Symbols Of Jesus A Christology Of Symbolic Engagement:

Symbols of Jesus Robert C. Neville, 2001 Symbols of Jesus is a systematic theology focusing on what makes Jesus important in Christianity **Theology in Global Context** Amos Yong, Peter G. Heltzel, 2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville s work **Christology and Science** F. LeRon Shults, 2021-11-18 The dialogue between theology and science has blossomed in recent decades but particular beliefs about Jesus Christ have not often been brought to the forefront of this interdisciplinary discussion even in explicitly Christian contexts This book breaks new ground by explicitly bringing the specific themes of Christology into dialogue with contemporary science It engages recent developments in late modern philosophy of science in order to articulate the Christian beliefs about Jesus Christ in a way that responds to challenges and opportunities that have arisen in light of various scientific discoveries The main chapters deal with Incarnation Atonement and Parousia After a brief treatment of the history of the shaping of these ideas the author traces developments in some of the sciences that have challenged these formulations evolutionary biology cultural anthropology and physical cosmology Each chapter also summarises some of the popular constructive responses to these developments After clarifying the way in which the Christian understanding of God and of humanity shape the task of reforming Christology each chapter concludes with a programmatic outline of ways in which we might articulate the identity agency and presence of Jesus Christ in dialogue with late modern science and culture *The Scandal of Pentecost* Wolfgang Vondey, 2023-10-19 Through a systematic analysis of the conflicts emerging when the public church encounters the public world The Scandal of Pentecost argues that the public advent of the church stands in continuity with the public scandal of the incarnate and crucified Christ The book traces the contours of this scandal in the confrontation of the dominant ruling hermeneutic of authority with a Christian hermeneutic of resistance This highlights the brokenness of the human condition manifested by the church in the drunkenness of the disciples the speaking in other tongues the baptism with the Spirit the empowerment of the flesh and its public witness to a scandalized world The effects of the scandal transform both the disciples individual and communal witness and their public recognition as the church Through the lens of a symbolic hermeneutic the public witness of the church at Pentecost reveals a Christian scandal of anthropological proportions with the outpouring of the Spirit on all flesh the church emerges as the symbol of humanity *The Making of American Liberal Theology* Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and

rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom *Divine*

Communion Jay Emerson Johnson, 2013-10-01 Food sex and God these intertwine at the heart of Christian faith and practice This book invites Christian communities to reflect theologically and spiritually on the desire for God and the desire for sexual intimacy as the same fundamental desire for communion This is likewise God's own desire to be in communion with us which Christians celebrate whenever we share a simple meal of bread and wine at the Eucharistic table The longing for intimacy and its disruptions echo throughout our political contestations economic systems racial and ethnic conflicts and ecological crises In no small measure the vitality of Christian witness to the Gospel in the twenty first century depends on exploring the depths of desire itself in the ancient hope for Divine Communion made new *Human Identity at the Intersection of*

Christian Life Robert Cummings Neville, 2016-07-04 Once liberal Christianity was preached in ways that defined it in the public eye Now Christianity is identified almost exclusively with its conservative expressions Seasons of the Christian Life presents a series of sermons articulating a liberal Christianity over against its conservative neighbors They were preached at

the University Church Marsh Chapel at Boston University save for one preached in Memorial Church at Harvard during the 2004 2005 academic year when President George W Bush was reelected and the country was at war in Iraq and Afghanistan and at war with terrorists wherever they could be imagined The sermons follow the Revised Common Lectionary and focus on biblical interpretation as it is applied to the then current spiritual cultural social and political situation The author is a professor of theology and at the time was Dean of Marsh Chapel and Chaplain of the University The Spirit Poured Out on All Flesh Amos Yong,2005-07-01 The Pentecostal movement has had an incredible impact on the shape of worldwide Christianity in the past century Estimates are that Pentecostals and charismatics make up approximately one fourth of Christians worldwide and the numbers are only expected to grow With these developments comes the need for thoughtful Christians of all persuasions to better understand Pentecostal theology In fact Amos Yong believes that Pentecostal theology can be a great gift to the church at large Yong presents a thoroughly Pentecostal theology of salvation the church the nature of God and creation He also provides a fascinating survey of the state of worldwide Pentecostalism examining how Pentecostal theology is influencing Christian churches in other countries **A Companion to Comparative Theology**,2022-08-22 A Companion to Comparative Theology offers a unique survey of a rapidly developing field of modern theology in 32 chapters coordinated by five editors Its first part discusses some of the main historical developments in theology and religious studies before 1985 that are relevant for understanding contemporary approaches in comparative theology The main part of the companion traces developments in five specific areas of comparative research starting with classical approaches by Christian comparative theologians and continuing with responses by scholars from Jewish Islamic Hindu Buddhist and Chinese religious comparative perspectives The final part of the companion highlights a number of new avenues in comparative theology discussing new methods new forms of awareness new partnerships with other fields of study and finally some preliminary conclusions Contributors are Nadeen Mustafa A Alsulaimi Mar a Enid Barga Bede Benjamin Bidlack Andr van der Braak Francis X Clooney Catherine Cornille Jonathan Edelmann Marianne Farina James L Fredericks Rouyan Gu Paul Hedges Holly Hilgardner Daniel Joslyn Siemiatkoski Louis Komjathy Christian S Krokus LAI Pan chiu Kristin Johnston Largen John Makransky Jerry L Martin Vahid Mahdavi Mehr Marianne Moyaert Emmanuel Nathan Robert Cummings Neville Hugh Nicholson Jerusha Tanner Rhodes Deborah Schoenfeld Klaus von Stosch Axel Marc Oaks Takacs Pim Valkenberg Maureen L Walsh Kijin James Wu **Pragmatic Inquiry and Religious Communities** Brandon Daniel-Hughes,2018-07-25 This book examines the ways in which religious communities experimentally engage the world and function as fallible inquisitive agents despite frequent protests to the contrary Using the philosophy of inquiry and semiotics of Charles Sanders Peirce it develops unique naturalist conceptions of religious meaning and ultimate orientation while also arguing for a reappraisal of the ways in which the world s venerable religious traditions enable novel forms of communal inquiry into what Peirce termed vital matters Pragmatic inquiry it argues is a ubiquitous and continuous

