Syncretism Anti Syncretism The Politics Of Religious Synthesis:

Syncretism/Anti-Syncretism Rosalind Shaw, Charles Stewart, 2003-12-16 The contributors explore the issues of agency and power which motivate the conflicting discourses surrounding syncretism that is the mixing of different religious traditions within a culture

Syncretism/Anti-Syncretism Rosalind Shaw, Charles Stewart, 2003-12-16 Syncretism the synthesis of different religious is a contentious word Some regard it as a pejorative term referring to local versions of notionally standard world religions which are deemed inauthentic because saturated with indigenous content Syncretic versions of Christianity do not conform to official read European models In other contexts however the syncretic amalgamation of religions may be validated as a mode of resistance to colonial hegemony a sign of cultural survival or as a means of authorising political dominance in a multicultural state In Syncretism Anti Syncretism the contributors explore the issues of agency and power which are integral to the very process of syncretism and to the competing discourses surrounding the term

Syncretism and Christian Tradition Ross Kane, 2020-11-11 Syncretism has been a part of Christianity from its very beginnings Defined as the phenomena of religious mixture syncretism carries a range of connotations In Christian theology syncretism shifted from a compliment during the Reformation to an outright insult in the twentieth and twenty first centuries Ross Kane argues that the history of syncretism s use accentuates wider interpretive problems drawing attention to attempts by Christian theologians to protect the category of divine revelation from perceived human interference Syncretism and Christian Tradition examines how the concept of race figures into dominant religious traditions associated with imperialism and reveals how syncretism can act a vital means of the Holy Spirit s continuing revelation of Jesus

Objects of Translation Finbarr Barry Flood, 2022-07-12 Objects of Translation offers a nuanced approach to the entanglements of medieval elites in the regions that today comprise Afghanistan Pakistan and north India The book which ranges in time from the early eighth to the early thirteenth centuries challenges existing narratives that cast the period as one of enduring hostility between monolithic Hindu and Muslim cultures These narratives of conflict have generally depended upon premodern texts for their understanding of the past By contrast this book considers the role of material culture and highlights how objects such as coins dress monuments paintings and sculptures mediated diverse modes of encounter during a critical but neglected period in South Asian history The book explores modes of circulation among them looting gifting and trade through which artisans and artifacts traveled remapping cultural boundaries usually imagined as stable and static It analyzes the relationship between mobility and practices of cultural translation and the role of both in the emergence of complex transcultural identities Among the subjects discussed are the rendering of Arabic sacred texts in Sanskrit on Indian coins the adoption of Turko Persian dress by Buddhist rulers the work of Indian stone masons in Afghanistan and the incorporation of carvings from Hindu and Jain temples in early Indian mosques Objects of Translation draws upon contemporary theories of cosmopolitanism and globalization to argue for radically new approaches to the

cultural geography of premodern South Asia and the Islamic world

Deep History, Secular Theory Luther

Martin, 2014-05-21 Over the course of his career Luther H Martin has primarily produced articles rather than monographs. This approach to publication has given him the opportunity to experiment with different methodological approaches to an academic study of religion with updates to and different interpretations of his field of historical specialization namely Hellenistic religions the subject of his only monograph 1987. The contents of this collected volume represent Martin's shift from comparative studies to socio political studies to scientific studies of religion and especially to the cognitive science of religion. He currently considers the latter to be the most viable approach for a scientific study of religion within the academic context of a modern research university. The twenty five contributions collected in this volume are selected from over one hundred essays articles and book chapters published over a long and industrious career and are representative of Martin's work over the past two decades.

This book examines several of these questions and utilizes a combination of analytical tools new theoretical tropes and an ethnographic approach to understand and situate popular Sufi shrines so that they are both historicized and spatialized.
