Sex, Needs and Queer Culture Doctor David Alderson, 2016-04-15 The belief of many in the early sexual liberation movements was that capitalism s investment in the norms of the heterosexual family meant that any challenge to them was invariably anti capitalist In recent years however lesbian and gay subcultures have become increasingly mainstream and commercialized as seen for example in corporate backing for pride events while the initial radicalism of sexual liberation has given way to relatively conservative goals over marriage and adoption rights Meanwhile queer theory has critiqued this homonormativity or assimilation as if some act of betrayal had occurred In *Sex Needs and Queer Culture* David Alderson seeks to account for

these shifts in both queer movements and the wider society and argues powerfully for a distinctive theoretical framework Through a critical reassessment of the work of Herbert Marcuse as well as the cultural theorists Raymond Williams and Alan Sinfield Alderson asks whether capitalism is progressive for queers evaluates the distinctive radicalism of the counterculture as it has mutated into queer and distinguishes between avant garde protest and subcultural development In doing so the book offers new directions for thinking about sexuality and its relations to the broader project of human liberation
