from other mints to 1279, by E.J.E. Pirie Colin Stewart Sinclair Lyon, 1975 Sylloge of Coins of the British Isles: Hermitage Museum, St Petersburg, Part IV Colin Stewart Sinclair Lyon, 2005 The rich collections of the Hermitage Museum include a remarkable series of Norman and later medieval British coins Unlike the Hermitage's Anglo Saxon coins which are mainly from Russian finds the coins in this volume come from three major private collectors of the nineteenth century Reichel Stroganov and Plushkin who purchased internationally Thus they include some 60 coins of William I that were purchased in London at the Brumell sale of 1850 and derive from the 1833 hoard from Beauworth Sussex For the later middle ages the collection is particularly rich in gold coinage Virtually all of the 493 coins are illustrated for the first time They will be a valuable source for medieval numismatists and for those interested in the history of the Hermitage and its collections This volume complements Hermitage Museum Part I SCBI 50 ISBN 0 19 726187 6 Parts II and III will follow **Urban Growth and the Medieval Church** Nigel Baker, Richard Holt, 2017-05-15 It has long been recognised that the Church played a major role in the development of towns and cities from the earliest times a fact attested to by the prominence and number of ecclesiastical buildings that still dominate many urban areas Yet despite this physical evidence and the work of archaeologists and historians many important aspects of the early stages of urbanization in England are still poorly understood Not least there are many unanswered questions concerning the processes by which the larger towns emerged as planned settlements during the pre Conquest centuries Whilst the commitment of the Wessex kings is recognized questions remain concerning the participation of the Church in this process Likewise our understanding of the Church's influence in the later development of towns is not yet fully developed Many intriguing questions remain concerning such issues as the founding of parish churches and their boundaries and the extent to which the Church as a major landowner helped shape the evolving identity of towns and their suburbs It is questions such as these that this volume sets out to answer Employing a wealth of historical and archaeological evidence two key towns Gloucester and Worcester are closely examined in order to build up a picture of their respective developments throughout the medieval period Through this multi disciplinary and comparative approach a picture begins to emerge the Church's role in helping to shape not only the spiritual but also the social economic and cultural development of the urban environment Classical Numismatic Auctions XVII ,
