The Encounter with Evil and Its Overcoming Through Spiritual Science Sergei O. Prokofieff, 1999 In our everyday lives we are constantly challenged by the phenomenon of evil in all its many manifestations But how can we cope with this seemingly eternal hindrance In the first of these three essays Prokofieff suggests that we start by developing a knowledge of the forces of evil in order to learn how they work in human evolution Such knowledge is in itself the beginning of the process of overcoming evil In order that members of the Anthroposophical Society might go further along this path Rudolf Steiner gave them the spiritual Foundation Stone of the Good This Foundation Stone which consists of light imaginative form and the substance of love can live in our hearts and souls as a firm foundation for esoteric work and a creative contribution towards the overcoming of evil Ultimately it can lead us to a conscious experience of Christ in the etheric realm of the earth In the second and third essays Prokofieff examines further themes relating to the etheric advent of Christ and its connection with the Foundation Stone of the Good

Healing the Social Organism Rudolf Steiner, 2024-11-18 Speaking just months after the

end of the First World War Rudolf Steiner urges his audience to awaken to the practical relevance of spiritual knowledge. Serious engagement with contemporary spiritual scientific concepts can awaken healthy forces of the will which in turn facilitate constructive action in the outer world. Conversely ideas that are remnants of a previous age echoed in empty phrases and dogmas only hinder our ability to think with the consciousness demanded by the times, destroying the potential for true social initiative. The historical context of these lectures was indeed disastrous with inflation, hunger, homelessness and political extremism all rife. But Steiner advises that social conditions will only get worse if people don't engage with modern spiritual impulses. Thus in contrast to the backward phenomenon of nationalism and the contemporary caricature of democracy he introduces the future oriented concept of social threefolding. He discusses manifold challenges such as the decline of the West and the outmoded spiritual impulses of Jesuitism and Freemasonry but also the positive path for an ascent of Western societies: genuine spiritual medicine, the true message of Easter and the victory of the Archangel Michael. In several lectures Rudolf Steiner speaks in some detail about the role and structure of the Catholic Church, the historical use of encyclicals and the doctrine of Papal Infallibility. The first full translation of this course features an introduction by Dorothy Hinkle Uhlig, notes and an index. Seventeen lectures. Dornach, Mar-Jul 1920. GA 198.

Applications of a Psychospiritual Model in the Helping Professions Cedric Speyer, John Yaphe, 2020-11-19. This book brings together the historically separate domains of mental health and spiritual awareness in a holistic framework called InnerView Guidance. Building on strength based and solution oriented approaches to therapy, the InnerView model offers a unique psychospiritual approach which can be applied in any of the helping professions. InnerView recognizes the individual's need for internal cohesion between psychological growth and spiritual development. It is a principle driven paradigm that foregrounds soul work as a central evolutionary task. The book presents the core concepts and methodology involved in the alignment of ego with soul. Chapters explain the theoretical roots of the model, explore practical applications in therapeutic settings and introduce InnerView as a rich synergy of psychotherapy and spiritual guidance. Taking an original and cutting edge approach, this valuable text will be essential reading for scholars and students as well as practitioners in the fields of psychotherapy, counselling, life coaching, social work and spiritual care.
