Switzerland and Migration Barbara Lüthi, Damir Skenderovic, 2019-04-30 This book explores the history of migration in Switzerland from the late nineteenth century to the present day It brings together recent scholarship on Switzerland in the field of cultural and migration studies as well as migration history and combines various research approaches from postcolonial studies transnational studies border studies and history of knowledge Since the late nineteenth century Switzerland has gradually transformed into a migration society becoming one of the countries in Europe with the highest percentage of migrant population While migration has become one of most contentious issues in Swiss public and political debates the volume also shows how migrants have developed various strategies to deal with the country's discriminatory policies and distinct institutional settings The authors of the volume convincingly challenge the view that Switzerland still does not represent a migration or even post migrant society and substantially contributes to the long overdue acknowledgement of Switzerland in migration history and studies at the international level *Switzerland in Europe*

Switzerland and the European Union Clive H. Church, 2007-01-24 Despite its geographical centrality and its considerable economic involvement in Europe Switzerland remains unusual in that it is neither a member of the European Union or the European Economic Area At a time when the Union is both expanding and seeking to develop its integration the country constitutes a real anomaly amongst west European states This book demonstrates the range depth and complexity of Switzerland s developing relations with Europe and provides detailed and up to date information on Switzerland itself Considering a variety of dimensions of the country and its ambiguous relations with the EU the contributors all of whom are leading specialists on Swiss EU relations explore the classical political obstacles to entry federalism direct democracy neutrality and the growing strength of anti European populism policy barriers to integration in trade and economics generally in financial matters and in social provisions relating to the movement of people the negotiation of the two sets of bilateral accords which presently structure Swiss relations with the Union the EU response and the prospects for future Swiss EU relations Switzerland and the European Union will appeal to specialists on Switzerland academics and students in politics and international relations and practitioners in European integration and Swiss politics

Venture Capital in Switzerland Jens Engelhardt, 2010

EU Enlargement and European Integration: Challenges and Perspectives Andreas Kellerhals, Tobias Baumgartner, Fatlum Ademi, 2024-08-29 At the beginning of 2022 a major EU enlargement seemed unlikely in the near future However Russia s invasion of Ukraine in February 2022 fundamentally shifted the European Commission s stance Ukraine and Moldova were granted EU candidate status and Georgia was added to the list of potential candidates This raises questions about the future of the European Neighbourhood Policy While EU enlargement has gained momentum certain areas of integration have stalled such as the expansion of the eurozone and the Schengen area despite Croatia s recent accession Romania and Bulgaria remain in waiting Meanwhile new formats of continental cooperation such as the European Political Community launched in 2022 raise the

question of whether more differentiated integration models will emerge. Additionally, the war in Ukraine has exacerbated other crises including inflation, the energy crisis, food shortages in the Global South, and unprecedented refugee movements not only from Ukraine but also from other regions. Against this backdrop, the 14th Network Europe Conference examined EU enlargement prospects and the challenges facing European integration in times of global crisis. This publication features contributions from Fatlum Ademi, Antonina Bakardjieva, Engelbrekt Melita Carevi, Jelena Ceranic, Perisic Viorel, Cibotaru Waltraud, Hakenberg Garine, Hovsepian Andreas, Kellerhals Lee, McGowan Henri, Vogt and Ralph Weber. Network Europe was founded in 2003 by the Europa Institute at the University of Zurich with support from the Swiss government. It serves as a forum for scholarly exchange on legal and political aspects of European integration, bringing together researchers from across Europe.

Gender Innovation and Migration in Switzerland Francesca Falk, 2018-11-21. This open access book analyses migration and its relation to socio-political transformation in Switzerland. It addresses how migration has made new forms of life possible and shows how this process generated gender innovation in different fields: the changing division of work, the establishment of a nursery infrastructure, access to higher education for women, and the struggle for female suffrage. Seeing society through the lens of migration alters the perspective from which our past and thus our present is told, and our future imagined.

Covering a wide range of detailed topics, the authors of this book offer an outstanding overview of the current state of the art, providing deep insights into smart computing methods, tools, and their applications in crowdfunding, exploring the importance of smart analysis, prediction, and decision making within the fintech industry. This book is intended to be an authoritative and valuable resource for professional practitioners and researchers alike, as well as finance, engineering, and computer science students who are interested in crowdfunding and other emerging fintech topics.

