Women s Writings and Historical Representation in World War I Denise Borille de Abreu,2012-02-28 Women s participation in wars either directly or indirectly has been the study object of war narratives since the Classical Age This book aims to analyze women s significant role to the construction of cultural memory and how women s representations have evolved from myth since Homer until the

early twentieth century when the First War was declared to the assumption of silent victims in wartime and finally to the condition of proactive members of a much dreamed society with equal opportunities for everyone This book also addresses more specifically how women war narratives of the First World War reflect upon the war trauma which brought equally disastrous consequences for women men and children and how the War contributed to the reconfiguration of women s social roles

Self-portraits Andrea Peterson,2006 In 1915 Vera

Brittain began to wonder whether it was possible to make a book out of the very essence of one's self. In this study the author moves away from Brittain's already well-documented political passions: socialism, feminism, and pacifism, to discuss her enduring fascination with philosophy and the problems surrounding the literary representation of subjectivity. Using the psychoanalytical, philosophical, and literary theories known to Brittain as well as some more recent and pertinent theoretical developments, the author examines not only Brittain's explicitly autobiographical writings but also all of her published novels: *The Dark Tide* (1923), *Not Without Honour* (1924), *Honourable Estate* (1936), *Account Rendered* (1945), and *Born* (1925, 1948). This insightful and accessible book details Brittain's innovative writing methods and re-evaluates her contribution to the development of the novel during the early twentieth century. The author offers a new and interesting perspective on one of the most popular writers of the First World War.

Handbook of British Literature and Culture of the First World War Ralf Schneider, Jane Potter, 2021-09-20. The First World War has given rise to a multifaceted cultural production like no other historical event. This handbook surveys British literature and film about the war from 1914 until today. The continuing interest in World War I highlights the interdependence of war experience, the imaginative re-creation of that experience in writing, and individual as well as collective memory. In the first part of the handbook, the major genres of war writing and film are addressed, including, of course, poetry and the novel, but also the short story; furthermore, it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post-colonial criticism. The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain. All in all, the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War.

Publishers, Readers and the Great War Vincent Trott, 2017-10-05. Literature is at the heart of popular understandings of the First World War in Britain and has perpetuated a popular memory of the conflict centred on disillusionment, horror, and futility. This book examines how and why literature has had this impact, exploring the role played by authors, publishers, and readers in constructing the memory of the war since 1918. It demonstrates that publishers were as influential as authors in shaping perceptions of the conflict and provides a detailed analysis of critical and popular responses to war books, tracing the evolution of readers' attitudes to the war between 1918 and 2014. By exploring the cultural legacy of the war from these two previously overlooked perspectives, Vincent Trott offers fresh insights regarding the emergence of a collective memory of the First World War in Britain. Drawing on a broad range of primary source material, including publishers' correspondence, dust jackets, adverts, book reviews, and diary entries, and examining canonical authors such as Wilfred Owen, Siegfried Sassoon, and Vera Brittain alongside long-forgotten texts and more recent autobiographical works by Harry Patch and Henry Allingham, *Publishers, Readers and the Great War* provides a rich and nuanced analysis of the climate within which First World War literature was written, published, and received since 1918.
