invites people to an innovative reading of mountains it reveals the close relationship existing between the shapes of the world and all forms of writing and at the same time it shows how the representations of the imagination may be instrumental in protecting the natural world The story told by the landscape inscribes a broken line in the shapes of the world tearing the landscape like a fragile page whenever historical and political events wars mining or deforestation leave scars in the landscape but writers and artists representations of mountains constitute a path to awareness as they are not only a painting of beauty but an image of our link to nature and a warning as well For centuries the image of the mountain has conveyed a symbolism telling the story of human thought and this book shows to what extent literature and art play an essential part in our awareness of nature      **Selves in Dialogue** Begoña Simal, 2011

**Selves in Dialogue** A Transethnic Approach to American Life Writing constitutes an explicit answer to the urgent call for a comparative study of American autobiography This collection of essays ostensibly intends to cut across cultural racial and or ethnic boundaries introducing the concept of transethnicity and arguing for its increasing validity in the ever changing field of American Studies Accordingly the comparative analysis in *Selves in Dialogue* is implemented not by juxtaposing essays that pay separate but equal attention to specific monoethnic or monocultural traditions as has been the usual strategy in book length publications of this sort but by critically engaging with two or more different traditions in every single essay Mixing rather than segregating The transethnic approach proposed in this collection does not imply erasing the very difference and diversity

that makes American autobiographies all the more thrilling to read and study Group specific research of an intra ethnic nature should and will continue to thrive And yet the field of American Studies is now ready to indulge more freely and more knowledgeably in transethnic explorations of life writing in an attempt to delineate both the divergences and the similarities between the different autobiographies written in the US Because of its unusual perspective Selves in Dialogue can be of interest not only for specialists in life writing but also for those working in the larger fields of American Literature Ethnic Studies or American Studies

**Making It in America** Elliott Robert Barkan, 2001-05-01 This collection of over 400 biographies of eminent ethnic Americans celebrates a wide array of inspiring individuals and their contributions to U S history The stories of these 400 eminent ethnic Americans are a testimony to the enduring power of the American dream These men and women from 90 different ethnic groups certainly faced unequal access to opportunities Yet they all became renowned artists writers political and religious leaders scientists and athletes Kahlil Gibran Daniel Inouye Zbigniew Brzezinski Thurgood Marshall Madeleine Albright and many others are living proof that the land of opportunity sometimes lives up to its name Alongside these success stories as historian Elliot R Barkan notes in his introduction to this volume there have been many failures and many immigrants who did not stay in the United States Nevertheless the stories of these trailblazers visionaries and champions portray the breadth of possibilities from organizing a nascent community to winning the Nobel prize They also provide irrefutable evidence that no single generation and no single cultural heritage can claim credit for what America is

**Regionalism and the Humanities** Timothy R. Mahoney, Wendy J. Katz, 2008-12-01 Although the framework of regionalist studies may seem to be crumbling under the weight of increasing globalization this collection of seventeen essays makes clear that cultivating regionalism lies at the center of the humanist endeavor With interdisciplinary contributions from poets and fiction writers literary historians musicologists and historians of architecture agriculture and women this volume implements some of the most innovative and intriguing approaches to the history and value of regionalism as a category for investigation in the humanities In the volume s inaugural essay Annie Proulx discusses landscapes in American fiction comments on how she constructs characters and interprets current literary trends Edward Watts offers a theory of region that argues for comparisons of the United States to other former colonies of Great Britain including New Zealand Australia and Canada Whether considering a writer s connection to region or the idea of place in exploring what is meant by regionalism these essays uncover an enduring and evolving concept Although the approaches and disciplines vary all are framed within the fundamental premise of the humanities the search to understand what it means to be human
