and the Development of Poetical Language in Russian Symbolism and Futurism Willem G. Weststeijn, 2025-01-27 *The Structure of Modernist Poetry (Routledge Revivals)* Theo Hermans, 2014-08-01 First published in 1982 this book provides a descriptive and comparative study of some of the fundamental structural aspects of modernist poetic writing in English French and German in the first decades of the twentieth century The work concerns itself primarily with basic structural elements and techniques and the assumptions that underlie and determine the modernist mode of poetic writing Particular attention is paid to the theories developed by authors and to the essential principles of construction that shape the structure of their poetry Considering the work of a number of modernist poets Theo Hermans argues that the various widely divergent forms and manifestations of modernistic poetry writing can only be properly understood as part of one general trend

Influence of Symbolist Poetry on the Development of Debussy's Musical Language Judith Hughes, 1996 **The Symbolist Movement in the Literature of European Languages** Anna Balakian, Anna Elizabeth Balakian, 1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist

method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today [A History of Modernist Poetry](#) Alex Davis, Lee M. Jenkins, 2015-04-27 A History of Modernist Poetry examines innovative anglophone poetries from decadence to the post war period The first of its three parts considers formal and contextual issues including myth politics gender and race while the second and third parts discuss a wide range of individual poets including Ezra Pound T S Eliot W B Yeats Mina Loy Gertrude Stein Wallace Stevens William Carlos Williams and Marianne Moore as well as key movements such as Imagism Objectivism and the Harlem Renaissance This book also addresses the impact of both World Wars on experimental poetries and the crucial role of magazines in disseminating and proselytizing on behalf of poetic modernism The collection concludes with a wide ranging discussion of the inheritance of modernism in recent writing on both sides of the Atlantic [A History of Russian Symbolism](#) Avril Pyman, 2006-03-09 This book is the first detailed history of the Russian Symbolist movement from its initial hostile reception as a symptom of European decadence to its absorption into the mainstream of Russian literature and eventual disintegration It focuses on the two generations of writers whose work served as the seedbed of Existentialism in thought and of Modernism in prose and the performing arts and reassesses their achievements in the light of modern research At the centre of the study are the texts themselves with prose quoted in English translation and poetry given in the original Russian with prose translations There is a valuable bibliography of primary sources and an extensive chronological appendix This book will fill a long felt gap and will be invaluable to students and teachers of Russian and comparative literature Symbolism Modernism and pre revolutionary Russian culture [Melodies in History: Mankind Expressed Through Poetry](#) Pasquale De Marco, Journey through the annals of human history and expression with this captivating anthology of poetry that spans cultures centuries and continents From the ancient scribes of Mesopotamia to the contemporary voices of the 21st century this comprehensive collection showcases the diverse forms themes and styles that poetry has taken throughout time Within these pages you ll find poems that explore the vast tapestry of human experience love loss joy sorrow hope despair triumph and tragedy You ll encounter verses that celebrate the beauty of nature ponder the mysteries of existence and challenge the boundaries of language itself This anthology is a testament to the enduring power of poetry to capture the essence of our shared humanity It features works by poets from every corner of the globe each with a unique perspective on the human condition Whether you re drawn to the lyrical beauty of ancient Chinese poetry the philosophical musings of medieval troubadours or the free verse experimentation of modernists you re sure to find something to resonate with in this rich and varied collection With its comprehensive selection of poems and insightful commentary this anthology is an invaluable resource for students scholars and poetry enthusiasts alike It s also a perfect companion for anyone seeking

French Symbolist Poetry and the Idea of Music Joseph Acquisto,2017-03-02 What role did music play in the creation of a new aesthetics of poetry in French from the 1860s to the 1930s How did music serve as an unassimilable other against which the French symbolist poets crafted a new poetics And why did music gradually disappear from early twentieth century poetic discourse These are among the questions Joseph Acquisto poses in his lively study of the ways in which Baudelaire Mallarmé Ghil and Roy re question the nature and function of the lyric through an ever shifting set of intertextual and cultural contexts Rather than focusing on musicality in verse the author addresses the consequences of choosing music as a site of dialogue with poetry Acquisto argues that memory plays an under acknowledged yet vital role in these poets rewriting of symbolist poetics His reading of their interactions and his focus on both major and neglected poets exposes the myth of a small handful of great authors shaping symbolism while a host of disciples propagated the tradition Rather Acquisto proposes the multiplicity of authors writing and rewriting symbolism invites a dialogic approach to the poetics of the period Moreover music as theorized rather than performed or heard serves as a privileged mobile space of poetic creation and dialogue for these poet critics it is through engagement with music supposedly the purest or most abstract of the arts that one can retrace the textual and cultural transformations accomplished by the symbolist tradition By extension these poets rethinking of poetics is an occasion for present day critics to re examine assumptions not only about the intersections of music and poetry and our understanding of symbolist poetics but also about the role that the aesthetic implicitly plays in the creation preservation or reshaping of cultural memory

