*Decadents, Symbolists, & Aesthetes in America* Edward Halsey Foster, 2000 Poetry Prose DECADENTS SYMBOLISTS AESTHETES IN AMERICA brings together works by various late nineteenth and early twentieth century American and Canadian poets Conrad Aiken Walter Conrad Arensberg Ambrose Bierce Gelett Burgess Bliss Carman Madison Cawein Stephen Crane Gertrude Hall Richard Hovey James Huneker Ludwig Lewisohn Stuart Merrill Edgar Saltus and Vance Thompson to give a fuller sense of literary life and values in fin de siècle America American literature and life could be much more colorful and European than history commonly admits      The Symbolist Movement in the Literature of European Languages Anna Balakian, 1984-01-01 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today

Sex, Symbolists and the Greek Body Richard Warren, 2019-11-14 This book explores Symbolist artists' fascination with ancient Greek art and myth and how the erotic played a major role in this For a brief period at the end of the 19th century the Symbolist movement inspired artists to turn inwards to the unconscious mind endeavouring to unveil the secrets of

human nature through their symbolic art But above all their greatest interest and fear was man and woman s sexuality Building upon the traditions of Academic neoclassicism but fired with a new zeal they turned back to Greek art and myth for inspiration That classical legacy was once again a vehicle for artists to express their dreams ideas and revelries And so too their anxieties For at times the frightening spectre of the sexual unconscious drove them to a new and innovative engagement with antiquity including in ways never before tried in the history of the classical tradition The unnerving sirens of Gustave Moreau unearthly heroines of Odilon Redon or leering fauns of Felicien Rops all played their role among others in this novel and unprecedented chapter in that tradition This book shows how in their painting drawing and sculpture the Symbolists re invented Greek statuary and transposed it to new and unwonted contexts as the imaginary inner worlds of artists were mapped onto the landscapes of Greek myth It shows how they made of the Greek body whether female male androgyne or sexual other at once an object of beauty desire fear and at times of horror

The Institutions of Russian Modernism Jonathan Stone,2017-10-15 The Institutions of Russian Modernism illuminates the key role of Symbolism as the earliest form of modernism in Russia emerging seemingly ex nihilo at the end of the nineteenth century Combining book history periodical studies and reception theory Jonathan Stone examines the poetry and theory of Russian Symbolism within the framework of the institutions that organized published and disseminated the works to Russian readers Surveying a wealth of examples of books journals and almanacs Stone traces how publishers of Symbolist works marketed the movement and fashioned a Symbolist reader His persuasive argument that after its eclipse Symbolism s legacy remained embedded in the heart of Russian modernism will be of interest to scholars and general readers

**Poetry and Radical Politics in Fin de Siècle France** Patrick McGuinness, 2015 Poetry and Radical Politics in fin de siècle France explores the relations between poetry and politics in France in the last decade of the 19th century The period covers perhaps the most important developments in modern French poetry from the post Commune climate that spawned the decadent movement through to the allegedly ivory towered aestheticism of Mallarmé and the Symbolists In terms of French politics history and culture the period was no less dramatic with the legacy of the Commune the political and financial instability that followed the anarchist campaigns the Dreyfus affair and the growth of Action française Patrick McGuinness argues that the anarchist politics of many Symbolist poets is a reaction to their own isolation and to poetry's anxious relations with the public too difficult to be widely read Symbolist poets react to the loss of poetry's centrality among the arts by delegating their radicalism to prose they can call in prose for the overthrow of the state and support anarchist bombers while at the same time writing poems about dribbling fountains and dazzling sunsets for each other This study demonstrates the connections between the anti Symbolist reaction of the *École romane* of 1891 in which Charles Maurras first made his name and the far right cultural politics of Action française in the early 20th century It also redefines many of the debates about late 19th century French poetry by putting an argument forward for the political engagements of the Symbolists while the French intellectual as a national icon was being forged McGuinness insists on profound continuities between the end of the 19th century and the beginning of the 20th in terms of cultural politics literary debate and poetic theory and shows how politics is to be found in unexpected ways in the least political seeming literature of the period The famous line by Peguy that everything begins in mysticism and ends in politics has an appealing sweep and grace This book has its own more modest and specific version of a similar journey it begins in Mallarmé and ends in Maurras
