study of emotion is part of an important revisionary movement among scholars eager to recast emotional politics for the twenty first century Looking beyond the traditional categories of sentiment sensibility and sympathy Jennifer Travis suggests a new approach to reading emotionalism among men She argues that the vocabulary of injury with its evaluations of victimhood and its assessments of harm has deeply influenced the cultural history of emotions From the Civil War to the early twentieth century Travis traces the history of male emotionalism in American discourse She argues that injury became a comfortable vocabulary particularly among white middle class men through which to articulate and to claim a range of emotional wounds The debates about injury that flourished in the cultural arenas of medicine psychology and the law spilled

C. Cella,2010-04-15 At the core of this nuanced book is the question that ecocritics have been debating for decades what is the relationship between aesthetics and activism between art and community By using a pastoral lens to examine ten fictional narratives that chronicle the dialogue between human culture and nonhuman nature on the Great Plains Matthew Cella explores literary treatments of a succession of abrupt cultural transitions from the Euroamerican conquest of the Indian wilderness in the nineteenth century to the Buffalo Commons phenomenon in the twentieth By charting the shifting meaning of land use and biocultural change in the region he posits this bad land the arid West as a crucible for the development of the human imagination Each chapter deals closely with two novels that chronicle the same crisis within the Plains community Cella highlights for example how Willa Cather reconciles her persistent romanticism with a growing disillusionment about the future of rural Nebraska how Tillie Olsen and Frederick Manfred approach the tragedy of the Dust Bowl with strikingly similar visions and how Annie Proulx and Thomas King use the return of the buffalo as the centerpiece of a revised mythology of the Plains as a palimpsest defined by layers of change and response By illuminating these fictional quests for wholeness on the Great Plains Cella leads us to understand the intricate interdependency of people and the places they inhabit Cella uses the term pastoralism in its broadest sense to mean a mode of thinking that probes the relationship between nature and culture a discourse concerned with human engagement material and nonmaterial with the nonhuman community In all ten novels discussed in this book pastoral experience the encounter with the Beautiful leads to a renewed understanding of the integral connection between human and nonhuman communities Propelling this tradition of bad land pastoralism are an underlying faith in the beauty of wholeness that comes from inhabiting a continuously changing biocultural landscape and a recognition of the inevitability of change The power of story and language to shape the direction of that change gives literary pastoralism the potential to support an alternative series of ideals based not on escape but on stewardship community continuity and commitment *The Novels of Alex Miller* Robert Dixon,2020-07-16 One of Australia s most respected novelists Alex Miller s writing is both popular and critically well received He is twice winner of Australia s premier literary prize the Miles Franklin Award He has said that writing is his way of locating connections and his work is known for its deeply empathic engagement with relationships and cultures This collection explores his early and later works including Miller s best known novels *The Ancestor Game* *Journey to the Stone Country* *Lovesong* and *Autumn Laing* Contributors examine his intricately constructed plots his interest in the nature of home and migration the representation in his work of Australian history and culture and key recurring themes including art and Aboriginal issues Also included is a memoir illustrated by photographs from his personal collection in which Alex Miller reflects on his writing life With contributions from leading critics including Raimond Gaita Peter Pierce Ronald A Sharp

The Imaginative Claims of the Artist in Willa Cather's Fiction Demaree C. Peck, 1996 In this her first book scholar Demaree C Peck assigns Willa Cather her rightful place in our literary history Challenging the assumption that women writers must draw their inspiration from a lineage of female predecessors Peck portrays Willa Cather as a woman who self consciously set out to write within a male literary tradition that she identified as Emersonian Peck explores the psychological underpinnings of Cather's aesthetics to show that her theory of stylistic economy and simplicity was motivated by a desire to reorganize the elements of the artistic stage exclusively around her own romantic ego that inexplicable presence of the thing not named Although Cather's protagonists appear in various disguises clad as pioneers lawyers or priests they are all incarnations of the artist who appropriates people and places as parts of consciousness Cather's imaginative claimants seek to assimilate the world as a reflection of the self in the way that their prototype Emerson's poet landlord enjoys a figurative ownership of the landscape in reward for his integrating vision The novels offer a series of ingenious masquerades beneath whose plots lurk variations of a single story impelled by the artist's quest to take imaginative possession of the world in order to recover the dominion of her soul Unlike critics who have discussed Cather's novels as a series of discrete experiments Peck charts the pursuit for imaginative possession as a continuous theme thereby suggesting a coherence for Cather's art and career as a whole Offering original interpretations of eight of Cather's novels in the light of previously undiscussed letters and other biographical materials Peck explores the relation between Cather's life and art to suggest that she created her central characters as surrogates whose imaginative accumulations could compensate her for various dispossessing experiences in her own life Cather's novels operate according to the psychological laws of wish fulfillment While Cather's romanticism has its historical origin in American transcendentalism its psychological origin derives from the mythic domain of childhood Cather's kingdom of art sanctions the dream projected upon childhood of an original omnipotence that could cheat fate and remain unsoiled by experience Her novels enact a fantasy of return to primal wholeness Peck suggests that the novels serve a restorative function not only for their author but for Cather's readers as well Cather's fiction is significant Peck argues because it performs an important psychological work for its audience

The Georgic Mode in Twentieth-Century American Literature Ethan Mannon, 2024-02-02 The Georgic Mode in Twentieth Century American Literature The Satisfactions of Soil and Sweat explores environmental writing that foregrounds labor Ethan Mannon argues that Virgil's Georgics as well as the georgic mode in general exerted considerable influence upon some of America's best known writers including Robert Frost Willa Cather and Wendell Berry and that these and others worked to revise the mode to better fit their own contexts This book also outlines the contemporary value of the georgic literary tradition two thousand years of writing that begins with the premise that humans must use the world in order to survive and search for a balance between human needs and nature's

productive capacity In the georgic mode authors found an adaptable discourse that enabled them to advocate for the protection and responsible use of productive lands present rural places and people in all of their complexity explore human relationships with laboring animals and advertise the sensory pleasures of rooted work
