The final chapter explores

potential ecclesial meanings which may be mediated in the Taize liturgy and the role of Berthier's chants in mediating that meaning The study concludes that it is music s symbolic property that enables it to be both ministerial and integral to the liturgy As symbolic activity music making evokes participation negotiates relationships and enables the assembly to orient themselves and to find their identity and place within their world Furthermore music making provides the illocutionary force to do something in the act of singing Thus it is that as part of a complexus of ritual symbols music interacts with other symbols in mediating the liturgy s meaning Seek and You Shall Find Taizé, 2006-09 Short meditations about the nature of God are offered as answers to questions such as Why do we call God Father Is God a judge and What does it mean to believe The answers emphasize the human longing for a meaningful life and offer starting points for further investigation in Bible passages with commentary on the Resurrection and Jesus s message of love and forgiveness The Music Architect Constance M.
