**The Sophia Teachings** Robert Powell,2001 Powell surveys the wonders and teachings associated with this treasure from Christianity s mystical past spanning the Greek philosophers King Solomon Hildegard von Bingen Our Lady of Guadalupe and the Virgin Mary

**The Sophia Teachings** Robert A. Powell,2007-03 Robert Powell uncovers a secret stream of wisdom that flows through the heart of Christianity the feminine principle known in Greek as Sophia the being of Holy Wisdom herself This sacred embodiment named in the Old Testament as the first living being made by God has comforted and guided seekers of truth in every age and in every human culture Powell surveys the wonders and teachings associated with this unacknowledged treasure of Christianity s mystical past a stream running from the Greek philosophers and King Solomon through the cosmic visions of Hildegard von Bingen Our Lady of Guadalupe and the relation of Sophia to Mary the mother of Christ The Sophia Teachings provides accessible and informative insights into the being of Sophia generally overlooked by modern patriarchal Christianity and misinterpreted by new age and and other movements that often trivialize the meaning and purpose of this significant cosmic entity

**She Was Always There** Signe Eklund Schaefer,2023-06-05 Who or perhaps what is she Signe Eklund Schaefer poses this question as she leads us into a heartfelt exploration of the great mystery that is Sophia Her book does not take an academic or theological path but one that is personal and full of warmth and genuine interest in discovery that goes toward living reality well beyond mere names and fixed ideas As Schaefer says she decided to forego the idea of a straightforward narrative and instead interweave musings poems saved quotations and other assorted notes from my many years of living with questions about and to her The author tells us Questions of inner growth of spiritual striving of how to bear the suffering in the world without going under and perhaps most of all of how to love often present themselves surrounded by veils In acknowledging a question the veil may begin to shift Our questions matter bringing them to consciousness exploring them with others waiting with an open heart for the spirit to speak this is the ongoing work of unveiling Sophia is rightly seen as the living moving being of universal wisdom and the archetypal feminine but Schaefer helps us to see her as more as an expression of what humanity must rightfully become

**The Return of Mother God** Tony Scazzero,2023-01-20 Most people become upset and even angry when it s suggested that the God they know as Lord and Father might also be called God the Mother Yet a society that reveres the feminine creates beauty love and equality More importantly the return of Mother God is needed as conferring with Her will improve our thinking to better handle the challenges of life The future prosperity of all countries would be ensured if men and women equally shared tasks working side by side It doesn t take a genius to figure out that humanity will benefit from a kinder gender balanced divinity Since God is the male female parent of all mankind until the Divine Mother is welcome back into our hearts humanity cannot fulfil their potential Mother God brings the highest awareness with limitless nurturing

the relationship between the Earth and the cosmos which is the central theme for the research presented in this book Its point of departure is the one to one correspondence between the encircling starry heavens the celestial sphere and the sphere of the earthly globe David Bowden has not only worked out the mathematics of this one to one correspondence but has also written a computer program that applies it in practice Thus a new science has been born Astrogeographia concerning the one to one correspondence between the earthly sphere and the celestial sphere *Christ and the Maya Calendar* Kevin Dann,2009-03 Cosmic Christianity describes the relationship between the earthly and supra earthly cosmic worlds by showing the relationship between the cosmos as expressed in the movements of the stars and the activities of Christ during his three years of ministry on Earth The gesture of each astrological planet during those years is worked out and correlated with specific acts of the Christ as recorded in the Gospels The apparent looping movements of Mercury for example are connected with the seven signs of St John s gospel The author goes on to explore the many ways in which these healing acts which have been inscribed in the heavens continue to work in evolution through the events of history and through our individual human lives By studying this we begin to understand our responsibility for developing the new Christian mysteries and consequently renewing the starry cosmos Sucher presents a real foundation for modern star wisdom Topics include the evolution of cosmology the origins of the planetary symbols our new relationship to the stars as revealed in human lives and historical events and the role of the Archangel Michael in our individual relationship to the stars This is an excellent place to begin one s study of the stars and their meaning for both our individual lives and for the world

**Prophecy Phenomena Hope** Robert A. Powell,2011-09 14 lectures Basel April 20 May 16 1920 CW 301 Following a lecture of November 27 1919 requested by the Basel Department of Education sixty members of the audience invited Rudolf Steiner to return and deliver a complete lecture course on his approach to education These lectures are the result Rudolf Steiner begins by outlining the gradual development of the child with the help of spiritual forces and enlightened educational practices which form the basis for Steiner s approach to education He describes the problems that modern educators face and provides practical solutions Steiner explains the effects of morality on real freedom and how the development of a child s will leads to a free flexible ability to think He describes the life long effects that teachers have on children through the ways they teach in the early grades The subjects of these lectures cover a broad range from the threefold nature of the human being to the teacher s responsibility toward their students future from arts such as music and eurythmy to the problems involved in training teachers from zoology and botany to language geography and history Like many of Steiner s lectures to public audiences these are accessible and practical and provide a real overview to his ideas for renewing modern education This book is a translation of tge German edition *Die Erneuerung der p dagogisch didaktischen Kunst durch Geisteswissenschaft* Rudolf Steiner Nachlassverwaltung 1977 [Seeking Wisdom in Adult Teaching and Learning](#) Wilma Fraser,2017-10-24 This book concerns the pursuit of wisdom in education and the argument that wisdom personified here as

