American Cinema of the 1910s Charlie Keil, Ben Singer, 2009-02-04 It was during the teens that filmmaking truly came into its own. Notably the migration of studios to the West Coast established a connection between moviemaking and the exoticism of Hollywood. The essays in *American Cinema of the 1910s* explore the rapid developments of the decade that began with D. W. Griffith's unrivaled one-reelers. By mid-decade multi-reel feature films were profoundly reshaping the industry and deluxe theaters were built to attract the broadest possible audience. Stars like Mary Pickford, Charlie Chaplin, and Douglas Fairbanks became vitally important, and companies began writing high-profile contracts to secure them. With the outbreak of World War I, the political, economic, and industrial groundwork was laid for American cinema's global dominance. By the end of the decade, filmmaking had become a true industry, complete with vertical integration, efficient specialization, and standardization of practices and self-regulatory agencies.

Wilt Thou Be Made Whole? Georg Kühlewind, 2008-06
Water's flow constantly links life and death. It is the mediator between the two, and its surface provides a common frontier in nature where they meet. Death is continuously being overcome there. It is the living movement of water that makes life on Earth possible. Based on spiritual science and on their own numerous experiments, Theodor and Wolfram Schwenk show that our Earth is a living organism with water as a sensory organ that perceives vital cosmic influences and transmits them into earthly life. The authors' approach to the current water and environmental crises goes beyond problem-oriented and piecemeal band-aid solutions; rather, they suggest that we need a new and radical understanding of water that we must in fact attain a revolutionary new level of consciousness if the Earth is to remain alive and available to human habitation. This pioneering classic on water is more relevant now than ever before.

[The Mission of Folk Souls](#) Rudolf Steiner, 2022-11-15
11 lectures, Oslo, June 7-17, 1910, CW 121. It is particularly important, especially at the present time, to speak about the mission of the individual folk souls, because the destiny of humanity in the near future will bring people together in far greater measure than has hitherto been the case in order to fulfill a mission common to the whole of humanity. But the members of the individual peoples will only be able to offer their proper free and positive contributions if they have above all else an understanding of their own native origin, an understanding of what we might call the self-knowledge of their people, their folk. Rudolf Steiner: In the mythologies of all ancient cultures, humanity is portrayed as intimately interwoven with the activity of lesser and greater gods, spirits, devas, and elemental beings as members of the grand symphony of creation. Who are these gods pictured so vividly in various myths and legends? And how are they connected with the mission of humanity as a whole and the diverse peoples of the Earth? In his preface to this lecture course, Steiner argues that a true basis for a psychology of peoples cannot be given by the anthropological, ethnographical, or even historical studies of conventional science but requires

a basis in spiritual reality It is precisely this spiritual reality the creative activity of the beings of the hierarchies in connection with the destiny of humanity that forms the heart of these lectures and of Steiner's view of folk psychology more broadly These lectures form Rudolf Steiner's most comprehensive and profound account of the mission of folk souls The Mission of Folk Souls is a translation of *Die Mission einzelner Volksseelen im Zusammenhange mit der germanisch nordischen Mythologie* 6th rev ed Rudolf Steiner Verlag Basel 2017 GA 121 **The American Catalogue**, 1911 American national trade bibliography Among Our Books Carnegie Library of Pittsburgh, 1928 **Books of 1921-1925** Chicago Public Library, 1927 **Monthly Bulletin of the Carnegie Library of Pittsburgh** Carnegie Library of Pittsburgh, 1927 Book Bulletin Chicago Public Library, 1918 Books Added Chicago Public Library, 1916 Genealogy of Obedience Justyna Wlodarczyk, 2018-08-27 In *Genealogy of Obedience* Justyna Wlodarczyk provides a long overdue look at the history of companion dog training methods in North America since the mid nineteenth century when the market of popular training handbooks emerged Wlodarczyk argues that changes in the functions and goals of dog training are entangled in bigger cultural discourses with a particular focus on how animal training has served as a field for playing out anxieties related to race class and gender in North America By applying a Foucauldian genealogical perspective the book shows how changes in training methods correlate with shifts in dominant regimes of power It traces the rise and fall of obedience as a category for conceptualizing relationships with dogs **Books of 1912-**, 1922 Turkey's Violent Formation Hans-Lukas Kieser, 2024-08-22 The decade of war and violence culminating in the Conference of Lausanne was formative for the modern state of Turkey as it was for interwar Europe's diplomacy and appeasement Yet the currents that gave rise to the defining events of the period ultranationalism imperial proto fascism and pan Islamism have yet to be definitively integrated into historiography The case studies in this book reappraise key events concepts and individuals in late Ottoman and early Republican Turkey Divided into four parts the book first examines squandered opportunities for democratic reform of the multi ethnic empire as well as the emergence of extreme politico religious ideology in the late Ottoman period It then examines the continuity of these currents in Kemalist Turkey in case studies including anti Kurdish campaigns and biographical studies of key actors insiders and ideologues such as Ziya Gokalp Cavid Bey Riza Nur and Mahmut Bozkurt The final part of the book explores the legacy of Turkey's violent formation vis vis its relations with wartime ally Germany in the context particularly of the Armenian genocide Together the chapters in this book emphasise the legacy of foundational violence which marked the formation of authoritarian modern Turkey while highlighting the need for new inclusive democratic social contracts Book Bulletin of the Chicago Public Library Chicago Public Library, 1919 **Fictions of Power in English Literature** Lee Horsley, 2016-07-01 As a result of its imperial role Britain was closely involved with such romantic and disruptive myths of power such as the imperial adventure hero and the self deified charismatic leader Lee Horsley explores fictional representations of political power during this period surveying a wide range of texts from the

adventure story romance thriller and science fiction to the novels of Conrad Huxley Orwell and Greene **The Canadian Annual Review of Public Affairs** John Castell Hopkins,1912 **The Canadian Annual Review of Public Affairs** ,1912

Atheism and the Goddess Anway Mukhopadhyay,2023-03-21 This book seeks to explore the complex modes of interface between religion atheism and the Goddess in multicultural contexts While atheism has often been seen as an interrogation of and a battle against God the gender dimension of this discourse has not been sufficiently negotiated Is the fight against God also a fight against the Goddess Or is there something common between the ideological thrust of the battle against God the Father in atheism and the interrogation of the Divine Father in theology Can the Goddess be seen as an entity radically different from the imperious transcendental that the atheists find embodied in God the Father Or can the Goddess be seen as transcendental as well as immanent and hence subjected to the same atheist denial of transcendence to which God is subjected in non theistic or anti theistic arguments With this volume Anway Mukhopadhyay embarks on a difficult project of epistemologically ideologically and even politically renegotiating and reorienting some of the fundamental issues involved in the discussions of and debates over atheism
