Terrorism In Context:

Terrorism in Context Martha Crenshaw,2010-11-01 *Terrorism in Context* Martha Crenshaw,1995 The purpose of the project that led to this volume was to advance the analysis of political terrorism by commissioning a series of comparative case studies written by specialists from different disciplines on a variety of past and present campaigns of oppositional terrorism which as these studies show is often closely connected to state repression *Talking about Terrorism* ,2008

Putting Terrorism in Context Gary LaFree,Laura Dugan,Erin Miller,2014-11-24 This book offers a guide to interpreting available statistical data on terrorism attacks around the world The Global Terrorism Database GTD now includes more than 113 000 terrorist attacks starting in 1970 By analyzing these data researchers demonstrate how a very small number of terrorist attacks have had an outsized effect on attitudes and policies toward terrorism These attacks referred to as black swan events are difficult to predict but have an enormous impact on human affairs for years to come The book discusses terrorist attacks such as 9 11 possibly the most high profile black swan event in living memory by putting them into context with thousands of less publicized attacks that have plagued the world since 1970 Historically the study of terrorism has suffered from a general lack of empirical data and statistical analysis This is largely due to the difficulty of obtaining valid data on a topic that poses significant collection challenges However this book makes use of the fact that the GTD is currently the most extensive unclassified database on terrorism ever collected While there have been summaries of the research literature on terrorism and important analyses of international terrorism event data this is the first book that provides a comprehensive empirical overview of the nature and evolution of both modern international and domestic terrorism This book will be of interest to students of terrorism and political violence criminology international security and political science in general

Countering Terrorist Recruitment in the Context of Armed Counter-Terrorism Operations Hüseyin Akdogan,Eman Ragab,Ahmet Ekici,Richard Warnes,2016-02-15 Terrorism is not a new phenomenon but almost all communities regardless of ethnicity religion social status or location are now increasingly facing the challenge of terrorist threat What makes a terrorist organization attractive to some citizens A better understanding of the reasons why individuals choose to join terror groups may well enhance efforts to disrupt the recruitment process of terrorist organizations and thereby support current and future counter terrorism initiatives This book presents the proceedings of the NATO Advanced Research Workshop Countering Terrorist Recruitment in the Context of Armed Counter Terrorism Operations held in Antalya Turkey in May 2015 The goal of the workshop was to share existing ideas and develop new ones to tackle terrorist recruitment The book contains 18 articles covering topics which include the role of NATO and other international entities in counter terrorism understanding recruitment methods and socialization techniques of terror networks by comparing them to gangs social media in terrorist recruitment drug money links with terrorist financing and counter terrorism and human rights The book will be of interest to all those involved in developing planning and executing prevention programs and policies in

relation to both armed and non armed counter terrorism operations **Counter-Terrorism** B. Spalek, 2012-05-29 This book examines community based approaches to counter terrorism through an analysis of the notions of community partnership engagement gender and religion in order to shed new light on the potential of and drawbacks to these approaches Dr Spalek stresses the need for policy makers and practitioners to reflect on the effectiveness of the initiatives that they are engaged with particularly in relation to how community targeted or community focused they are The Normalisation of Exceptional Counterterrorism Powers Marine Guéguin, 2025-06-30 This book investigates the framing of the terrorist threat in France from 2015 to 2020 as an exceptional challenge which requires a special public security response The book examines how French political actors framed the terrorist threat in French political discourse from an exceptional challenge to a permanent routine threat It provides an in depth critical discourse analysis of the French political narratives surrounding the activation of the tat d urgence state of emergency following the 2015 Charlie Hebdo and Paris terrorist attacks and traces this narrative until 2020 The study explores the securitisation desecuritisation framework showing how the normalisation of emergency powers reflects the ongoing re construction of terrorism within French political contexts The work demonstrates the importance of threat framing and the securitisation of terrorism by considering the colonial legacies embedded in French counterterrorism CT policies By investigating the intersection of CT political discourse temporality and colonial continuity the book challenges traditional notions of exceptionalism in securitisation It argues that the routinisation of counterterrorism measures highlights the impossibility of fully desecuritising terrorism re establishing the status quo revealing how these measures are deeply rooted in France s colonial past This book will be of interest to students of Terrorism Studies Critical Security Studies French politics and International Relations *Criminal Profiling* Richard N. Kocsis, 2007-06-30 International Perspectives into the Practice and Research of Criminal Profiling Today criminal profiling is no longer viewed as some secretive mysterious technique that police from the United States of America exc sively indulge in when seeking to solve high profile aberrant forms of crime Although popular culture representations of criminal profiling still mostly favor such depictions by emphasizing this context the reality is that individuals from a range of occupational and disciplinary backgrounds from around the world are involved in the practice loosely referred to as criminal profiling Different nomenclature is adopted from time to time to describe essentially the same practice such as offender profiling psychological profiling pers ality profiling and crime analysis and indeed different techniques are often employed but nonetheless as an endeavor profiling has expanded both in app cation and in popularity across the world Criminal profiling has evolved chiefly because researchers and comm tators from around the globe have spent many years examining the perpetrators of serious crimes such as murder rape and arson In particular they have concentrated their efforts on studying the motivations and actions of violent offenders while seeking to document the experiences of both the victims and the perpetrators of crime Many have also sought to assess the input of inv tigative experience employed in criminal investigations and the influence of

expert witnesses on jury decisions and examined at length the assessment and treatment of the protagonists of crime

Criminology Theory and Terrorism Joshua Freilich, Gary LaFree, 2017-10-02 Although there has been an increase in research on terrorism across the social and behavioural sciences in the past few decades until recently most of this work has originated from political science psychology or economics Therefore our focus in this book on criminological conceptual frameworks and empirical studies that engage terrorism and responses to it is unique We include a distinguished group of researchers that offer their distinctive insights into criminological perspectives on terrorism The contributors focus on criminological perspectives that have rarely if ever been previously applied to the study of terrorism This includes a range of perspectives from rational choice to social disorganization from strain to routine activities theory This volume will advance understanding of terrorism by taking advantage of criminological contributions and at the same time will serve as a useful update to the criminologists and their students already working in this area It would also be a helpful introduction to those criminologists and their students who would like to be more engaged in this important area of research This book was originally published as a special issue of *Terrorism and Political Violence*

Using Human Rights to Counter Terrorism Manfred Nowak, 2018-03-30 While providing a substantive legal analysis of the links between human rights and counter terrorism this book provides the tools to successfully argue that a human rights approach does not undermine the fight against terrorism Through practical examples it shows that a State's lack of respect for human rights hinders its fight against terrorism and can be counter productive The contributing experts represent a wide breadth of experience at the national and international levels and bring their unique approach to each cross cutting topic