Creative Industries Switzerland Christoph Weckerle, Manfred Gerig, Michael Söndermann, 2008. Policy makers at all levels are discovering the notion of creative industries: the music industry, literature, and book market, art market, film, and television industries, performing arts, design, architecture, advertising, software, computer games, from economic and innovation strategies to education policy and urban development. The creative industries are being described as a model for success. However, strategies for real practical implementation remain vague. This publication provides a greatly needed overview of the concepts and specific characteristics of this sector. It analyzes the international discourse, presents up-to-date empirical, statistical, Europe-wide analyses, derives models, and draws conclusions for the current debate in Switzerland, and places special emphasis on the innovative potential of the creative scene and its dynamics for the entire creative industry.

Travels in Switzerland William Coxe, 1797 *Balancing the Commons in Switzerland* Tobias Haller, Karina Liechti, Martin Stuber, François-Xavier Viallon, Rahel Wunderli, 2021-03-29 *Balancing the Commons in Switzerland* outlines continuity and change in the management of common pool resources such as pastures and forests in Switzerland. The book focusses on the differences and similarities between local institutions, rules and regulations and forms of commoners' organisations, civic communities and corporations which have managed common property for several centuries and have shaped the cultural landscapes of Switzerland. At the core of the book are five case studies from the German, French and Italian speaking regions of Switzerland. Beginning in the late medieval ages and focussing on the transformative periods in the 19th and 20th Century, it traces the internal and external political, economic and societal changes and examines what impact these changes had on commoners. It goes beyond the work of Robert Netting and Elinor Ostrom who discussed Swiss commons as a unique case of robustness by analysing how local commoners reacted to but also shaped changes by adapting and transforming common property institutions. Thus, the volume highlights how institutional changes in the management of the commons on the local level are embedded in the public policies of the respective cantons and the state which generates a high heterogeneity and an actual laboratory situation. It shows the very different ways that local collective organisations and their members have followed in order to cope with the loss of value of the commons and the increased workload for maintaining common property management. Providing insightful case studies of commons management, this volume delivers theoretical contributions and lessons to be learned for the commons worldwide. This book will be of great interest to students and scholars of the commons, natural resource management and agricultural development.

The European Neighbourhood Policy in a Comparative Perspective Sieglinde Gstohl, 2016-07-22 The European Neighbourhood Policy (ENP) has evolved into one of the European Union's major foreign policy instruments and received considerable attention. However, other EU neighbourhood policies and their relevance for the ENP also require examination. The Arab uprisings, civil wars in Libya and Syria, the continuing Israeli-Palestinian conflict, the crisis in Ukraine and Russia's annexation of the Crimean peninsula have all brought the institutional design and tools of the ENP into question and a comparative perspective is crucial to understand EU neighbourhood policies in a wider sense. This timely book puts the ENP into context by exploring the major challenges and key lessons of the EU's other policy frameworks with neighbouring countries. Mapping the EU's bi-lateral and multilateral neighbourhood relations in comparison to the ENP and investigating the major challenges faced, it provides a comprehensive up-to-date view of the EU's relations with its neighbours. Focusing on current affairs and future challenges, the comparison with the ENP and the lessons to be drawn generate novel insights into the EU's closest external relations. This book will be of key interest to students and scholars studying European Politics, policies and comparative politics.

their mortgage? Mirko Bernasconi, This book titled Why is it that in Switzerland hardly anyone pays off their mortgage investigates the unique landscape of mortgage practices in Switzerland where a significant number of homeowners choose to retain their mortgages rather than pay them off This phenomenon raises important questions about financial strategies and cultural attitudes towards debt in one of the world's wealthiest nations The central inquiry revolves around how the Swiss approach to leveraging debt for home ownership differs from that of other countries By analysing historical patterns societal views on borrowing and the nuances of the Swiss financial system readers are introduced to a perspective that regards mortgages as advantageous financial instruments rather than liabilities The book targets a diverse audience including finance professionals economists policy makers and those interested in real estate economics or alternative debt management strategies Delving into Switzerland's mortgage market reveals characteristics such as low interest rates and adaptable repayment plans that encourage long term loan retention This stands in stark contrast to many cultures where early repayment is often viewed as a hallmark of fiscal prudence Supported by data from reputable sources like the Swiss National Bank and various industry analyses the book illustrates current trends in housing finance while examining how these practices bolster economic stability within Switzerland amidst global housing challenges Furthermore this work connects local mortgage behaviours with broader international economic shifts exploring how changes in interest rates and

housing markets influence consumer choices worldwide Through case studies representing various demographics across urban and rural settings in Switzerland it offers rich insights into differing attitudes toward mortgages In summary Why is it that in Switzerland hardly anyone pays off their mortgage serves as an enlightening resource for those seeking fresh perspectives on home financing It highlights how cultural contexts shape financial behaviours a crucial consideration as global economies continue to evolve
