Tethered Mercury A Pilots Memoir The Right Stuff But The Wrong Sex:

Tethered Mercury Bernice Trimble Steadman, Jody M. Clark, 2001 To Fly Among the Stars: The Hidden Story of the Fight for Women Astronauts (Scholastic Focus) Rebecca Siegel, 2020-03-03 A searing look at the birth of America's space program and the men and women aviators who set its course In the 1960s locked in a heated race to launch the first human into space the United States selected seven superstar test pilots and former military air fighters to NASA's astronaut class the Mercury 7 The men endured grueling training and constant media attention for the honor of becoming America's first space heroes But a group of 13 women accomplished air racers test pilots and flight instructors were enduring those same astronaut tests in secret hoping to defy social norms and earn a spot among the stars With thrilling stories of aviation feats frustrating tales of the fight against sexism and historical photos *To Fly Among the Stars* recounts an incredible era of US innovation and the audacious hope of the women who took their fight for space flight all the way to Washington DC **The Mercury 13** Martha Ackmann, 2003-06-03 For readers of *The Astronaut Wives Club* *The Mercury 13* reveals the little known true story of the remarkable women who trained for NASA space flight In 1961 just as NASA launched its first man into space a group of women underwent secret testing in the hopes of becoming America's first female astronauts They passed the same battery of tests at the legendary Lovelace Foundation as did the Mercury 7 astronauts but they were summarily dismissed by the boys club at NASA and on Capitol Hill The USSR sent its first woman into space in 1963 the United States did not follow suit for another twenty years For the first time Martha Ackmann tells the story of the dramatic events surrounding these thirteen remarkable women all crackerjack pilots and patriots who sometimes sacrificed jobs and marriages for a chance to participate in America's space race against the Soviet Union In addition to talking extensively to these women Ackmann interviewed Chuck Yeager John Glenn Scott Carpenter and others at NASA and in the White House with firsthand knowledge of the program and includes here never before seen photographs of the Mercury 13 passing their Lovelace tests Despite the crushing disappointment of watching their dreams being derailed the Mercury 13 went on to extraordinary achievement in their lives Jerrie Cobb who began flying when she was so small she had to sit on pillows to see out of the cockpit dedicated her life to flying solo missions to the Amazon rain forest Wally Funk who talked her way into the Lovelace trials went on to become one of the first female FAA investigators Janey Hart mother of eight and at age forty the oldest astronaut candidate had the political savvy to steer the women through congressional hearings and later helped found the National Organization for Women A provocative tribute to these extraordinary women *The Mercury 13* is an unforgettable story of determination resilience and inextinguishable hope **Fighting for Space** Amy Shira Teitel, 2020-02-18 Spaceflight historian Amy Shira Teitel tells the riveting story of the female pilots who each dreamed of being the first American woman in space When the space age dawned in the late 1950s Jackie Cochran held more propeller and jet flying records than any pilot of the twentieth century man or woman She had led the Women's Auxiliary Service Pilots

during the Second World War was the first woman to break the sound barrier ran her own luxury cosmetics company and counted multiple presidents among her personal friends She was more qualified than any woman in the world to make the leap from atmosphere to orbit Yet it was Jerrie Cobb twenty five years Jackie s junior and a record holding pilot in her own right who finagled her way into taking the same medical tests as the Mercury astronauts The prospect of flying in space quickly became her obsession While the American and international media spun the shocking story of a woman astronaut program Jackie and Jerrie struggled to gain control of the narrative each hoping to turn the rumored program into their own ideal reality an issue that ultimately went all the way to Congress This dual biography of audacious trailblazers Jackie Cochran and Jerrie Cobb presents these fascinating and fearless women in all their glory and grit using their stories as guides through the shifting social political and technical landscape of the time

Integrating Women Into the Astronaut Corps Amy E. Foster, 2011-12 Why Amy E Foster asks did it take two decades after the Soviet Union launched its first female cosmonaut for the United States to send its first female astronaut into space In answering this question Foster recounts the complicated history of integrating women into NASA s astronaut corps NASA selected its first six female astronauts in 1978 Foster examines the political technological and cultural challenges that the agency had to overcome to usher in this new era in spaceflight She shows how NASA had long developed progressive hiring policies but was limited in executing them by a national agenda to beat the Soviets to the moon budget constraints and cultural ideas about women s roles in America Lively writing and compelling stories including personal interviews with America s first women astronauts propel Foster s account Through extensive archival research Foster also examines NASA s directives about sexual discrimination the technological issues in integrating women into the corps and the popular media s discussion of women in space Foster puts together a truly original study of the experiences not only of early women astronauts but also of the managers and engineers who helped launch them into space In documenting these events Foster offers a broader understanding of the difficulties in sexually integrating any workplace even when the organization approaches the situation with as positive an outlook and as strong a motivation as did NASA

