Swordfish Tooth:

The Swordfish Tooth Cynthia Zarin, 1989 The Swordfish Tooth Cynthia Zarin, 1989 The Swordfish Tooth Cynthia Zarin, 1989-01-01 *Next Day* Cynthia Zarin, 2024-08-13 A selection of the dazzling work of one of the finest writers of her generation and winner of the Los Angeles Times Book Prize a poet of elegant restraint emotional depth and moral vision Beginning with several dozen new poems that have appeared in *The New Yorker* among other publications this volume is a tour through Zarin's five exquisitely made collections beginning with *The Swordfish Tooth* published in 1989 Zarin a poet in the line of Elizabeth Bishop allows the reader to experience human truths through a poem's shape and music bodied forth through intimate images the turn in the stair a snow globe naked birch branches a vase of flowers and a propulsive syntax From the clarity of childhood memory to the maze of marriage and divorce from her own consciousness shaping landscapes of New York Cape Cod and Rome to the shifting tides of history and the troubled conscience of a nation her subject matter encompasses all of a woman's life with passion its risks satisfactions and shattering immediacy her first and truest subject

Foundations of Chumash Complexity Jeanne E. Arnold, 2005-12-31 This volume highlights the latest research on the foundations of sociopolitical complexity in coastal California The populous maritime societies of southern California particularly the groups known collectively as the Chumash have gone largely unrecognized as prototypical complex hunter gatherers only recently beginning to emerge from the shadow of their more celebrated counterparts on the Northwest Coast of North America While Northwest cultures are renowned for such complex institutions as ceremonial potlatches slavery cedar plank house villages and rich artistic traditions the Chumash are increasingly recognized as complex hunter gatherers with a different set of organizational characteristics ascribed chiefly leadership a strong maritime economy based on oceangoing canoes an integrative ceremonial system and intensive and highly specialized craft production activities Chumash sites provide some of the most robust data on these subjects available in the Americas Contributors present stimulating new analyses of household and village organization ceremonial specialists craft specializations and settlement data cultural transmission processes bead manufacturing practices watercraft and the acquisition of prized marine species **An Enlarged Heart** Cynthia Zarin, 2013-02-12 *An Enlarged Heart* the exquisitely written prose debut from prize winning poet Cynthia Zarin is a poignantly understated exploration of the author's experiences with love work and the surprise of time's passage In these intertwined episodes from her New York world and beyond she charts the shifting and complicated parameters of contemporary life and family in writing that feels nearly fictional in its richness of scene dialogue and mood The writer herself is the marvelously rueful character at the center of these tales at first a bewildered young woman navigating the terrain of new jobs and borrowed apartments and the rapidly fading New York of people like Mr Ferri the Upper East Side tailor a wren of a man with pins flashing in his teeth By the end whether Zarin is writing about vanished restaurants her decades long love affair with her collection of coats a newlywed journey to Italy a child's illness Mary

McCarthy's file cabinet or the inner life of the New Yorker staff she knew as a young woman this history of the heart shows us how persistent the past is in returning to us with entirely new lessons and that there are some truths not even a tailor can alter

The Ada Poems Cynthia Zarin, 2012-08-15 A dazzling story of obsessive love emerges in Cynthia Zarin's luminous new book inspired and inhabited by the title character of Nabokov's novel *Invitation of a Spring* or *Ardor* A Family Chronicle who was the lifelong love of her half brother Van These electric poems are set in a Nabokovian landscape of memory in which real places people and things the exploration of the Hudson River Edwardian London sunflowers Chekhov Harlem decks of cards the death of Solzhenitsyn morpho butterflies collide with the speaker's own protean tale of desire and loss With a string of brilliant contemporary sonnets as its spine the book is a headlong display of mastery and sorrow in the opening poem *Birch* the poet writes *Abide with me arrive at its skinned branches its arms pulled from the sapling the birch all elbows taking us in* But Zarin does not Destroy and forget as Nabokov's witty tender *Ada* would have her do rather as she writes in *Fugue* *Pilgrim Valley* The past's clear colors make the future dim *Lethe's swale* lined with willow twigs Like all enduring love poetry these poems are a gorgeous refusal to forget A riveting high stakes performance by one of our major poets *The Ada Poems* extends the reach of American poetry

