# IVANUS G. MORLEY AND THE WORLD OF THE ANCIENT MAYAS

By ROBERT L. BRUNHOUSE

# Sylvanus G Morley And The World Of The Ancient Mayas

**Norman Hammond, Gordon R. Willey**

## **Sylvanus G Morley And The World Of The Ancient Mayas:**

**Sylvanus G. Morley and the World of the Ancient Mayas** Robert L. Brunhouse,1975-12-01      Sylvanus G. Morley and the World of the Ancient Mayas Robert Levere Brunhouse,1971      **Architecture, Culture, and Spirituality** Thomas Barrie,Julio Bermudez,Phillip James Tabb,2016-03-09 Architecture has long been understood as a cultural discipline able to articulate the human condition and lift the human spirit yet the spirituality of architecture is rarely directly addressed in academic scholarship The seventeen chapters provide a diverse range of perspectives grouped according to topical themes Being in the World Sacred Secular and the Contemporary Condition Symbolic Engagements Sacred Landscapes and Spirituality and the Designed Environment Even though the authors approach the subject from a range of disciplines and theoretical positions all share interests in the need to rediscover redefine or reclaim the sacred in everyday experience scholarly analysis and design      An Environmental History of the World Johnson Donald Hughes,2001 This original work follows a chronological path through the history of mankind in relationship to ecosystems around the world Each chapter concentrates on a general period in human history each also has three case studies which illustrate the significant patterns occurring at that time      *Collecting Mesoamerican Art before 1940* Andrew D. Turner,Megan E. O'Neil,2024-02-13 The untold chronicles of the looting and collecting of ancient Mesoamerican objects This book traces the fascinating history of how and why ancient Mesoamerican objects have been collected It begins with the pre Hispanic antiquities that first entered European collections in the sixteenth century as gifts or seizures continues through the rise of systematic collecting in Europe and the Americas during the nineteenth and twentieth centuries and ends in 1940 the start of Europe s art market collapse at the outbreak of World War II and the coinciding genesis of the large scale art market for pre Hispanic antiquities in the United States Drawing upon archival resources and international museum collections the contributors analyze the ways shifting patterns of collecting and taste including how pre Hispanic objects changed from being viewed as anthropological and scientific curiosities to collectible artworks have shaped modern academic disciplines as well as public private institutional and nationalistic attitudes toward Mesoamerican art As many nations across the world demand the return of their cultural patrimony and ancestral heritage it is essential to examine the historical processes events and actors that initially removed so many objects from their countries of origin      **Archaeologists** Brian Fagan,2003-04-10 Including eccentric professors and adventuring fortune hunters of old and highly trained scientists of today Archaeologists collects together biographies of more than 30 archaeologists of the past two centuries In the process Archaeologists presents an engaging portrait of how digging for treasure evolved into the respected and vital science we know today Some of the archaeologists profiled include Giovanni Belzoni the 19th century archaeologist who brought the head of Ramesses II back to England Heinrich Schliemann the modern discoverer of prehistoric Greece whose excavations included Mycenae and the ancient city of Troy Howard Carter who discovered King Tut s tomb Mary and Louis Leakey whose discovery of humanoid

fossils placed human evolution's beginning in Africa From the romance of golden pharaohs and lost civilizations to computers tree ring dating and numerous other scientific methods Archaeologists is a fascinating look at the explorers of the human past

**Maya Archaeology and Ethnohistory** Norman Hammond, Gordon R. Willey, 2014-04-15 Embracing a wide range of research this book offers various views on the intellectual history of Maya archaeology and ethnohistory and the processes operating in the rise and fall of Maya civilization The fourteen studies were selected from those presented at the Second Cambridge Symposium on Recent Research in Mesoamerican Archaeology and are presented in three major sections The first of these deals with the application of theory both anthropological and historical to the great civilization of the Classic Maya which flourished in the Yucatan Guatemala and Belize during the first millennium A D The structural remains of the Classic Period have impressed travelers and archaeologists for over a century and aspects of the development and decline of this strange and brilliant tropical forest culture are examined here in the light of archaeological research The second section presents the results of field research ranging from the Highlands of Mexico east to Honduras and north into the Lowland heart of Maya civilization and iconographic study of excavated material The third section covers the ethnohistoric approach to archaeology the conjunction of material and documentary evidence Early European documents are used to illuminate historic Maya culture This section includes transcriptions of previously unpublished archival material Although not formally linked beyond their common field of inquiry the essays here offer a conspectus of late twentieth century Maya research and a series of case histories of the work of some of the leading scholars in the field

