

The background is a complex, abstract composition. On the left, a faint, glowing profile of a human head is visible. In the center, a large, translucent sphere is filled with numerous small, translucent cubes, some of which are floating around it. To the right, a glowing DNA double helix structure is partially visible. The overall color palette is dominated by deep purples, blues, and greens, with bright highlights from the glowing elements.

A Buddha Land in This World Lajos Brons, 2022 In the early twentieth century Uchiyama Gud Seno o Gir Lin Qiuwu and others advocated a Buddhism that was radical in two respects Firstly they adopted a more or less naturalist stance with respect to Buddhist doctrine and related matters rejecting karma or other supernatural beliefs And secondly they held political and economic views that were radically anti hegemonic anti capitalist and revolutionary Taking the idea of such a radical Buddhism seriously A Buddha Land in This World Philosophy Utopia and Radical Buddhism asks whether it is possible to develop a philosophy that is simultaneously naturalist anti capitalist Buddhist and consistent Rather than a study of radical Buddhism then this book is an attempt to radicalize it The foundations of this radicalized radical Buddhism are provided by a realist interpretation of Yog c ra elucidated and elaborated with some help from thinkers in the broader Tiantai Tendai tradition and American philosophers Donald Davidson and W V O Quine A key implication of this foundation is that only this world and only this life are real from which it follows that if
