Swifts Printers In The Age Of Typesetting Races:

The Swifts Walker Rumble, 2003 In *The Swifts* Walker Rumble himself a printer and printing historian follows the trail of these colorful compositors who became famous by winning typesetting races Tellingly at the same time that the most celebrated contests were taking place technological and cultural forces were threatening the Swifts way of life First women printers vied for shopfloor legitimacy then in the mid 1880s typesetting machines such as Mergenthaler's Linotype arrived replacing the artisans forever BOOK JACKET *American Work-Sports* Frank Zarnowski, 2013-09-28 For more than a century the American farm factory and frontier provided opportunities for physical workers to display their skill win a bet brag or perhaps just have some fun Competitions that emphasized useful skills like plowing corn husking rock drilling typesetting and tree cutting were common in the antebellum and post Civil War periods often drawing large crowds and the attention of sporting journals For many years conventional American sports occurred in the workplace This may help explain why the nicknames of so many prominent collegiate or professional sporting teams Cornhuskers Lumberjacks Miners Cowboys Packers and Boilermakers are also the occupations of 19th century worker athletes By examining the American experience with competitions among workers this book provides a new understanding of the interrelated nature of occupation and leisure

Letterpress Revolution Kathy E. Ferguson, 2023-01-20 While the stock image of the anarchist as a masked bomber or brick thrower prevails in the public eye a more representative figure should be a printer at a printing press In *Letterpress Revolution* Kathy E Ferguson explores the importance of printers whose materials galvanized anarchist movements across the United States and Great Britain from the late nineteenth century to the 1940s Ferguson shows how printers whether working at presses in homes offices or community centers arranged text ink images graphic markers and blank space within the architecture of the page Printers extensive correspondence with fellow anarchists and the radical ideas they published created dynamic and entangled networks that brought the decentralized anarchist movements together Printers and presses did more than report on the movement they were constitutive of it and their vitality in anarchist communities helps explain anarchism's remarkable persistence in the face of continuous harassment arrest assault deportation and exile By inquiring into the political material and aesthetic practices of anarchist print culture Ferguson points to possible methods for cultivating contemporary political resistance

Paradigms Lost William Sonn, 2006-02-14 Four times in western history in the 1400s the early 1800s the 1880s and again in the mid 20th century we learned to duplicate and disseminate the printed word more cheaply And each time strange events followed For with each of these changes in the gritty production of glamorous content expensive and secret bodies of knowledge abruptly became cheap and easy to spread Once rare and sometimes disorienting impressions rained down on once sheltered folks New and otherwise inexpert hands mixed them into whole new breeds of information myth logic and viewpoints There were fantastic scientific advances mass migrations bold social experiments financial upheavals and much bloodshed In the harrowing decades that

followed powerful new kinds of governments businesses and groups came to elbow aside old ones In all of these periods there were great creaking shifts in politics wealth religions and even the way we learn think and see And in the last decade the costs of producing and distributing printed knowledge have fallen a fifth time far and fast and almost to free Paradigms Lost traces the history of the accidents inventions forces eccentrics and geniuses who accelerated information in the past examines what happened each time they succeeded and provides some background for what if the past is any guide may be coming