Astronauts Jim Ottaviani, 2020-02-04 In the graphic novel Astronauts Women on the Final Frontier Jim Ottaviani and illustrator Maris Wicks capture the great humor and incredible drive of Mary Cleave Valentina Tereshkova and the first women in space The U S may have put the first man on the moon but it was the Soviet space program that made Valentina Tereshkova the first woman in space It took years to catch up but soon NASA s first female astronauts were racing past milestones of their own The trail blazing women of Group 9 NASA s first mixed gender class had the challenging task of convincing the powers that be that a woman s place is in space but they discovered that NASA had plenty to learn about how to make space travel possible for everyone

Almost Astronauts Tanya Lee Stone, 2011-09-27 They had the right stuff They defied the prejudices of the time And they blazed a trail for generations of women to follow What does it take to be an astronaut Excellence at flying courage intelligence resistance to stress top physical shape any

checklist would include these But when America created NASA in 1958 there was another unspoken rule you had to be a man Here is the tale of thirteen women who proved that they were not only as tough as the toughest man but also brave enough to challenge the government They were blocked by prejudice jealousy and the scrawled note of one of the most powerful men in Washington But even though the Mercury 13 women did not make it into space they did not lose for their example empowered young women to take their place in the sky piloting jets and commanding space capsules ALMOST ASTRONAUTS is the story of thirteen true pioneers of the space age Back matter includes an author's note an appendix further reading a bibliography sources source notes and an index **Critical issues in the history of spaceflight** Steven J. Dick, 2018

Critical Issues in the History of Spaceflight Stephen J. Dick, Steven J. Dick, Roger D. Launius, 2006 In March 2005 the NASA History Division and the Division of Space History at the National Air and Space Museum brought together a distinguished group of scholars to consider the state of the discipline of space history This volume is a collection of essays based on those deliberations The meeting took place at a time of extraordinary transformation for NASA stemming from the new Vision of Space Exploration announced by President George W Bush in January 2004 to go to the Moon Mars and beyond This Vision in turn stemmed from a deep reevaluation of NASA's goals in the wake of the Space Shuttle Columbia accident and the recommendations of the Columbia Accident Investigation Board The new goals were seen as initiating a New Age of Exploration and were placed in the context of the importance of exploration and discovery to the American experiences Amazon Wild Women of Michigan Norma Lewis, 2017-09-04 Wild Women of Michigan commemorates the women of this state who boldly left their marks Countless Michiganian women performed extraordinary acts that challenged and improved the world Madame Marie Therese Cadillac served as the medicine woman in the frontier that became Detroit Annie Taylor survived rolling over Niagara Falls in a barrel After suffragist Anna Howard Shaw fought to vote the state saw an influx of women running for office In the 1970s East Lansing's Patricia Beeman aided in efforts to end apartheid in South Africa Suellen Finatry showcased an extreme side of equestrian sports by riding more than four thousand miles from St Ignace to Skagway Alaska And World War II army flight nurse Aleda Lutz evacuated more than 3 500 wounded soldiers and is still recognized as one of America's most decorated servicewomen Author and historian Norma Lewis commemorates the women who boldly left their marks New Books on Women and Feminism, 2001 *American Book Publishing Record*, 2002

AIAA Aerospace Sciences Meeting and Exhibit, 42nd, 2004 **Mercury 13** Martha Ackmann, 2011-07-13 A cavallo del 1960 tredici donne pilota americane hanno sostenuto e superato brillantemente gli stessi test a cui venivano sottoposti gli astronauti maschi americani Purtroppo i tempi non erano maturi le donne erano ancora tenute essenzialmente a fare le mogli dell'astronauta e la Luna rimasta un sogno per tutte loro Eppure i loro sforzi non sono stati vani la loro resistenza la loro caparbia il loro coraggio l'impegno da loro profuso la loro testardaggine hanno infatti fatto da apripista per le donne che sono venute dopo di loro La grande abilit  della Ackmann sta proprio nel saper parlare di temi scientifici e riportare fatti

storici in modo coinvolgente e suggestivo ci informa su date e procedure su retroscena politici e risvolti diplomatici ma in tono narrativo chiaro e comprensibile mai didascalico n oscuro La sua cronaca molto attenta alla psicologia delle persone di cui ci riferisce ed espone dettagli che avvicinano il lettore a quelle figure eccezionali facendogliele sentire vicine facendogliene percepire il lato umano
