**Dead** LeRhonda S. Manigault-Bryant, 2014-05-14 Talking to the Dead is an ethnography of seven Gullah Geechee women from the South Carolina lowcountry. These women communicate with their ancestors through dreams, prayer, and visions, and traditional crafts and customs such as storytelling, basket making, and ecstatic singing in their churches. Like other Gullah Geechee women of the South Carolina and Georgia coasts, these women, through their active communication with the deceased, make choices and receive guidance about how to live out their faith and engage with the living. LeRhonda S. Manigault Bryant emphasizes that this communication affirms the women's spiritual faith, which seamlessly integrates Christian and folk traditions, and reinforces their position as powerful culture keepers within Gullah Geechee society. By looking in depth at this long-standing spiritual practice, Manigault Bryant highlights the subversive ingenuity that lowcountry inhabitants use to thrive spiritually and to maintain a sense of continuity with the past. *The New Encyclopedia of Southern Culture* Carol Crown, Cheryl Rivers, Charles Reagan Wilson, 2013-06-03 Folk art is one of the American South's most significant areas of creative achievement, and this comprehensive yet accessible reference details that achievement from the sixteenth century through the present. This volume of *The New Encyclopedia of Southern Culture* explores the many forms of aesthetic expression that have characterized southern folk art, including the work of self-taught artists as well as the South's complex relationship to national patterns of folk art collecting. Fifty-two thematic essays examine subjects ranging from colonial portraiture, Moravian material culture, and southern folk pottery to the South's rich quilt-making traditions, memory painting, and African American vernacular art, and 211 topical essays include profiles of major folk and self-taught artists in the region. *A Delicate Balance* Angela C. Halfacre, 2013-04-15 Sustainability of the natural environment and of our society has become one of the most urgent challenges facing modern Americans. Communities across the country are seeking a viable pattern of growth that promotes prosperity, protects the environment, and preserves the distinctive quality of life of their regions. The coastal zone of South Carolina is one of the most endangered, culturally complex regions in the state, and perhaps in all of the American South. *A Delicate Balance* examines how a multilayered culture of environmental conservation and sustainable development has emerged in the lowcountry of South Carolina. Angela C. Halfacre, a political scientist, describes how sprawl, shock, natural disaster, climate change, and other factors spawned and sustain but also threaten and hinder the culture of conservation. Since Hurricane Hugo in 1989, the coastal region of South Carolina has experienced unprecedented increases in residential and commercial development. *A Delicate Balance* uses interdisciplinary literature and ethnographic, historical, and spatial methods to show how growing numbers of lowcountry residents, bolstered by substantial political, corporate, and media support, have sought to maintain the region's distinctive sense of place as well as its fragile ecology. The diverse social and cultural threads forming the fabric of the lowcountry conservation culture include those who make their living from the land, such as African American basket makers and multigenerational farmers, as well as those who own, manage, and develop the land, and homeowner association members. Evolving perceptions, policies, and practices that

characterize community priorities and help to achieve the ultimate goal of sustainability are highlighted here As Halfacre demonstrates maintaining the quality of the environment while accommodating residential commercial and industrial growth is a balancing act replete with compromises This book documents the origins goals programs leaders tactics and effectiveness of a conservation culture A Delicate Balance deftly illustrates that a resilient culture of conservation that wields growing influence in the lowcountry has become an important regional model for conservation efforts across the nation A Delicate Balance also includes a foreword by journalist Cynthia Barnett author of Blue Revolution Unmaking America's Water Crisis and Mirage Florida and the Vanishing Water of the Eastern U S **The Civil War Era and Reconstruction** Mary Ellen Snodgrass, 2015-03-26 The encyclopedia takes a broad multidisciplinary approach to the history of the period It includes general and specific entries on politics and business labor industry agriculture education and youth law and legislative affairs literature music the performing and visual arts health and medicine science and technology exploration life on the Western frontier family life slave life Native American life women and more than a hundred influential individuals

Sullivan, 2017-03-01 Sapelo a state protected barrier island off the Georgia coast is one of the state's greatest treasures. Presently owned almost exclusively by the state and managed by the Georgia Department of Natural Resources, Sapelo features unique nature characteristics that have made it a locus for scientific research and ecological conservation. Beginning in 1949 when then Sapelo owner R J Reynolds Jr founded the Sapelo Island Research Foundation and funded the research of biologist Eugene Odum, UGA's study of the island's fragile wetlands helped foster the modern ecology movement. With this book Buddy Sullivan covers the full range of the island's history including Native American inhabitants, Spanish missions, the antebellum plantation of the innovative Thomas Spalding, the African American settlement of the island after the Civil War, Sapelo's two twentieth century millionaire owners Howard E Coffin and R J Reynolds Jr, and the development of the University of Georgia Marine Institute, the state of Georgia acquisition, and the transition of Sapelo's multiple African American communities into one. Sapelo Island's history also offers insights into the unique cultural circumstances of the residents of the community of Hog Hammock. Sullivan provides in depth examination of the important correlation between Sapelo's culturally significant Geechee communities and the succession of private and state owners of the island. The book's thematic approach is one of people and place, how prevailing environmental conditions influenced the way white and black owners used the land over generations, from agriculture in the past to island management in the present. Enhanced by a large selection of contemporary color photographs of the island as well as a selection of archival images and maps, Sapelo documents a unique island history.