Sophia is tragically marginalised or absent in current Western epistemological discourses. It includes a review of key historical and classical framings which have lost much potency and relevance as certain cultural narratives hold sway. These include the reductionist, technicist and highly instrumentalist discourses which shape the articulation and delivery of much education policy and practice whilst reflecting similar troubling framings from broader neoliberal perspectives. Fraser argues that wisdom's marginalisation has had and continues to have profoundly deleterious consequences for our educative practices. Through a compelling combination of narrative and autoethnographic techniques while also drawing on philosophical and cultural traditions, the book pushes at the boundaries of emerging knowledge including how knowledge is generated. It will be of interest to those who facilitate the learning of adults in a variety of settings as well as to students and supervisors seeking exemplars and justification for working in non-traditional ways.

Torquay, UK. August 12-20, 1924. CW 311. These seven intimate aphoristic talks were presented to a small group on Steiner's final visit to England. Because they were given to pioneers dedicated to opening a new Waldorf school, these talks are often considered one of the best introductions to Waldorf education. Steiner shows the necessity for teachers to work on themselves first in order to transform their own inherent gifts. He explains the need to use humor to keep their teaching lively and imaginative. Above all, he stresses the tremendous importance of doing everything in the knowledge that children are citizens of both the spiritual and the earthly worlds. And throughout these lectures, he continually returns to the practical value of Waldorf education. These talks are filled with practical illustrations and revolve around certain themes: the need for observation in teachers, the dangers of stressing the intellect too early, children's need for teaching that is concrete and pictorial, the education of children's souls through wonder and reverence, the importance of first presenting the whole then the parts to the children's imagination. Here is one of the best introductions to Waldorf education straight from the man who started it all. This volume is a translation of *Die Kunst des Erziehens aus dem Erfassen der Menschenwesenheit* volume 311 of the Complete Centenary Edition of the works of Rudolf Steiner published by Rudolf

*Women, Ritual, and Power* Elizabeth Ursic, 2014-09-30 Many Christians do not know the Bible contains female images of God because they have never heard nor seen them in church In *Women Ritual and Power* Elizabeth Ursic gives the reader insight into four Christian communities that worship God with female imagery both as a worship focus and a community identity These Methodist Presbyterian Lutheran and Catholic congregations operate within their established church denominations and are led by either ordained Protestant ministers or vowed Catholic sisters Because expressing God as She can expose strident claims for maintaining God as He this book shows not only how patriarchy continues to operate in churches today but also how it is being successfully challenged through liturgy      From the Mysteries Hermann Beckh, 2020-06-03 In the early part of the last century Professor Hermann Beckh began a search to discover the truth about the Mystery wisdom of antiquity As a recognized authority on Buddhist texts he knew that complete knowledge of such Mysteries was not to be found within the limitations of waking consciousness sense perception and logic Beckh was already aware that Gautama Buddha had indicated the stages of higher knowledge Furthermore his studies of Rudolf Steiner's anthroposophical teachings revealed that such knowledge could be experienced directly given disciplined meditation Clairvoyant cognition included the conscious penetration of sleep consciousness the dream state and an experience of pre natal consciousness Both the *Mysteries* and Rudolf Steiner's major books he concluded were founded on the same perceptions Beckh a worldwide expert on Tibetan Sanskrit Pali and Avestan texts quickly became disenchanted with Madame Blavatsky's Theosophy as it displayed little precise academic knowledge of primary records At the same time university departments showed scant trace of understanding the texts they analysed through philology and sociology Thus based on comprehensive studies and personal experience he resolved to present his own perceptions and vision to the public The results are to be found in this invaluable book bringing together for the first time in English three groundbreaking publications *Our Origin in the Light* Genesis 1924 *Zarathustra* 1927 and *From the World of the Mysteries* 1927 as well as five of Beckh's articles from contemporary periodicals      **Personhood in the Byzantine Christian Tradition** Alexis Torrance, Symeon Paschalidis, 2018-04-27 Bringing together international scholars from across a range of linked disciplines to examine the concept of the person in the Greek Christian East *Personhood in the Byzantine Christian Tradition* stretches in its scope from the New Testament to contemporary debates surrounding personhood in Eastern Orthodoxy Attention is paid

to a number of pertinent areas that have not hitherto received the scholarly attention they deserve such as Byzantine hymnography and iconology the work of early miaphysite thinkers as well as the relevance of late Byzantine figures to the discussion Similarly certain long standing debates surrounding the question are revisited or reframed whether regarding the concept of the person in Maximus the Confessor or with contributions that bring patristic and modern Orthodox theology into dialogue with a variety of contemporary currents in philosophy moral psychology and political science In opening up new avenues of inquiry or revisiting old avenues in new ways this volume brings forward an important and on going discussion regarding concepts of personhood in the Byzantine Christian tradition and beyond and provides a key stimulus for further work in this field
