Synergic Power Beyond Domination and Permissiveness James Harvey Craig, Marguerite Craig, 1974 *Synergic Power* James Harvey Craig, Marguerite Craig, 1979-06 *Design for Commuality and Privacy* A. H. Esser, 2012-12-06

Complex Interpersonal Conflict Behaviour Evert Van der Vliert, 2013-05-24 This book is about reactions to interpersonal conflict such as avoiding negotiating and fighting It breaks away from the prevailing assumption that conflict behaviours are mutually isolated reactions having mutually isolated effects Instead reactions are viewed as components of complex conflict behaviour that influence each other s impact on the substantive and relational outcomes The simultaneous and sequential occurrence of for example problem solving and fighting should therefore be studied together and not separately The author presents a ladder of stepwise increases in theoretical quality and designs the sequence of chapters in such a way that the theoretical value increases step by step The lower steps lead to the description of behavioural components and to a model of integrative and distributive dimensions The upper steps lead to the dimensions of dual concern for one s own and the other s goals and to complexity explanations in terms of the novel paradigm of conglomerated conflict behaviour The chapters are summarised into thirty four interrelated propositions Six empirical studies demonstrate the validity of crucial propositions at each level of the theoretical framework This monograph primarily reaches out to an academic readership However due to its clear structure its comprehensive propositions its frequent use of figures and its glossary the book will also provide an invaluable resource for any student and practitioner interested in conflict management and negotiation

You Were Born With Personal Power Homier Moss, 2017-02-01 We are living in the 21st century with unlimited possibilities This is the era that people have been looking forward to for over a thousand years We have access to everything You can truly be do or have anything you want Unfortunately most people remain helpless and powerless to making changes in their lives We live in a world today where people can make changes on their smart phones but can not make changes in their lives The key to your success in life is your personal power

Transforming Power Seth Kreisberg, 1992-01-01 This book is about power power in the classroom in our schools and in our society Schools teachers students and teaching exist in a churning cauldron of interrelated institutions and social forces Power relations in schools reflect these larger societal forces and the interconnections of our institutions This book is also about empowerment the empowerment of teachers and students It explores the process through which people develop more control over their lives and acquire the skills and dispositions necessary to be critical and effective participants in our society The heart of this book and Kreisberg s unique contribution to the empowerment literature is his elucidation of the difference between power over and power with in his search to understand the nature of power that can empower individuals and communities Kreisberg draws upon educational political feminist and psychological theory and especially the voices of teachers in his framing of the question What are the dynamics of power that we as teachers can create in our relationships with our students that will be empowering for both our students
