Sweet Tea With Cardamom A Journey Through Iraqi Kurdistan:

Sweet Tea with Cardamom Teresa Thornhill, 1997-02-01 **Sweet Tea with Cardamom** Teresa Thornhill, 1997 This work combines a traditional travel narrative with a harrowing investigation into the plight of the Kurds generally and Kurdish women in particular under Saddam's regime. It's based on the author's journeys in the so-called safe havens in Iraqi Kurdistan.

Women of Kurdistan: A Historical and Bibliographic Study Shahrzad Mojab, Amir Hassanpour, 2021-04-19 *Women of Kurdistan: A Historical and Bibliographic Study* documents a century-long history of Kurdish women's struggles against oppressive gender relations and state violence. It speaks to bibliographic silences on Kurdish women's silences that are systemic and structured with many factors contributing to their reproduction. The book records extensive literature on violence perpetrated by the family, community, and the state, as well as presenting the reader with a vibrant archive of resistance and struggle of Kurdish women. The analysis avoids the fashionable state-centered scholarship which purifies processes of nation building, state building, and disguises their violence. The image depicted of the women of Kurdistan in this bibliography is shaped also by the languages we have chosen: English, French, and German. It is a record of material in languages that are not spoken by the majority of the Kurds. It will therefore be different from a bibliography of works in the Kurdish language which have a majority of Kurdish authors with more entries on topics such as poetry, fiction, education, and arts. Love and learning made the making of this bibliography imaginable. It began more than 20 years ago when Amir was expanding his theoretical ground for class analysis of nationalism and peasant movement in the Kurdish region of Mukriyan. Hassanpour, 2021. Simultaneously, I was engaged with debates on Marxist feminism and transnational feminism while grappling with post-al tendencies in feminism such as post-colonialism, post-structuralism, and post-modernism. We wanted to better understand the explanatory power and political implications of Marx's dialectical historical materialism in explicating the intersecting and refracting relations of gender, class, race, culture, nation, and nationalism. This commitment nonetheless did not remain in the realm of epistemology as a disembodied intellectual exercise. As a member of a dominant nation, a Shirazi-born Iranian, I wanted to critically confront this national identity and the sense of belonging. Amir sought to scrutinize patriarchal structures and gender relations in Kurdish history, society, culture, and nation. This intertwined mind and heart desire put us onto a path of renewed discoveries of our personal and intellectual relations. In a nutshell, this was the beginning of the making of *Women of Kurdistan: A Historical and Bibliographic Study*. *Women of Kurdistan* provides a meticulously researched source book for readers interested in women, gender, and sexuality in Kurdistan and the Middle East. It covers a wealth of bibliographic material, including both scholarly and non-academic publications, many of which have not previously been accessible to broader audiences. But *Women of Kurdistan* is more than a source of information. It is also an eloquent reflection on the entanglement of knowledge production and political power and a call to recognize scholarship's potential in shaping historical change. Above all, it is a passionate statement about the impossibility to

comprehend the intersection of colonial capitalist and nationalist forces without attention to women's lives and struggles. Marlene Schfers, British Academy Newton International Fellow, University of Cambridge, *Women of Kurdistan* is simply an excellent template for how to chronicle women's resistance politics. By framing the Kurdish women's struggles within a historical materialism under different modes of production and discussing the political influence of five different nations on the Kurdish peoples, the authors offer a rich context that surpasses the common fetishization of women's armed resistance. Internationally known for their Marxist and feminist works, Mojab and Hassanpour apply theories of nationalism, capitalism, peasantry, knowledge production, and relationship between state and non-state to understand the Kurdish experience while honouring the struggle, voice, and poetry of Kurdish women activists. The book is as unapologetically critical of regional and religious hegemonies as it is of Kurdish patriarchies and is candid about the slipperiness of the concept of the ideal Kurdish woman while skeptical of the benefits of transnationalization for the women honoured in this book.

political speeches to memoirs and newspaper articles to book excerpts the work synthesizes previously marginalized perspectives of minorities and women with the voices of the political elite to provide an integrated picture of political change from the Ottoman Empire in 1903 to the end of the second Bush administration in 2008 Covering a broad range of topics this bottom up approach allows readers to fully immerse themselves in the lives of everyday Iraqis as they navigate regime shifts from the British to the Hashemite monarchy the political upheaval of the Persian Gulf wars and beyond Brief introductions to each excerpt provide context and suggest questions for classroom discussion This collection offers raw history untainted and unfiltered by modern political framework and thought representing a refreshing new approach to the study of Iraq

Invisible Nation Quil Lawrence, 2009-05-26 The American invasion of Iraq has been a success for the Kurds Kurdistan is an invisible nation and the Kurds the largest ethnic group on Earth without a homeland comprising some 25 million moderate Sunni Muslims living in the area around the borders of Turkey Iran Iraq and Syria Through a history dating back to biblical times they have endured persecution and betrayal surviving only through stubborn compromise with greater powers They have always desired their own state and now accidentally the United States may have helped them take a huge step toward that goal As Quil Lawrence relates in his fascinating and timely study of the Iraqi Kurds while their ambition and determination grow apace their future will be largely dependent on whether America values a budding democracy in the region or decides to yet again sacrifice the Kurds in the name of political expediency Either way the Kurdish north may well prove to be the defining battleground in Iraq as the country struggles to hold itself together At this extraordinary moment in the saga of Kurdistan informed by his deep knowledge of the people and region Lawrence's intimate and unflinching portrait of the Kurds and their heretofore quixotic quest offers a vital and original lens through which to contemplate the future of Iraq and the surrounding Middle East