An Epoch of Miracles ,2014-06-23 Mr Allan Burns I am here to tell you an example the example of the Hunchbacks So said Paulino Yam traditionalist and storyteller to Allan Burns anthropologist and linguist as he began one story that found its way into this book Paulino Yam was just one of several master storytellers from the Yucatán Peninsula of Mexico from whom Burns learned not only the Mayan language but also the style and performance of myths stories riddles prayers and other forms of speech of their people The result is An Epoch of Miracles a wonderfully readable yet thoroughly scholarly set of translations from the oral literature of the Yucatec Maya an important New World tradition never before systematically described An Epoch of Miracles brings us over thirty five long narratives of things large small strange and regular and as many delightful short pieces such as bird lore riddles and definitions of anteaters rainbows and other commonplaces of the Mayan world Here are profound narratives of the Feathered Serpent the mighty Rain God Chac and his helpers and the mysterious cult of the Speaking Cross But because these are modern Petroleum Age Maya here too are a discussion with Cuba's Fidel Castro and a greeting to former president Richard Nixon All pieces are translated ethnopoeitically examples of several genres are presented bilingually An especially valuable feature is the indication of performance style such as pauses and voice quality given with each piece

Power and Privilege Gerhard Emmanuel Lenski, 1984 Using a dialectical view of the

development of thought in the discipline Gerhard Lenski describes the outlines of an emerging synthesis of theories **The**

**Hispanic American Historical Review** James Alexander Robertson, 1973 Includes Bibliographical section The Rise of the West William H. McNeill, 2024-05-31 The most stimulating and fascinating book that has ever set out to recount and explain the whole history of mankind H R Trevor Roper The New York Times Book Review The Rise of the West winner of the National Book Award for history in 1964 is famous for its ambitious scope and intellectual rigor In it McNeill challenges the Spengler Toynbee view that a number of separate civilizations pursued essentially independent careers and argues instead that human cultures interacted at every stage of their history The author suggests that from the Neolithic beginnings of grain agriculture to the present major social changes in all parts of the world were triggered by new or newly important foreign stimuli and he presents a persuasive narrative of world history to support this claim In a retrospective essay titled The Rise of the West after Twenty five Years McNeill shows how his book was shaped by the time and place in which it was written 1954 63 He discusses how historiography subsequently developed and suggests how his portrait of the world s past in The Rise of the West should be revised to reflect these changes The most lucid presentation of world history in narrative form that I know While the story leads up to the predominance of the West in the modern age it also takes full account of the expansion of civilization eastwards as well as westwards from its birthplace in the Fertile Crescent I am sure that anyone who reads this book will gain from it a greater insight into the long and complicated historical process that has resulted in the world in which we are living today Arnold Toynbee author of A Study of History **Archaeological Fantasies** Garrett G. Fagan, 2006 Including case studies this collection of engaging and stimulating essays written by a diverse group of scholars scientists and writers examines the phenomenon of pseudoarchaeology from a variety of perspectives **The Myths of the Popol Vuh in Cosmology, Art, and Ritual** Holley Moyes, Allen J. Christenson, Frauke Sachse, 2021-11-08 This volume offers an integrated and comparative approach to the Popol Vuh analyzing its myths to elucidate the ancient Maya past while using multiple lines of evidence to shed light on the text Combining interpretations of the myths with analyses of archaeological iconographic epigraphic ethnohistoric ethnographic and literary resources the work demonstrates how Popol Vuh mythologies contribute to the analysis and interpretation of the ancient Maya past The chapters are grouped into four sections The first section interprets the Highland Maya worldview through examination of the text analyzing interdependence between deities and human beings as well as the textual and cosmological coherence of the Popol Vuh as a source The second section analyzes the Precolumbian Maya archaeological record as it relates to the myths of the Popol Vuh providing new interpretations of the use of space architecture burials artifacts and human remains found in Classic Maya caves The third explores ancient Maya iconographic motifs including those found in Classic Maya ceramic art the nature of predatory birds and the Hero Twins deeds in the Popol Vuh The final chapters address mythological continuities and change reexamining past methodological approaches using the Popol Vuh as a resource for the interpretation of Classic Maya iconography and ancient Maya religion and mythology connecting the myths of the Popol Vuh to iconography from Preclassic

