The Symphony and Symphonic Thinking in Polish Music Since 1956 Beata Bolesławska, 2019-05-22 1956 was a year of transition in Poland and an important year for Polish music This year saw the beginning of a political thaw sometimes called the Polish October in communist Poland It was also the year of the establishment of the Warsaw Autumn

International Festival of Contemporary Music This was a time of great artistic ferment in Polish music which also deeply influenced symphonic thinking The year 1956 is thus an appropriate starting point for Beata Bolesawska's study of the contemporary Polish symphonic tradition Bolesawska investigates the influential Polish avant garde illuminating the ways in which new musical means and ideas influenced symphonic music and the genre of the symphony in the music of such important composers as Witold Lutoslawski 1913-1994 Henryk Mikolaj Górecki 1933-2010 and Krzysztof Penderecki b 1933 Referring to the main elements of the European tradition as well as examining briefly the symphonic activity in Poland before 1956 the book concentrates on the symphonic writing in the context of avant garde trends represented by the so called Polish school of composers as well as on its later redefinitions proposed by Polish composers up to the present day Anton Bruckner, **Notes** Music Library Association, 1998 *Anton Bruckner* Lee T. Lovullo, 1991 This discography a finalist in ARSC's 1992 Awards for Excellence represents a broad and accurate document of the availability of Bruckner's music on records tapes and compact discs over the last forty years An indexed list of writers of liner notes recognizes the important criticism of many prominent scholars and a chronology documents trends in the proliferation of recorded performances

Anton Bruckner: Trial, tribulation and triumph in Vienna Crawford Howie, 2002 This study provides a fuller account of Bruckner's early and middle years than has hitherto been available and supplements the more accessible information about his years in Vienna by drawing on a rich source of material in contemporary reviews of performances of his works comparisons between him and Brahms and the well documented accounts of hostility between the conservative pro Brahms faction represented by Hanslick Halbeck and others and the progressive pro Wagner and pro Bruckner faction represented by the Schalk brothers Ferdinand Lowe and Hugo Wolf *Being Musically Attuned* Erik Wallrup, 2016-04-15 Listening according to mood is likely to be what most people do when they listen to music We want to take part in or even be part of the emerging world of the musical work Using the sources of musical history and philosophy Erik Wallrup explores this extremely vague and elusive phenomenon which is held to be fundamental to musical hearing Wallrup unfolds the untold musical history of the German word for mood Stimmung which in the 19th century was abundant in the musical aesthetics of the German Austrian sphere Martin Heidegger's much discussed philosophy of Stimmung is introduced into the field of music allowing Wallrup to realise fully the potential of the concept Mood in music or to be more precise musical attunement should not be seen as a peculiar kind of emotionality but that which constitutes fundamentally the relationship between listener and music Exploring mood or attunement is indispensable for a thorough understanding of the act of listening to music *BBC Proms 2019* BBC Proms Publications, 2019-04-17 The BBC Proms is the world's biggest and longest running classical music festival and one of the jewels in the crown for the BBC It is one of the strongest brand names in the music world and attracts a glittering array of artists and orchestras from the UK and around the world in over 150 concerts talks workshops and family events around London every summer Whether you're a first time visitor or an experienced Prommer watching at home