The Development of Russian Verse Michael Wachtel,1998 The Development of Russian Verse explores the Russian verse tradition from Pushkin to Brodsky showing how certain formal features are associated with certain genres and at times specific themes Michael Wachtel s basic thesis is that form is never neutral poets can react positively in terms of stylization and development or negatively in terms of parody or revision to the work of their predecessors but they cannot ignore it Keeping technical terms to a minimum and

providing English translations of quotations Wachtel offers close readings of individual poems of more than fifty poets He aims to help English speaking readers reconstruct the strong sense of continuity that Russian poets have always felt transcending any individual age or ideology Ultimately his 1999 book is an inquiry into the nature of literary tradition itself and how it coalesces in a country that has always taken so much of its identity from its written legacy

Self and Symbolism in the Poetry of Michelangelo, John Donne and Agrippa D'Aubigne A.B. Altizer, 2012-12-06 Alienation ecstasy death rebirth in the poetry of Michelangelo Donne and d Aubigne these archetypal themes make possible the ultimate formulation of new poetic symbolizations of self and world As their poetry evolves from a primarily rhetorical towards a fully symbolic mode images of loss of self in ecstasy or in alienation of death and rebirth recur with increasing frequency and intensity Whether the context is love poetry or religious poetry the basic problem remains the same love is the link between the two kinds of poetry And love is indeed a problem for these three poets since it involves the self in relation to the other the other being either God or another human being Increasingly the work of each poet centers on a need to analyze or abolish the gulf separating subject and object self and other The dominant mode of most of the three poets work is neither rhetorical nor symbolic but expressive This transitional mode reveals the individual poet s most urgent concerns and conflicts his sense of self in Its most isolated or burdensome affirmative or struggling state Under lying most of their poems is a profound self consciousness a heightened awareness of self as a powerful separate entity with a corresponding objectification of all reality outside of self The Renaissance in general is a time of increasing individualism and 1 self consciousness

Ezra Pound and the Symbolist Inheritance Scott Hamilton, 2014-07-14 In this revisionary study of Ezra Pound s poetics Scott Hamilton exposes the extent of the modernist poet s debt to the French romantic and symbolist traditions Whereas previous critics have focused on a single influence Hamilton explores a broad spectrum of French poets including Thophile Gautier Tristan Corbire Jules Laforgue Remy de Gourmont Henri de Rgnier Jules Romains Laurent Tailhade Paul Verlaine and Stphane Mallarm This exploration of Pound s canon demonstrates his logic in borrowing from the French tradition as well as a paradoxical circularity to his poetic development Hamilton begins by explaining how Pound read Gautier s poetry as an example of Parnassianism and of the satirical realism of Flaubert and the modern novelistic tradition He reveals however a crucial blind spot in Pound s poetic

vision that facilitated his return to precisely those romantic and proto symbolist elements in Gautier that were celebrated by Baudelaire and Mallarmé and that Pound as a modern poet felt obliged to repress. Arguing that Pound's response to symbolism was not specifically modernist, Hamilton shows how his dual attraction to the lyric and prose traditions to symbolism and realism and to the visionary and the historical helps us better to understand our own post-modern sensibility. A Literary History of France Émile Faguet, 1907

[A History of Women's Writing in Russia](#) Adele Marie Barker, Jehanne M. Gheith, 2002-07-11 A History of Women's Writing in Russia offers a comprehensive account of the lives and works of Russia's women writers. Based on original and archival research, this volume forces a re-examination of many of the traditionally held assumptions about Russian literature and women's role in the tradition. In setting about the process of reintegrating women writers into the history of Russian literature, contributors have addressed the often surprising contexts within which women's writing has been produced. Chapters reveal a flourishing literary tradition where none was thought to exist. They redraw the map defining Russia's literary periods; they look at how Russia's women writers articulated their own experience and they reassess their relationship to the dominant male tradition. The volume is supported by extensive reference features including a bibliography and guide to writers and their works.
