Problems And Solutions For Groups, Lie Groups, Lie Algebras With Applications Willi-hans Steeb, Yorick Hardy, Igor Tanski, 2012-04-26 The book presents examples of important techniques and theorems for Groups Lie groups and Lie algebras This allows the reader to gain understandings and insights through practice Applications of these topics in physics and engineering are also provided The book is self contained Each chapter gives an introduction to the topic

Quantum Mechanics Using Computer Algebra: Includes Sample Programs In C++, Symbolicc++, Maxima, Maple, And Mathematica (2nd Edition) Willi-hans Steeb, Yorick Hardy, 2010-03-24 Solving problems in quantum mechanics is an essential skill and research activity for physicists mathematicians engineers and others Nowadays the labor of scientific computation has been greatly eased by the advent of computer algebra packages which do not merely perform number crunching but also enable users to manipulate algebraic expressions and equations symbolically For example the manipulations of noncommutative operators differentiation and integration can now be carried out algebraically by the computer algebra package This book collects standard and advanced methods in quantum mechanics and implements them using SymbolicC and Maxima two popular computer algebra packages Throughout the sample programs and their outputs are accompanied with explanatory text of the underlying mathematics and physics explained in detail Selected problems have also been implemented using two other popular packages Mathematica and Maple while some problems are implemented in C Modern developments in quantum theory are covered extensively beyond the standard quantum mechanical techniques The new research topics added to this second edition are entanglement teleportation Berry phase Morse oscillator Magnus expansion wavelets Pauli and Clifford groups coupled Bose Fermi systems super Lie algebras etc

Computer Algebra with SymbolicC++ Yorick Hardy, Kiat Shi Tan, W.-H. Steeb, 2008 First published in 1973 Professor Akenstone's book traces the series of religious and political controversies which have battered the state schools of Northern Ireland After the government's admirably intentioned but muddled attempt to create a non sectarian school system in the early 1920s the educational system was progressively manipulated by sectarianism The way in which the author describes how children are schooled reveals a great deal about the attitudes and values of the parental generation and also helps to explain the actions of later generations

Intelligent Text Categorization and Clustering Felipe M. G. França, Alberto Ferreira de Souza, 2008-10-01 Automatic Text Categorization and Clustering are becoming more and more important as the amount of text in electronic format grows and the access to it becomes more necessary and widespread Well known applications are spam filtering and web search but a large number of everyday uses exist intelligent web search data mining law enforcement etc Currently researchers are employing many intelligent techniques for text categorization and clustering ranging from support vector machines and neural networks to Bayesian inference and algebraic methods such as Latent Semantic Indexing This volume offers a wide spectrum of research work developed for intelligent text categorization and clustering In the

following we give a brief introduction of the chapters that are included in this book
