Crawford,1977 This study attempts to identify and analyze the images of transience in Schiller s poetic work In the early poems a major series of images of transience reveals his baroque heritage The surprising aspect of the poems which follow the historical studies and the engrossment in Kant is that the same images of transience remain The persistent images of transience make it clear that Schiller was far from being an ivory tower idealist rather he was a realist who perceived the grim visage of life      *A Syntactic Analysis of Selected Middle High German Prose as a Basis for Stylistic Differentiations* Heidi Rockwood,1975 After comparing several systems for identifying and classifying subordinate clauses this study uses them to analyze the sentence structure of selected Middle High German prose texts This analysis conducted on the quantitative and qualitative levels is used as the basis for a definition of syntactic stylistic complexity Relating the data to various literary genres then shows that in the texts in question there exists a definite correlation between literary genre and complexity      **The Humorous and Grotesque Elements in Döblin's Berlin**
