SWORDS AGAINST CTHULHU III Rogue Planet Press,2018-07-06

Sword and sorcery in the aeon of Cthulhu Rising The sciences each straining in its own direction have hitherto harmed us little but some day the piecing together of dissociated knowledge will open up such terrifying vistas of reality and of our frightful position therein that we shall either go mad from the revelation or flee from the light into the peace and safety of a new dark age So saith Lovecraft Picture a future Earth a savage world where science is jettisoned in favour of primitive superstition where technology has become the idol of a new religion A world where the truth of Cthulhu has been revealed where a lunatic humanity has discovered its true insignificance the punchline in a cosmic joke A new dark age has descended upon a species that has learnt too much Science and superstition and the sorcery of the Mad Arab create a world where only the strong survive and barbarian warriors battle for existence in a bleak and pitiless universe

The A to Z of Fantasy Literature Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites
