The Presidency and the Rhetoric of Foreign Crisis Denise M. Bostdorff,1994 *The Presidency and the Rhetoric of Foreign Crisis* examines presidential crisis management or the way U S presidents portray

foreign crises to the American public as a potent tool for the accumulation and at times the forfeiture of political power. Arguing that it is largely through presidential communication that foreign crises become real for American citizens, Bostdorff does not claim that presidents fabricate crises but rather that they vigorously advance their version of the crisis to the American public in order to rally support for their foreign policies. Bostdorff contends that presidential language can heighten the significance of events that otherwise would attract little public attention such as a coup on the tiny Caribbean island of Grenada and thereby persuade citizens to support U.S. military intervention and to view the commander in chief as a decisive victorious leader. To prove her assertions, Bostdorff presents case studies from six successive administrations. Beginning with Kennedy and the Cuban missile crisis of 1962, she examines Johnson and the Gulf of Tonkin, Nixon and Cambodia, Ford and the Mayaguez, Carter and Iran, and Reagan and Grenada. Concluding with an evaluation of Bush and Panama, Bostdorff identifies the recurring themes that defined crisis rhetoric, explains how that rhetoric encourages particular public reactions, and raises disturbing questions about the implications for the American polity.

President Johnson's War On Poverty David Zarefsky, 2005-08-21. Illustrates the interweaving of rhetorical and historical forces in shaping public policy. In January 1964, in his first State of the Union address, President Lyndon Johnson announced a declaration of unconditional war on poverty. By the end of the year, the Economic Opportunity Act became law. The War on Poverty illustrates the interweaving of rhetorical and historical forces in shaping public policy. Zarefsky suggests that an important problem in the War on Poverty lay in its discourse. He assumes that language plays a central role in the formulation of social policy by shaping the context within which people view the social world. By terming the anti-poverty effort a war, President Johnson imparted significant symbolism to the effort; it called for total victory and gave confidence that the war was winnable. It influenced the definition of the enemy as an intergenerational cycle of poverty rather than the shortcomings of the individual, and it led to the choice of community action, manpower programs, and prudent management as weapons and tactics. Each of these implications involves a choice of language and symbols, a decision about how to characterize and discuss the world. Zarefsky contends that each of these rhetorical choices was helpful to the Johnson administration in obtaining passage of the Economic Opportunity Act of 1964, but that each choice invited redefinition or reinterpretation of a symbol in a way that threatened the program.
