Leonard Bernstein and His Young People's Concerts Alicia Kopstein-Penk, 2015-01-22 Leonard Bernstein touched millions of lives as composer conductor teacher and activist He frequently visited homes around the world through the medium of television particularly through his fifty three award winning Young People's Concerts 1958 1972 which at their height were seen by nearly ten million in over forty countries Originally designed for young viewers but equally attractive to eager adults Bernstein's brilliance as a teacher shined brightly in his televised presentations And yet despite the light touch of the maestro the innocence of his audience and the joyousness of each show's topic the turbulence of the times would peek through In this first in depth look at the series Alicia Kopstein Penk's *Leonard Bernstein and His Young People's Concerts* illustrates how the cultural social political and musical upheavals of the long sixties impacted Bernstein's life and his Young People's Concerts Responding to trends in corporate sponsorship censorship and arts programming from the Golden Age of Television into the 1970s the Young People's Concerts would show the impact of and reflect the social and cultural politics of the Cold War Vietnam the Civil Rights and Women's Movements and the Counterculture Bernstein cheerfully bridged classical and popular tastes juxtaposing the Beatles with Mozart even as he offered personal televised pleas for peace and unity At the same time the concerts reflect Bernstein's troubled relationship as a professional musician with the dominance of atonality and his quest to nurture American music Anyone who enjoys the oeuvre of Leonard Bernstein has watched his Young People's Concerts or is passionate about the history of the long sixties will find in *Leonard Bernstein and His Young*

People's Concerts a story of all three captured in this monumental study Mendelssohn, Time and Memory Benedict Taylor, 2011-10-27 Felix Mendelssohn has long been viewed as one of the most historically minded composers in western music. This book explores the conceptions of time, memory, and history found in his instrumental compositions, presenting an intriguing new perspective on his ever popular music. Focusing on Mendelssohn's innovative development of cyclic form, Taylor investigates how the composer was influenced by the aesthetic and philosophical movements of the period. This is of key importance not only for reconsideration of Mendelssohn's work and its position in nineteenth century culture but also more generally concerning the relationship between music, time, and subjectivity. One of very few detailed accounts of Mendelssohn's music, the study presents a new and provocative reading of the meaning of the composer's work by connecting it to wider cultural and philosophical ideas. The School Musician, 1929 The Standard Symphonies George Putnam Upton, 1888 **Catalogue of the Allen A. Brown Collection of Music in the Public Library of the City of Boston** Allen A. Brown Collection (Boston Public Library), 1915 Beethoven's Chamber Music in Context Angus Watson, 2012 A noted violinist and conductor, Watson is particularly well suited for his chosen task, outlining the historical context and character of more than 50 of the chamber works that Beethoven composed during his years in Vienna. Avoiding the pitfalls of becoming too critical or academic, the author characterizes each composition in general terms only and does not discuss changing styles of performance. Instead, Watson provides information on a work's historical background and character and on the musical points of interest in each movement. He pays special attention to the influence of Beethoven's large-scale compositions on his chamber music and on the composer's increasing mastery of improvisation. Filling a hole in scholarship on Beethoven's compositions, this book will be greatly appreciated by professional and amateur musicians.
