Tethered Liberty:

Tethered Liberty Jessica Steele, 1983 **Liberty's Flight** John Hamlin Gordon II, 2022-08-01 Liberty's Flight is the first in a series of novels attempting to capture the spirit and flavor of the evolution of our nation. Well-known personages and events are seen through the eyes of an irredeemable Jacobite who fled Scotland at the end of a bayonet fixed on a Brown Bess by order of King George II.

Liberty's Fire Lydia Syson, 2015-05-07 Paris 1871. Four young people will rewrite their destinies. Paris is in revolt. After months of siege at the hands of the Prussians, a wind of change is blowing through the city, bringing with it murmurs of a new revolution. Alone and poverty-stricken sixteen-year-old Zephyrine is quickly lured in by the ideals of the city's radical new government and she finds herself swept away by its promises of freedom, hope, equality, and rights for women. But she is about to be seduced for a second time following a fateful encounter with a young violinist. Anatole's passion for his music is soon swiftly matched only by his passion for this fierce and magnificent girl. He comes to believe in Zephyrine's new politics, but his friends are not so sure. Opera singer Marie and photographer Jules have desires of their own, and the harsh reality of life under the Commune is not quite as enticing for them as it seems to be for Anatole and Zephyrine. And when the violent reality of revolution comes crashing down at their feet, can they face the danger together or will they be forced to choose where their hearts really lie.

Fundamental Christian Ethics Daniel Heimbach, 2022-11-01 In *Fundamental Christian Ethics*, Daniel Heimbach draws from decades of research and scholarship to introduce the field of Christian ethics in a comprehensive manner while showing how it dialogues with modern-day ethical topics and issues.

Masters of Illusion Frank S. Ravitch, 2007-04 Many legal theorists and judges agree on one major premise in the field of law and religion: that religion clause jurisprudence is in a state of disarray and has been for some time. In *Masters of Illusion*, Frank S. Ravitch provocatively contends that both hard originalism, a strict focus on the intent of the Framers, and neutrality are illusory in religion clause jurisprudence: the former because it cannot live up to its promise for either side in the debate, and the latter because it is simply impossible in the religion clause context. Yet these two principles have been used in almost every Supreme Court decision addressing religion clause questions. Ravitch unpacks the various principles of religion clause interpretation, drawing on contemporary debates such as school prayer and displaying the Ten Commandments on courthouses, to demonstrate that the neutrality principle does not work in a pluralistic society. When defined by large overarching principles of equality and liberty, neutrality fails to account for differences between groups and individuals. If, however, the Court drew on a variety of principles instead of a single notion of neutrality to decide whether or not laws facilitated or discouraged religious practices, the result could be a more equitable approach to religion clause cases.

Fraser's Magazine, 1845 Birth of the State Charlotte Epstein, 2021 This book uses the body to peel back the layers of time and taken-for-granted ideas about the two defining political forms of modernity: the state and the subject of rights. It traces, under the lens of the body, how the state and the subject mutually constituted each other all the way down by going all

the way back to their original crafting in the seventeenth century It considers two revolutions The first scientific threw humanity out of the centre of the universe and transformed the very meanings of matter space and the body while the second legal and political re established humans as the centre point of the framework of modern rights The book analyses the fundamental rights to security liberty and property respectively as the initial knots where the state subject relation was first sealed It develops three arguments that the body served to naturalise security to individualise liberty and to privatise property Covering a wide range of materials from early modern Dutch painting to the canon of English political thought the Anglo Scottish legal struggles of naturalization and medical and religious practices it shows both how the body has operated as history s great naturaliser and how it can be mobilised instead as a critical tool that lays bare the deeply racialised and gendered constructions that made the state and the subject of rights The book returns to the origins of constructivist and constitutive theorising to reclaim their radical and critical potential