Tooth and Claw Robert M. Johnson III, Sharon L. Gilman, Daniel Abel, 2023-05-09 A marvelously illustrated look at the most deadly predators on the planet *Tooth and Claw* presents the world's top predators as you have never seen them before from big cats and wild dogs to sharks reptiles and killer whales Blending gorgeous photos and illustrations with spellbinding storytelling this book is packed with the latest facts about these fearsome but often misunderstood animals It covers apex and other top predators in each major vertebrate family discussing where and how they live how they are faring in the modern world and why they matter Along the way the authors share informative and entertaining anecdotes from their decades in the field learning about predators and reveal hard truths about the role humans continue to play in their fate *Tooth and Claw* also describes conservation successes and lays out some simple but crucial steps each of us can take to protect these magnificent beasts Are humans top predators too Read this amazing book and find out Offers an unparalleled look at a side of nature rarely witnessed up close Stunningly illustrated throughout and brimming with fun facts Describes ultimate vertebrate predators ranging from sharks and reptiles to raptors cats dogs bears and marine mammals Provides rare insights into the biology ecology and conservation of top predators Draws on the latest findings from habitats around the world Conveys the wonders of the natural world with engaging storytelling and lively personal anecdotes

Orbit Cynthia Zarin, 2017-03-07 With *Orbit* prize winning author Cynthia Zarin confirms her place as an indispensable American poet of our time In this her fifth collection Zarin turns her lyric lens on the worlds within worlds we inhabit and how we navigate our shared predicament the tables of our lives on which the news of the day is strewn the president speaking to parishioners in Charleston the ricochet of violence near and far Whether writing about hairpin turns in the stair of childhood about the cat's claw of anxiety on the impending loss of a young friend or how love endures give or take

here is the poet who in the title poem bartered forty summers for black pearls and whose work is full of such wagers embodied in playing cards treble notes snow globes and balancing acts Zarin reminds us that the atmosphere created by our experiences shapes and defines the orbit we move through Along the way she is both witness and often indirectly subject I do not know how to hold the beauty and sorrow of my life she writes This book is an attempt at an answer **An Eye for a Tooth** Desmond Eccles, 2015-01-28 Why do our faces look so different from those of our ancestor Early Man Do animals teeth wear out Why are they sometimes such funny shapes like tusks and fangs An Eye for a Tooth The teeth of animals aims to fill a gap in the genre of popular science It explains and describes in everyday language how important teeth are to animals how they function and why they are different shapes It also looks at all aspects of the jaw system The book deals with the dentitions of dinosaurs primitive animals sharks and rays lizards snakes crocodiles and alligators There is an extensive section on mammals covering many different creatures of different shapes and sizes including whales herbivores and carnivores An Eye for a Tooth is not a comprehensive survey but examples of each Order are considered and some unusually interesting dentitions are mentioned The book concludes with sections on human evolution evolutionary niches and the future of teeth This book is an ideal companion for any fans of popular science who are looking to expand their knowledge as well as those interested in evolution **Beliefs and Rituals in Archaic Eastern North America** Cheryl

