The Siren and the Sage Steven Shankman, Stephen Durrant, 2003-09-16 The cultures of ancient China and ancient Greece have exerted immeasurable influence on later civilizations The texts and cultural values of classical China spread throughout East Asia and became the foundation of learning in Korea Japan and Vietnam Greek learning and culture receive credit for many of the intellectual paradigms of the West Probably the one which is most distinctly Western is the tradition of logical proof and the related assumption that as Aristotle put it in *Metaphysics* 980 we all desire to know In contrast the Chinese tradition as exemplified by Laozi's *Dao de jing* cautions that through our desire to know we may forfeit wisdom thus engendering a split between knowledge and wisdom *The Siren and the Sage* is a comparative study of what some of the most influential writers of ancient China and ancient Greece thought it meant to know and whether they distinguished knowledge from wisdom It surveys selected works of poetry history and philosophy from roughly the eighth through the second centuries BCE focusing on the Odyssey the ancient Chinese Classic of Poetry Thucydides History of the Peloponnesian War Sima Qian's Records of the Historian Plato's Symposium Laozi's *Dao de jing* and the writings of Zhuangzi The intention through such juxtaposition is to introduce foundational texts of each tradition texts which continue to influence most of the world's peoples It is intriguing to ask what awareness if any these distinctive cultures had of each other A considerable body of scholarship comparing ancient Greece and ancient China now exists Scholars are presenting evidence that the two cultures may actually have been aware of each other's presence even though that awareness was presumably indirect perhaps mediated by the nomadic peoples of Central Asia While not directly contributing evidence the authors argue that

comparing the cultures of Greece and China will continue to be an irresistible and important scholarly debate The book offers a provocative study which is accessible to students and general readers and at the same time contributes to the debate

Self-Cultivation in Chinese and Greco-Roman Philosophy David Machek,2025-05-15 In early China and ancient

Greece self cultivation was considered crucial for leading a flourishing fulfilled life In this cross cultural study David Machek presents and interprets six influential Greek and Chinese self cultivation theories advocated by Mengzi Zhuangzi and Xunzi as well as Plato Aristotle and the Stoics in order to put forward the overarching narrative that self cultivation amounts to strengthening the best part of the human self the heart in the Chinese context and the mind in the Greek context Advancing new readings of classic texts Machek shows that Greek approaches to self cultivation privilege intellectual pursuits while Chinese approaches give more weight to non intellectual activities such as learning manual crafts and performing rituals He also demonstrates how both ancient traditions understand the self as a heterogeneous community of organic entities each needing different provisions to flourish which aligns the ancient Greek view closer to the early Chinese view As such this book reinforces the underlying structural and conceptual similarities between the two traditions and makes an important contribution to diversifying philosophical conversations

Why the West Rules—for Now Ian Morris, 2025-10-16 A New York Times Notable Book of the Year A remarkable book an important book one that challenges stimulates and entertains Anyone who does not believe there are lessons to be learned from history should start right here The Economist Sometime around 1750 English entrepreneurs unleashed the astounding energies of steam and coal and the world was forever changed The emergence of factories railroads and gunboats propelled the West's rise to power in the nineteenth century and the development of computers and nuclear weapons in the twentieth century secured its global supremacy Now at the beginning of the twenty first century many worry that the emerging economic power of China and India spells the end of the West as a superpower In order to understand this possibility we need to look back in time Why has the West dominated the globe for the past two hundred years and will its power last Describing the patterns of human history the archaeologist and historian Ian Morris offers surprising new answers to both questions It is not he reveals differences of race or culture or even the strivings of great individuals that explain Western dominance It is the effects of geography on the everyday efforts of ordinary people as they deal with crises of resources disease migration and climate As geography and human ingenuity continue to interact the world will change in astonishing ways transforming Western rule in the process Deeply researched and brilliantly argued *Why the West Rules for Now* spans fifty thousand years of history and offers fresh insights on nearly every page The book brings together the latest findings across disciplines from ancient history to neuroscience not only to explain why the West came to rule the world but also to predict what the future will bring in the next hundred years