Izapa and demonstrating how narratives from the Popol Vuh can illuminate mythologies from other parts of Mesoamerica The Myths of the Popol Vuh in Cosmology Art and Ritual is the first volume to bring together multiple perspectives and original interpretations of the Popol Vuh myths It will be of interest not only to Mesoamericanists but also to art historians archaeologists ethnohistorians iconographers linguists anthropologists and scholars working in ritual studies the history of religion historic and Precolumbian literature and historic linguistics Contributors Jaime J Awe Karen Bassie Sweet Oswaldo Chinchilla Mazariegos Michael D Coe Iyaxel Cojt Ren H ctor Escobedo Thomas H Guderjan Julia Guernsey Christophe Helmke Nicholas A Hopkins Barbara MacLeod Jesper Nielsen Colin Snider Karl A Taube Breaking the Maya Code (Third Edition) Michael D. Coe, 2012-02-27 The inside story of one of the great intellectual breakthroughs of our time the first great decipherment of an ancient script now revised and updated In the past dozen years Maya decipherment has made great strides in part due to the Internet which has made possible the truly international scope of hieroglyphic scholarship glyphic experts can be found not only in North America Mexico Guatemala and western Europe but also in Russia and the countries of eastern Europe The third edition of this classic book takes up the thorny question of when and where the Maya script first appeared in the archaeological record and describes efforts to decipher its meaning on the extremely early murals of San Bartolo It includes iconographic and epigraphic investigations into how the Classic Maya perceived and recorded the human senses a previously unknown realm of ancient Maya thought and perception There is now compelling documentary and historical evidence bearing on the question of why and how the breaking of the Maya code was the achievement of Yuri V Knorosov a Soviet citizen totally isolated behind the Iron Curtain and not of the leading Maya scholar of his day Sir Eric Thompson What does it take to make such a breakthrough with a script of such complexity as the Maya We now have some answers as Michael Coe demonstrates here Encyclopedia of Archaeology Tim Murray, 1999-10-26 Encyclopedia of Archaeology The Great Archaeologists features 58 remarkable biographies written by some of the world's best known archaeologists These essays are arranged chronologically and thus constitute a history of archaeology from its beginnings in the Renaissance to the present day Especially exciting is the coverage of figures little known to readers in the West Russian Chinese and Mexican archaeologists receive their due Each biography begins with a brief summary of the subject's importance then goes on to discuss the life and contributions of the biographee with a focus on his or her role in the development of archaeology as a discipline Controversy take for example the notorious Schliemann excavator of Troy is not swept under the rug Each essay concludes with a bibliography of primary sources for people who want to read about the archaeologists' discoveries in their own words and secondary sources to see what critics and admirers had to say

*Histories of Anthropology Annual* Regna Darnell, Frederic W. Gleach, 2006-02-01 Histories of Anthropology Annual promotes diverse perspectives on the discipline's history within a global context Critical comparative analytical and narrative studies involving all aspects and subfields of anthropology will be included along with reviews and shorter pieces This