phenomenon Thus religious participation though cautiously conservative in many ways is best understood as a variety of inhabited experimentation Religious communities embody historically mediated hypotheses about how best to engage the world and curate networks of semiotic resources for rendering those engagements meaningful Religions best fulfill their inquisitive function when they both deploy and reform their sign systems as they learn better to engage reality **Natural Theology Reconfigured** Zhiqiu Xu,2016-03-22 Classic natural theology in its logical rational Aristotelian presentation has encountered an impasse Since the Enlightenment nature has ceased to be a vital topic in theological discussions until a recent revival of interest stemming from ecological and feminist concerns Provocatively transcending boundaries between Philosophy and Theology ancient and contemporary East and West Natural Theology Reconfigured revitalises the validity and relevancy of Natural Theology a shipwrecked concept in the West with the aid of Eastern Confucian Axiology and American Pragmatism *Dancing Theology in Fetish Boots* Lisa Isherwood,2013-01-26 Marcella Althaus Reid was one of the most fascinating and controversial theologians of the twentieth and early twenty first century Her strong personality and her iconoclastic work inspired a whole generation of theologians in the UK and worldwide Marcella s creative life was cut short by her death from cancer in 2009 Yet she lives on not least in those who have been inspired by her work and continue to engage with it *Dancing Theology in Fetish Boots* draws together a number of world class scholars and others who engage with the main themes of Marcella s work and show how the critical and controversial conversations which Marcella has begun can and do continue It is therefore far more than a Festschrift but a celebration of an intellectual life Marcella style

Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work. Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers, this condensed edition includes key contributors to philosophical thought. From 1600 to the present day, entries cover psychology, pedagogy, sociology, anthropology, education, theology, and political science before these disciplines came to be considered distinct from philosophy. Clear and accessible, each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. Featuring a new preface by the editor and a comprehensive introduction, The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty-first century thinkers including Martha Nussbaum and Patricia Churchland. With in-depth overviews of Waldo Emerson, Margaret Fuller, Noah Porter, Frederick Rauch, Benjamin Franklin, Thomas Paine, and Thomas Jefferson, this is an invaluable one-stop research volume to understanding leading figures in American thought and the development of American intellectual history.

C.S. Peirce and the Nested Continua Model of Religious Interpretation Gary Slater, 2015-11-26. This study develops resources in the work of Charles S. Peirce (1839-1914) for the purposes of contemporary philosophy. It contextualizes Peirce's prevailing influences and provides greater context in relation to the currents of nineteenth-century thought. Dr. Gary Slater articulates a nested continua model for theological interpretation which is indebted to Peirce's creation of Existential Graphs, a system of diagrams designed to provide visual representation of the process of human reasoning. He investigates how the model can be applied by looking at recent debates in historiography. He deals respectively with Peter Ochs and Robert C. Neville as contemporary manifestations of Peircean philosophical theology. This work concludes with an assessment of the model's theological implications.

American Philosophy: An Encyclopedia John Lachs, Robert B. Talisse, 2008-03-31. The Encyclopedia of American Philosophy provides coverage of the major figures, concepts, historical periods, and traditions in American philosophical thought. Containing over 600 entries written by scholars who are experts in the field, this Encyclopedia is the first of its kind. It is a scholarly reference work that is accessible to the ordinary reader by explaining complex ideas in simple terms and providing ample cross-references to facilitate further study. The Encyclopedia of American Philosophy contains a thorough analytical index and will serve as a standard comprehensive reference work for universities and colleges. Topics covered include Great philosophers: Emerson, Dewey, James, Royce, Peirce, Santayana; Subjects: Pragmatism, Progress, the Future, Knowledge, Democracy, Growth, Truth, Influences on American Philosophy; Hegel, Aristotle, Plato, British Enlightenment, Reformation; Self Assessments: Joe Margolis, Donald Davidson, Susan Haack, Peter Hare, John McDermott, Stanley Cavell; Ethics: Value, Pleasure, Happiness, Duty, Judgment, Growth; Political Philosophy: Declaration of Independence, Democracy, Freedom, Liberalism, Community, Identity.

Religious apologetics - philosophical argumentation Yossef Schwartz, Volkhard Krech, 2004. The dialog between the religions and various cultures has shown their common ground and emphasized the differences which characterize the individual religion or cultural
