varied as Boston's Symphony Hall New York's office skyscrapers and the soundstages of Hollywood The control provided by these technologies however was applied in ways that denied the particularity of place and the diverse spaces of modern America began to sound alike as a universal new sound predominated Although this sound clear direct efficient and nonreverberant had little to say about the physical spaces in which it was produced it speaks volumes about the culture that created it By listening to it Thompson constructs a compelling new account of the experience of modernity in America