**Rediscovering The Past at Mexico's Periphery** Gilbert M. Joseph, 2003-09-29 Surveys major trends in Yucatán s currents in Mexican historiography and suggest new departures for regional and local level research Increasingly the modern era of Mexican history c 1750 to the present is attracting the attention of Mexican and international scholars Significant studies have appeared for most of the major regions and Yucatán in particular has generated an unusual appeal and an abundant scholarship This book surveys major trends in Yucatán s currents in Mexican historiography and suggest new departures for regional and local level research Rather than compiling lists of sources around given subject headings in the manner of many historiographies the author seeks common ground for analysis in the new literature s preoccupation with changing relations of land labor and capital and their impact on regional society and culture Joseph proposes a new periodization of Yucatán s modern history which he develops in a series of synthetic essays rooted in regional political economy

**Olmec Art at Dumbarton Oaks** Karl A. Taube, Dumbarton Oaks, 2004 Olmec Art at Dumbarton Oaks presents the Olmec portion of the Robert Woods Bliss Collection of Pre Columbian Art It illustrates all thirty nine Olmec art objects in color plates and includes many complementary and comparative black and white illustrations and drawings The body of Pre Columbian art that Robert Bliss carefully assembled over a half century between 1912 and 1963 amplified only slightly since his death is a remarkably significant collection In addition to their aesthetic quality and artistic significance the objects hold much information regarding the social worlds and religious and symbolic views of the people who made and used them before the arrival of Europeans in the New World This volume is the second in a series of catalogues that will treat objects in the Bliss Pre Columbian Collection The majority of the Olmec objects in the collection are made of jade the most precious material for the peoples of ancient Mesoamerica from early times through the sixteenth century Various items such as masks statuettes jewelry and replicas of weapons and tools were used for ceremonial purposes and served as offerings Karl Taube brings his expertise on the lifeways and beliefs of ancient Mesoamerican peoples to his study of the Olmec objects in the Bliss collection His understanding of jade covers a broad range of knowledge from chemical compositions to geological sources to craft technology to the symbolic power of the green stone Throughout the book the author emphasizes the role of

jade as a powerful symbol of water fertility and particularly of the maize plant which was the fundamental source of life and sustenance for the Olmec. The shiny green of the stone was analogous to the green growth of maize. This fundamental concept was elaborated in specific religious beliefs many of which were continued and elaborated by later Mesoamerican peoples such as the Maya. Karl Taube employs his substantial knowledge of Pre-Columbian cultures to explore and explicate Olmec symbolism in this catalogue.

**Mexico** Robert Ryal Miller, 2015-01-26 This book is a skillful synthesis of Mexico's complex and colorful history from pre-Columbian times to the present. Utilizing his many years of research and teaching as well as his personal experience in Mexico, the author incorporates recent archaeological evidence, posits fresh interpretations, and analyzes such current problems as foreign debt, dependency on petroleum exports, and providing education and employment for an expanding population. Combining political events and social history in a smooth narrative, the book describes events, places, and individuals, the daily life of peasants and urban workers, and touches on cultural topics including architecture, art, literature, and music. As a special feature, each chapter contains excerpts from contemporary letters, books, decrees, or poems, firsthand accounts that lend historical flavor to the discussion of each era. Mexico has an exciting history: several Indian civilizations, the Spanish conquest, three colonial centuries during which there was a blending of Old World and New World cultures, a decade of wars for independence, the struggle of the young republic, wars with the United States and France, confrontation between the Indian president Juárez and the Austrian-born emperor Maximilian, a long dictatorship under Díaz, the Great Revolution that destroyed debt peonage, confiscated Church property, and reduced foreign economic power, and the recent drive to modernize through industrialization. *Mexico: A History* will be an excellent college-level textbook and good reading for the thousands of Americans who have visited Mexico and those who hope to visit.

When somebody should go to the ebook stores, search launch by shop, shelf by shelf, it is in point of fact problematic. This is why we present the books compilations in this website. It will categorically ease you to see guide **Sylvanus G Morley And The World Of The Ancient Mayas** as you such as.

By searching the title, publisher, or authors of guide you really want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best place within net connections. If you objective to download and install the Sylvanus G Morley And The World Of The Ancient Mayas, it is no question easy then, before currently we extend the belong to to purchase and make bargains to download and install Sylvanus G Morley And The World Of The Ancient Mayas for that reason simple!
