Harris, 2012-12-06 Pork continues to occupy an important position as a food source in affluent societies as well as in developing countries with slower economic growth The growth of the world swine population continues at a faster rate than that of the human population a reflection of the sustained demand for pork in all parts of the world The technical basis for commercial production of swine was presented in our two earlier textbooks *Swine Production in Temperate and Tropical Environments* by Pond and Maner 1974 and *Swine Production and Nutrition* by Pond and Maner 1984 In view of
