*Critical White Studies* Richard Delgado, Jean Stefancic, 1997 No longer content with accepting whiteness as the norm critical scholars have turned their attention to whiteness itself In *Critical White Studies Looking Behind the Mirror* numerous thinkers including Toni Morrison Eric Foner Peggy McIntosh Andrew Hacker Ruth Frankenberg John Howard Griffin David Roediger Kathleen Heal Cleaver Noel Ignatiev Cherrie Moraga and Reginald Horsman attack such questions as How was whiteness invented and why How has the category whiteness changed over time Why did some immigrant groups such as the Irish and Jews start out as nonwhite and later became white Can some individual people be both white and nonwhite at different times and what does it mean to pass for white At what point does pride in being white cross the line into white power or white supremacy What can whites concerned over racial inequity or white privilege do about it Science and pseudoscience are presented side by side to demonstrate how our views on whiteness often reflect preconception not fact For example most scientists hold that race is not a valid scientific category genetic differences between races are insignificant compared to those within them Yet the one drop rule whereby those with any nonwhite heritage are classified as nonwhite persists even today As the bell curve controversy shows race concepts die hard especially when power and prestige lie behind them A sweeping portrait of the emerging field of whiteness studies *Critical White Studies* presents for the first time the best work from sociology law history cultural studies and literature Delgado and Stefancic expressly offer critical white studies as the next step in critical race theory In focusing on whiteness not only do they ask nonwhites to investigate more closely for what it means for others to be white but also they invite whites to examine themselves more searchingly and to look behind the mirror

[Our Thoughts Create Our Experience](#) Raymond Simms LPC MA, 2024-07-08 This book covers the whole man and how to align the body soul and spirit as one Your purpose and calling are tied together As you discover your purpose you will then discover your calling Your purpose is inside and your calling is outward This book will assist you in the process of preparing first the foundation which begins in the soul The reason people are so unhappy in what they do is that they have not discovered their God given purpose inwardly which is revealed by the Holy Spirit Our purpose is internal and eternal our souls are also internal and eternal God given purpose has to do solely with man's soul It first begins with the soul then outward to one's calling It is important to first develop the soul's purpose as the soul houses the character of the man Man's character will affect positively or negatively man's calling This is the process that the Holy Spirit takes God's people through as He did with Jesus in the wilderness to test His character that is His soul

Daniel Cantey, 2021-07-28 In *1 John On Docetism and Resurrection* 2016 the author elucidated the fundamental principles driving the modern order The latter works according to a novel form of salvation an ontology unto dissolution that the author recognizes as a new manifestation of the ancient heresy of docetism The modern heresy turns on faith in the Christ Idol an idolatry hidden for centuries beneath the cover of Western Christianity Its theological solution requires renewed engagement with the Trinitarian love understanding that love as a function of mutual life giving between the divine persons The revised and extended version of *1 John* assumes the undoing of Western society under the docetic ethos seeking theological foundations for the society that might follow It details the meaning of various aspects of docetic modern society through a Johannine lens explaining these aspects as forms of oppression The author counters these through the Eastern Orthodox focus on the inner life over the external one the spiritual world over the physical and the proper appreciation of hierarchy as opposed to docetic equality **1 John** L. Daniel Cantey, 2016-12-23 What if heresy had grown within the church maturing secretly over more than a millennium working ill under the cover of right belief and worship This startling and provocative book argues that the ancient heresy of Docetism reappearing in a form resonant with its original denial of Christ's body has brought the Western church to its current state of disrepair Docetism has irreparably fractured Western Christendom reducing the church to a tangled mass of denominations and sects while also infecting the course of Western society beyond the ecclesia Progressing from an ontological foundation oriented toward the dissolution of form Docetism has led peoples convinced of their march toward unity into ever deepening alienation Although it has repercussions for theological anthropology this ontological foundation has its profoundest implications for the doctrine of God The solution to Docetism as proposed by the author begins with a theory of the Trinity grounded in the tenets of biblical Wisdom and explicated in terms of the relations of origin between the divine persons *Medieval, Renaissance and Enlightenment Women Philosophers* M.E. Waite, 1989-12-31 aspirations the rise of western monasticism was the most note worthy event of the early centuries The importance of monasteries cannot be overstressed as sources of spirituality learning and autonomy in the intensely masculinized militarized feudal period Drawing their members from the highest levels of society women's monasteries provided an outlet for the energy and ambition of strong willed women as well as positions of considerable authority Even from periods relatively inhospitable to learning of all kinds the memory has been preserved of a good number of women of education Their often considerable achievements and influence however generally lie outside even an expanded definition of philosophy Among the most notable foremothers of this early period were several whose efforts signal the possibility of later philosophical work Radegund in the sixth century established one of the first Frankish convents thereby laying the foundations for women's spiritual and intellectual development From these beginnings women's monasteries

increased rapidly in both number and in fluence both on the continent and in Anglo Saxon England Hilda d 680 is well known as the powerful abbess of the double monastery of Whitby She was eager for knowledge and five English bishops were educated under her tutelage She is also accounted the patron of Caedmon the first Anglo Saxon poet of religious verse The Anglo Saxon nun Lioba was versed in the liberal arts as well as Scripture and canon law