Plato Goes to China Shadi Bartsch, 2025-08-05 The surprising story of how Greek classics are being pressed into use in contemporary China to support the regime's political agenda As improbable as it may sound an illuminating way to understand today's China and how it views the West is to look at the astonishing ways Chinese intellectuals are interpreting or is it misinterpreting the Greek classics In *Plato Goes to China* Shadi Bartsch offers a provocative look at Chinese politics and ideology by exploring Chinese readings of Plato Aristotle Thucydides and other ancient writers She shows how Chinese

thinkers have dramatically recast the Greek classics to support China's political agenda, diagnose the ills of the West and assert the superiority of China's own Confucian classical tradition. In a lively account that ranges from the Jesuits to Xi Jinping, Bartsch traces how the fortunes of the Greek classics have changed in China since the seventeenth century. Before the Tiananmen Square crackdown, the Chinese typically read Greek philosophy and political theory in order to promote democratic reform or discover the secrets of the success of Western democracy and science. No longer. Today many Chinese intellectuals use these texts to critique concepts such as democracy, citizenship and rationality. Plato's Noble Lie, in which citizens are kept in their castes through deception, is lauded; Aristotle's Politics is seen as civic brainwashing; and Thucydides's criticism of Athenian democracy is applied to modern America. What do antiquity's dead white men have left to teach? By uncovering the unusual ways Chinese thinkers are answering that question, *Plato Goes to China* opens a surprising new window on China today.

Conceiving the Empire Fritz-Heiner Mutschler, Achim Mittag, 2008-11-13 The essays in *Conceiving the Empire: China and Rome Compared* explore how the idea of empire arose and developed in the two most powerful polities in antiquity. Extending its scope well beyond the notions of *tianxia* (All under Heaven) in China and *imperium* in Rome, the volume deals with the mental images of empire that emerged with the formation of political macro entities in the East and in the West. Written by a team of experts in Sinology and Classical Studies, *Conceiving the Empire* concentrates on the essential feature of the ancient Mediterranean and Chinese worlds: the emergence of empire and the enduring influence of the imperial order.

BOOK JACKET *The Heavens and the Earth: Graeco-Roman, Ancient Chinese, and Mediaeval Islamic Images of the World* Vittorio Cotesta, 2021-08-16 Vittorio Cotesta's *The Heavens and the Earth* traces the origin of the images of the world typical of the Graeco-Roman, Ancient Chinese and Medieval Islamic civilisations. Each of them had its own peculiar way of understanding the universe, life, death, society, power, humanity and its destiny. The comparative analysis carried out here suggests that they all shared a common human aspiration: despite their differences, human being is unique; differences are details which enrich its image. Today the traditions derived from these civilisations are often in competition and conflict. Reference to a common vision of humanity as a shared universal entity should lead instead to a quest for understanding and dialogue.

China and the West at the Crossroads Daiyun Yue, 2016-06-23 Beginning with a retrospective of the past century, this book offers a panoramic picture of Chinese comparative literature from its nascence in the early 1920s through its evolution in the 1980s to the new development at the turn of the century, ending with a prospective look at the future of comparative literature in the 21st century. The articles presented here reveal the author's deep understandings of the literature and culture of her own country and those of other countries. A rich array of case studies and in-depth theorizing make it an extremely interesting and enlightening read. Prof. Daiyun Yue is a prominent professor at Peking University and a leading figure in Chinese comparative literature. She has served as Head of the Institute for Comparative Literature and Cultural Studies, PKU, 1984-1998 and the third president of the Chinese Comparative Literature

Association 1989 2014 Further she is the founder of Dialogue Transcultural a much acclaimed journal of comparative literature Prof Yue approaches outstanding literature as a bridge to link people of different cultural traditions The reason why interdisciplinary literary research between two alien cultures is possible is because dialog between alien cultures along with exchange and understanding is more readily realized through literature Herein lies the value of comparative literature

Comparative Encounters Between Artaud, Michaux and the Zhuangzi Xiaofan Amy Li, 2017-12-02 The encounter between different minds and perspectives across time and space has always haunted the literary and philosophical imagination Just such an encounter is staged and played out in this comparative study which connects the twentieth century Francophone writers Antonin Artaud 1896 1948 and Henri Michaux 1899 1984 with the ancient Chinese text Zhuangzi c 4th 3rd century BCE These disparate texts are bridged by questions that draw them into close dialogue how can Artaud and Michaux who read about and admired ancient Chinese literature and culture be rethought through certain philosophical concerns that the Zhuangzi raises If the points of conceptual intersection focus on rationality cosmology and ethics what can they tell us about these important issues By imagining constructing and developing this thought encounter Li re envisages Artaud Michaux and the Zhuangzi through the kaleidoscope of comparative interpretation juxtaposing and recombining ideas and contexts to form new patterns and meanings Xiaofan Amy Li is Junior Research Fellow in Comparative Literature and Translation at St Anne s College Oxford University
