Social Class and the Comprehensive School Julianne Ford, 1969 **The 1960s** Philip Tew, James Riley, Melanie Seddon, 2018-07-26 How did social cultural and political events in Britain during and leading up to the 1960s shape modern British fiction The 1960s were the swinging decade a newly energised youth culture went hand in hand with new technologies expanding educational opportunities new social attitudes and profound political differences between the generations This volume explores the ways in which these apparently seismic changes were reflected in British fiction of the decade Chapters cover feminist writing that fused the personal and the political gay lesbian and immigrant voices and the work of visionary experimental and science fiction writers A major critical re evaluation of the decade this volume covers such writers as J G Ballard Anthony Burgess A S Byatt Angela Carter John Fowles Christopher Isherwood Doris Lessing Michael Moorcock and V S Naipaul Routledge Library Editions: Education Mini-Set L Sociology of Education Various, 2021-06-23 Mini set L Sociology of Education re issues 48 volumes originally published between 1928 and 1990 The books in this mini set discuss Teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization **Research Handbook on Curriculum and Education** Elizabeth Rata, 2024-04-12 This incisive Handbook brings together a wealth of innovative research from international curriculum and education experts to ask the question what knowledge should be taught in school how should it be taught and for what purpose **Pupil Disaffection in Schools**

Sarah Swann, 2016-04-15 Sarah Swann provides a fresh approach to examining the long standing debates over disaffection and in particular social class differences in educational achievement through a mixed methods methodology and the showcasing of new research By observing pupils as they engage with peers and teachers in school Swann allows disaffection to be seen and heard in real events which constructs disaffection differently from objective statistical evidence on school exclusions Rather than a homogenous identity this book illustrates disaffection as layered and resting on a series of issues located on the crossroads between the cultural context of the neighbourhood and the public sphere of the school It plots in a detailed way how these structures interact and mesh to create disaffected identities Disaffection does not emerge in a vacuum or without a cause Pupils arrive at school with a wide variety of experiences and it is from these that they interpret understand and act out their identities Whilst the study in part seeks to describe and understand the social world of the

school in terms of the pupils interpretations of the situation it analytically frames the perceptions of pupils within a wider social context In particular it focuses on the relationships between schooling and the wider macro structures and social relations that underpin disaffection This approach makes the research both critical and interpretative and also able to shed new light on educational policy across England based on an understanding of the role of disaffection *Housecraft* ,1978

Kane,2013-10-14 Rising exclusion rates indicate the continuing marginalisation of many young people in education in the UK Working class boys children living in poverty and children with additional special educational needs are among those experiencing a disproportionate rate of exclusion This book traces the processes of exclusion and alienation from school and relates this to a changing social and economic context Jean Kane argues that policy on schooling including curricular reform needs to be re connected to the broad political pursuit of social justice and presents compelling case studies of excluded pupils showing the multi faceted identities of pupils with a particular focus on masculine and feminine identities This invaluable contribution to the literature offers an alternative analysis where the social identities of pupils are shown to be tied up with their exclusion from school Themes investigated include the meanings of school exclusions social class gender and schooling social identities of excluded pupils negotiating identities in school moving towards exclusion exclusions and young people s lives improving participation in schooling Providing fascinating reading for teachers social workers researchers and policy makers this book considers how educational disadvantage might be addressed through recognition of the gender and class identities of pupils *The Colour of Class* Nicola Rollock,David Gillborn,Carol Vincent,Stephen J.

Ball,2014-11-13 How do race and class intersect to shape the identities and experiences of Black middle class parents and their children What are Black middle class parents strategies for supporting their children through school What role do the educational histories of Black middle class parents play in their decision making about their children s education There is now an extensive body of research on the educational strategies of the white middle classes but a silence exists around the emergence of the Black middle classes and their experiences priorities and actions in relation to education This book focuses on middle class families of Black Caribbean heritage Drawing on rich qualitative data from nearly 80 in depth interviews with Black Caribbean middle class parents the internationally renowned contributors reveal how these parents attempt to navigate their children successfully through the school system and defend them against low expectations and other manifestations of discrimination Chapters identify when how and to what extent parents deploy the financial cultural and social resources available to them as professional middle class individuals in support of their children s academic success and emotional well being The book sheds light on the complex and relatively neglected relations between race social class and

education and in addition poses wider questions about the experiences of social mobility and the intersection of race and class in forming the identity of the parents and their children *The Colour of Class* The educational strategies of the Black middle classes will appeal to undergraduates and postgraduates on education sociology and social policy courses as well as academics with an interest in Critical Race Theory and Bourdieu *The Colour of Class* was awarded 2nd prize by the Society for Educational Studies Book Prize 2016 *Middle-class School Choice in Urban Spaces* Emma Rowe, 2016-12-01 Middle class School Choice in Urban Spaces examines government funded public schools from a range of perspectives and scholarship in order to examine the historical political and economic conditions of public schooling within a globalized post welfare context In this book Rowe argues that post welfare policy conditions are detrimental to government funded public schools as they engender consistent pressure in rearticulating the public school in alignment with the market produce tensions in serving the more historical conceptualizations of public schooling and are preoccupied by contemporary profit driven concerns Chapters focus on public schooling from different global perspectives with examples from Chile and the US to examine how various social movements encapsulate ideologies around public schooling Rowe also draws upon a rich five year ethnographic study of campaigns lobbying the Victorian State Government in Australia for a brand new local specific public school Critical attention is paid to the public school as a means to achieve empowerment and overcome discrimination and both a local and global lens are used to identify how parents choose the public school the values they attach to it and the strategies they use to obtain it Also considered however are how quality gaps distances and differences between public schools threaten to undermine the democracy of education as a means for individuals to be socially mobile and escape poverty This book makes an important contribution to our understanding of global social movements and activism around public education As such it will be of key interest to researchers academics and postgraduate students in the field of education specifically those working on school choice class and identity as well as educational geography [Resources in Education](#) ,2000-10 **Exam Nation** Sammy Wright, 2024-08-15 School should equip children for adulthood In reality it means one thing exams Exam Nation sets out a better way and crucially shows us how we might get there An essential read as entertaining as it is insightful for anyone who cares about the way we treat young people Brilliant OBSERVER Educationalist and Head of School Sammy Wright argues that grades rankings and Ofsted reports all miss the point of school and together they are undermining our whole approach to education Rather than sorting pupils into winners and losers we need to think differently about what our schools are actually for to see them as communities not factories if we are to give all young people the opportunities and future they deserve Such a compelling read TELEGRAPH Deeply absorbing Wright deserves the highest marks FINANCIAL TIMES Extraordinary The book education has been waiting for LAURA MCINERNEY Persuasive He is clearly a superb teacher SAM FREEDMAN LITERARY REVIEW *Black Male Collegians: Increasing Access, Retention, and Persistence in Higher Education* Robert T. Sociocultural Studies in Education Richard A Quantz,2016-01-08 Sociocultural Studies in Education Critical Thinking for Democracy fills a void in the education of educators and citizens in a democracy It explores some of the fundamentals around which disagreements in education arise It presents a process with which those new to these debates can understand often confusing and entwined sets of facts and logics This book leads the reader through some general concepts and intellectual skills that provide the basis for making sense out of the debates around public education in a democracy This book can be seen as a primer on how to read texts about education It acknowledges that good teachers must be not only trained to teach but also educated about education It presents the various themes and currents found within the arguments and narratives that people use to represent public education It assumes that the more those interested in education know about how to see through the rhetoric the better they will be at discerning whose interests are served by which texts
