neck craned to see its top rising far above or who has heard ghostly whispers of residents long past among the burnt red cliff dwellings of Mesa Verde or who has climbed the stairs to gaze out from the Statue of Liberty's crown would agree that our National Park system is a source of pride and wonder. But 100 years ago creating a bureau to administer America's vast and diverse parks was a concept requiring great debate and persuasion. The story of the National Park Service is the story of people who fought for the protection of the places that have helped to define our national identity: those places we now hold dear from the blue hazy mist that hangs over Great Smokey Mountains National Park to the spouting geysers of Yellowstone to the thick steamy waterways of the Everglades. The NPS founders were the architects of our family vacations, the inventors of icons with worldwide appeal. They battled progress which often masked greed and ignorance, and their story continues with those who molded and grew the NPS through a flu pandemic, the Great Depression, World Wars, and beyond. Prophets and Moguls, Rangers and Rogues, Bison and Bears is the engaging and accessible story of the NPS that brings to life its history and characters. The result of extensive research, dozens of interviews with Park Service employees, and the author's own experiences at park units she visited all over the country, it's a highly readable history that connects the dots of past to present and will remind readers of the vast array of public assets administered by the NPS resources which offer something for everyone and also need every citizen's support.

Includes products and services section to assist in planning a trip *Creation of the Teton Landscape* John C. Reed, J. D. Love, 2023-10-29 The Creation of the Teton Landscape embodies a panoramic exploration of the geological and natural history that sculpted the Teton Range, interweaving a rich tapestry of scientific research, historical narrative, and vivid storytelling. This collection stands out for its multifaceted approach, combining the rigor of scientific inquiry with the evocative power of personal narrative to illuminate the complex interplay between natural forces and human endeavors in shaping one of America's most iconic landscapes. The work transcends traditional boundaries of scientific writing, incorporating elements of geography, ecology, and environmental history, making it an indispensable resource for understanding the Tetons' majestic beauty. John C. Reed and J. D. Love, the

editors and contributors bring to this volume an unparalleled depth of knowledge and research rooted in their extensive careers within geological studies and their personal experiences in the Teton Range Their collaborative effort aligns with a broader scholarly movement towards integrating scientific understanding with humanistic perspectives offering readers a holistic view of landscape formation The anthology positions itself within a critical dialogue on conservation highlighting how geological features influence ecological dynamics and human interactions with nature Recreation of the Teton Landscape is an essential read for those wishing to delve into the heart of one of North America s most breathtaking natural wonders It invites readers not only to appreciate the scientific and historical intricacies that forged the Tetons but also to reflect on the broader implications of this knowledge for environmental stewardship and conservation efforts today Through its cross disciplinary approach this collection fosters a deeper appreciation for the natural world making it a valuable addition to the libraries of scholars students and nature enthusiasts alike
