**The Curse**  
 Karen Houppert,2000-05-24 A provocative look at the way our culture deals with menstruation The Curse examines the culture of concealment that surrounds menstruation and the devastating impact such secrecy has on women s physical and psychological health Karen Houppert combines reporting on the potential safety problems of sanitary products such as dioxin laced tampons with an analysis of the way ads movies young adult novels and women s magazines foster a menstrual etiquette that leaves women more likely to tell their male colleagues about an affair than brazenly carry an unopened tampon down the hall to the bathroom From the very beginning industry generated instructional films sketch out the parameters of acceptable behavior and teach young girls that bleeding is naughty irrepressible evidence of sexuality In the process confident girls learn to be self conscious teens And the secrecy has even broader implications Houppert argues that industry ad campaigns have effectively stymied consumer debate research and safety monitoring of the sanitary protection industry By telling girls and women how to think and talk about menstruation the mostly male dominated media have set a tone that shapes women s experiences for them defining what they are allowed to feel about their periods their bodies and their sexuality

**Forthcoming Books** Rose Arny,1998-04 Fragments of Trauma and the Social Production of Suffering , Marilyn Charles,Michael O'Loughlin,2014-11-05 Fragments of Trauma and the Social Production of Suffering Trauma History and Memory offers a kaleidoscope of perspectives that highlight the problem of traumatic memory Because trauma fragments memory storytelling is impeded by what is unknowable and what is unspeakable Each of the contributors tackles the problem of narrativizing memory that is constructed from fragments that have been passed along the generations When trauma is cultural as well as personal it becomes even more invisible as each generation s attempts at coping push the pain further below the surface Consequently that pain becomes increasingly ineffable haunting succeeding generations In each story the contributors offer there emerges the theme of difference a difference that turns back on itself and makes an accusation Themes of knowing and unknowing show the terrible toll that trauma takes when there is no one with whom the trauma can be acknowledged and worked through In the face of utter lack of recognition what might be known together

becomes hidden Our failure to speak to these unaspirated truths becomes a betrayal of self and also of others In the case of intergenerational and cultural trauma we betray not only our ancestors but also the future generations to come In the face of unacknowledged trauma this book reveals that we are confronted with the perennial choice of speaking or becoming complicit in our silence      **Resources in Education** ,1998      The Standard Vacation Bible School Courses; Florence M.