Claassen, 2015-06-15 Claassen's work focuses on the American Archaic period marked by the end of the Ice Age approximately 11 000 years ago and a geographic area bounded by the edge of the Great Plains Newfoundland and southern Florida This period and region share specific beliefs and practices such as human sacrifice dirt mound burial and oyster shell middens This interpretive guide serves as a platform for new interpretations and theories on this period For example Claassen connects rituals to topographic features and posits the Pleistocene Holocene transition as a major stimulus to Archaic beliefs She also expands the interpretation of existing data previously understood in economic or environmental terms to include how this same data may also reveal spiritual and symbolic practices Similarly Claassen interprets Archaic culture in terms of human agency and social constraint bringing ritual acts into focus as drivers of social transformation and ethnogenesis Inverno Cynthia Zarin, 2024-01-09 A daring heartbreaking novel Inverno is the book that J D Salinger's Franny Glass might have written a few decades into her adulthood Caroline waited for fifteen minutes in the snow After a little time had passed she was simply waiting to see what would happen It was entirely possible he would not come If he did not come she would be in a different story than the one she had imagined but it was possible she knew to imagine anything Inverno is a love story that stretches across decades Inverno is also the story of Caroline waiting in Central Park in a snowstorm for her phone to ring yards from where thirty years ago Alastair as a boy hid in the trees Will he call Won't he The story moves the way the mind does years flash by in an instant now we are in the perilous world of fairy tale now stranded anew in childhood with its sorrows and harsh words Ever present are the complicated negotiations of the heart This

brilliantly original novel by Cynthia Zarin author of *An Enlarged Heart* is a kaleidoscope in which the past and the present shatter Elliptical and inventive in the mode of Elizabeth Hardwick's *Sleepless Nights Inverno* is miraculous and startling It asks How does love make and unmake a life

Diversity and Complexity in Prehistoric Maritime Societies Bruce J. Bourque, 2007-09-04 New England archaeology has not always been everyone's cup of tea only late in the Golden of nineteenth century archaeology as archaeology's focus turned westward did a few pioneers look northward as well causing a brief flurry of investigation and excavation Between 1892 and 1894 Charles C Willoughby did some exemplary excavations at three small burial sites in Bucksport Orland and Ellsworth Maine and made some models of that activity for exhibition at the Chicago World's Fair These activities were encouraged by E Putnam director of the Harvard Peabody Museum and head of anthropology at the Columbian Exposition Even earlier another director of the Peabody Jeffries Wyman spawned some real interest in the shellheaps of the Maine coast but that did not last very long Twentieth century New England archaeology specifically in Maine was for its first fifty years rather low key too with short lived but important activity by Arlo and Oric a Bates Harvard student prior to World War Later I another Massachusetts institution the Peabody Foundation at Andover took some minor but responsible steps toward further understanding of the area's prehistoric past

Review of the State of World Marine Capture Fisheries Management Food and Agriculture Organization of the United Nations, 2007-01-01 During the first half of the 1990s in response to the increasing

concern about many of the world's fisheries a number of international fisheries instruments provided an impetus for countries to strengthen their fisheries management A key step in supporting such efforts is the development of more detailed systematic and comparable information on fisheries environments and management trends The State of World Marine Capture Fisheries Management Questionnaire was developed by FAO in 2004 to help meet this need The results have been grouped by region and are reported in this publication More than a decade later we are able to look back to see how countries responded to examine whether more fisheries are managed and to determine whether the management tools and strategies employed have improved the overall situation in marine capture fisheries Trends in legal and administrative frameworks management regimes and status of marine capture fisheries are analysed for 29 countries in the Pacific Ocean and presented in this report and on the accompanying CD ROM as an easy to read and informative reference for policy decision makers fishery managers and stakeholders

Understanding Development Alessandro Minelli, 2021-05-20

Developmental biology is seemingly well understood with development widely accepted as being a series of programmed changes through which an egg turns into an adult organism or a seed matures into a plant However the picture is much more complex than that is it all genetically controlled or does environment have an influence Is the final adult stage the target of development and everything else just a build up to that point Are developmental strategies the same in plants as in animals How do we consider development in single celled organisms In this concise engaging volume Alessandro Minelli a leading developmental biologist addresses these key questions Using familiar examples and easy to follow arguments he offers fresh alternatives to a number of preconceptions and stereotypes awakening the reader to the disparity of developmental phenomena across all main branches of the tree of life
